Death in Florence Book Boost by Engage Editore

This is a clinical handbook for practitioners of Traditional Chinese Medicine (TCM) that aims to provide quick and easy reference to the selection of herbs for treatment and their action alone and in combination. Written by two eminent teachers from the Nanjing College of Traditional Chinese Medicine, who between them have accumulated over 60 years of clinical practice and teaching, this handbook emphasizes how to combine herbs and differentiate between single herbs and formulae depending on the treatment strategy adopted. It contains case histories illustrating how to adapt formulae in practice, and tables of information help with quick identification of herbs and combinations of herbs."

Nutrition and Lifestyle for Pregnancy and Breastfeeding Routledge

Practical Management of Dementia, Second Edition remains a comprehensive guide to identifying the challenges faced in caring for patients with dementia. Integrating new research into the diagnosis, detection and management of dementia, this book brings together a wealth of extensive practical experience and knowledge. It answers questions on medical, psychological and social management in an informative, evidence-based manner. Emphasising the need for a variety of pharmacological, psychological and social approaches that can be adapted for individual patients, it also encourages an understanding of the patients' spiritual needs. Reviews of the First Edition: 'This is a highly readable and useful resource.' NURSING STANDARD

'Comprehensive and valuable. Of merit to all healthcare team members from all care setting perspectives.' GERIATRICS TODAY
'Consistent and clear, well written and edited.' THE JOURNAL OF DEMENTIA CARE

Sentimental Education in Chinese History John Wiley & Sons

In an era of accelerating technology and increasing complexity, how should we reimagine the emancipatory potential of feminism? How should gender politics be reconfigured in a world being transformed by automation, globalization and the digital

revolution? These questions are addressed in this bold new book by Helen Hester, a founding member of the 'Laboria Cuboniks' collective that developed the acclaimed manifesto 'Xenofeminism: A Politics for Alienation'. Hester develops a three-part definition of xenofeminism grounded in the ideas of technomaterialism, anti-naturalism, and gender abolitionism. She elaborates these ideas in relation to assistive reproductive technologies and interrogates the relationship between reproduction and futurity, while steering clear of a problematic anti-natalism. Finally, she examines what xenofeminist technologies might look like in practice, using the history of one specific device to argue for a future-oriented gender politics that can facilitate alternative models of reproduction. Challenging and iconoclastic, this visionary book is the essential guide to one of the most exciting intellectual trends in contemporary feminism. *Practical Management of Dementia* Springer Science & Business Media

A heartwarming celebration of the special relationship between a father and daughter from Instagram sensation Soosh. Whether they're playing make-believe, making you smile, or warding off monsters under the bed, dads are always there when you need them. Debut picture book artist Soosh celebrates fathers with a gorgeously illustrated and moving story about the parent-child bond. When Soosh first posted her initial series of images of a larger-than-life father and his adorable daughter on Instagram, fans from across the world immediately took notice with over 2 million views on a popular viral content website in a single week. These illustrations now come together in a universally relatable story of familial love for parents and children to share.

Living Alkaline, Living Happy. Restoring the Acid-base Balance of Extracellular Matrix for the Health of Body and Mind Oxford University Press

PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used

as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend- ent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky.

Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we don't deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

Prison to Praise Naturvis Books

'The Third Paradise is an evolutionary transition in which human intelligence finds ways to coexist with the intelligence of nature.' - Back cover.

The Brain and the Meaning of Life CRC Press

Defending the superiority of evidence-based reasoning over religious faith and philosophical thought experiments, Thagard argues that minds are brains and that reality is what science can discover. Brains come to know reality through a combination of perception and reasoning. Just as important, our brains evaluate aspects of reality through emotions that can produce both good and bad decisions. Our cognitive and emotional abilities allow us to understand reality, decide effectively, act morally, and pursue the vital needs of love, work, and play. Wisdom consists of knowing what matters, why it matters, and how to achieve it." - Jacket.

Pinocchio's Adventures in Wonderland Balance

A systematic effort to rethink Freud's theory of the unconscious, aiming to separate out the different forms of unconsciousness. The logico-mathematical treatment of the subject is made easy because every concept used is simple and simply explained from first principles. Each renewed explanation of the facts brings the emergence of new knowledge from old material of truly great importance to the clinician and the theorist alike. A highly original book that ought to be read by everyone interested in psychiatry or in Freudian psychology.

A Clinical Guide to Chinese Herbs and Formulae Jessica Kingsley Publishers

In this extraordinary bulk-building guide, one of the leading authorities on fitness and bodybuilding provides a specific, day-by-day instruction for achieving the ultimate physique.

Aha! Perigee Trade

Explaining the practical implications of new discoveries in 'life-

course biology', Nutrition and Lifestyle for Pregnancy and Breastfeeding is an informed resource on factors that affect offspring development. The impact of parental lifestyle and behavioural choices influence not only fetal development and birth outcomes, but also postnatal development, yet guidance on appropriate diet, behaviour, and exposures during pregnancy is often confusing and contradictory. With accessible explanations of the latest scientific research, and clear summaries and recommendations, this book is a valuable and authoritative guide for all levels of health care providers. The authors provide an overview of the background evidence, highlighting the importance of lifestyle choices prior to and during pregnancy. In-depth discussions of nutritional and lifestyle factors that impact on pregnancy and offspring outcomes are based on the latest research and exploration of key scientific studies. Nutrition and Lifestyle for Pregnancy and Breastfeeding is a manual offering both scientific and clinical evidence to empower health care providers and ensure they have the information necessary to confidently care for prospective and new parents.

Dad By My Side National Academies

This comprehensive review of scientific research supporting evidence of the relationship between cardiac disease and psychological condition offers practical suggestions for developing a clinical practice, and proposes directions for future research in the new field of "cardiac psychology". Every chapter is written by world-renowned researchers in the field. A theoretical and practical guide, it will interest physicians, clinical and health psychologists, and all professionals who seek to understand the mind-health link.

Dante Vivo Papini Press

In this innovative book Fabio Folgheraiter presents a systematic introduction to networking and reflexive practice in social work. The text explores how the interested parties in social care can acquire a shared power in care planning and decision making and that when this networking occurs, the efficacy of caring initiatives increases.

Infiammazione Cronica Silente Marsilio Editori

Music therapy is recognised as being applicable to a wide range of healthcare and social contexts. Since the first edition of Music Therapy: An art beyond words, it has extended into areas of general medicine, mainstream education and community

practice. This new edition revises the historical and theoretical perspectives and recognises the growing evidence and research base in contemporary music therapy. Leslie Bunt and Brynjulf Stige document the historical evolution of music therapy and place the practice within seven current perspectives: medical, behavioural, psychoanalytical, humanistic, transpersonal, culture-centred and music-centred. No single perspective, individual or group approach is privileged, although the focus on the use of sounds and music within therapeutic relationships remains central. Four chapters relate to areas of contemporary practice across different stages of the lifespan: child health, adolescent health, adult health and older adult health. All include case narratives and detailed examples underpinned by selected theoretical and research perspectives. The final two chapters of the book reflect on the evolution of the profession as a community resource and the emergence of music therapy as an academic discipline in its own right. A concise introduction to the current practice of music therapy around the world, Music Therapy: An art beyond words is an invaluable resource for professionals in music therapy and music education, those working in the psychological therapies, social work and other caring professions, and students at all levels.

Gorsky BRILL

Florence, October 1966. The rain is never-ending. When a young boy vanishes on his way home from school the police fear the worst, and Inspector Bordelli begins an increasingly desperate investigation. Then the flood hits. During the night of 4th November the swollen River Arno, already lapping the arches of the Ponte Vecchio, breaks its banks and overwhelms the city.

The Healing Code Routledge

Cara anima in viaggio, non è un caso che tu sia qui: il cuore ha il campo energetico più potente del nostro corpo e sa esattamente dove e con chi sintonizzarsi. Ho scritto questo libro proprio per te, che ora vivi nel dolore fisico e interiore, per te che affronti giorni di sole e di tempesta accanto a chi soffre nel proprio percorso di vita. In queste pagine racconto la mia esperienza che, partita da una malattia cronica, è diventata un viaggio all'interno di me... in quel duro momento ho cominciato a ricordare chi sono davvero, il mio imprinting genetico, fino a giungere, oltre il tempo e lo spazio, al nucleo primigenio: la mia anima. In questo libro voglio raccontarti la mia esperienza, che è diventata un percorso di

guarigione dell'anima. Voglio parlarti della strada che ho percorso per decifrare il messaggio della malattia, il suo significato, la sua interpretazione e come sono riuscita a convertirlo realmente, nella vita di tutti i giorni, nei passi evolutivi necessari per elaborare e accettare il tutto. Come riscatto da questo processo conoscitivo e di crescita ci spetta una nuova qualità interiore, una personalità più matura. Oggi creo spazi di connessione interiore profonda e di guarigione tra anime che hanno sperimentato la malattia cronica, condividendo strumenti di evoluzione personale e antiche pratiche spirituali, con lo sguardo sempre aperto alla ricerca scientifica, perché ognuna possa percorrere con gioia il proprio sentiero verso la luce della guarigione, risvegliando la potenza del cuore, e giungendo così alla pienezza della propria manifestazione." ----- L'autrice: Teresa Laviola è nata in Campania e vive in Abruzzo, la sua terra d'adozione forte e gentile, assieme al marito e ai loro quattro figli. Ispirata da ragazzina a farsi portavoce dei diritti delle persone più fragili, ha intrapreso la professione di avvocato dedicandosi in particolare alle famiglie e ai minori e ha formato altri professionisti alla gestione costruttiva dei conflitti in ambito legale, medico e penitenziario, apportando il suo contributo in libri e riviste. Nel febbraio 2017 Teresa si è ammalata di artrite e di fibromialgia, vivendo così l'esperienza più potente e trasformativa della sua vita che l'ha condotta a formarsi come life coach per riscoprirsi esploratrice delle leggi del cuore. Attualmente, Teresa crea spazi di connessione interiore profonda e di guarigione spirituale tra anime che sperimentano la malattia cronica, condividendo strumenti di evoluzione personale e antiche pratiche energetiche con uno sguardo sempre aperto alla ricerca scientifica, perché ognuna possa risvegliare la sacralità del corpo al fine di giungere alla pienezza della propria manifestazione.

Michaelangelo Pistoletto Naturvis Books

This book indicates the technique and fine points of the mini- and one-anastomosis gastric bypass, and looks at the means of revising other operations related to it. The chapters discuss postoperative complications, treatment and requirements, postoperative diet and medications, the remarkable effects on the

co-morbidities of morbid obesity, and the durability of the weight loss, as well as the improvement in the quality of life. *Essentials of Mini – One Anastomosis Gastric Bypass* aims to help surgeons manage the difficulties encountered within this procedure and to help create improved practice.

Long Covid: una nuova sfida oltre l'emergenza. Come

ritrovare benessere e salute dopo il Covid-19 Hodder Paperbacks Narrative medicine emerged in response to a commodified health care system that places corporate and bureaucratic concerns over the needs of the patient. This book provides an introduction to the principles of narrative medicine and guidance for implementing narrative methods.

The Yellow Emperor's Classic of Internal Medicine Springer

The 50th Anniversary edition of the ground-breaking, worldwide bestselling feminist tract. 'The Female Eunuch retains that power of transformation; it asserts the possibility of creativity within female experience' Guardian

Essentials of Mini – One Anastomosis Gastric Bypass Oxford University Press

Nel mondo milioni di "guariti" dal Covid-19 continuano a distanza di mesi a lamentare stanchezza, dolori, decine di piccoli e grandi malesseri, fino a ritrovarsi in vere e proprie sabbie mobili esistenziali. Questa entità clinica così indefinita, alla quale la Medicina fatica a trovare una risposta risolutiva, è chiamata Long Covid e interessa fino al 50% di coloro che hanno contratto l'infezione da SARS-CoV-2, compreso gli asintomatici. In questo libro il Dott. Andrea Grieco ne spiega le cause e lancia una sfida precisa: - ai pazienti, indicando concrete vie di uscita da una penosa condizione che spesso sembra senza speranza, per ritrovare vera salute e gioia di vivere; - alla Medicina, perché torni alla sua vocazione di tutela e promozione della salute, indagando sul come e perché si verifica la malattia, affrontandone le cause alla radice, e non limitandosi alla prescrizione di esami e alla sola somministrazione del farmaco per ogni sintomo, come spesso oggi accade. Andrea Grieco, è Medico e Psicoterapeuta. Si è specializzato in Neurologia e Nefrologia all'Università di Firenze e

perfezionato in Medicina Naturale e Biotecnologie all'Università di Milano. È una figura di riferimento di quella che viene definita la Medicina Funzionale, approccio medico fondato sulla Scienza e centrato sulla comprensione dettagliata dei fattori genetici, biochimici e fisiologici di ciascun paziente, per affrontare alla base le cause della malattia e promuovere il benessere ottimale. È uno dei pionieri a livello internazionale degli studi sulla Matrice Extracellulare (MEC) e della Psiconeuroendocrinoimmunologia (PNEI). Speaker, divulgatore scientifico, e autore di bestseller su salute, alimentazione e benessere, tra cui "La Nutrizione dal 2020 in poi", "Fibromialgia finalmente buone notizie", "Vivere alcalini vivere felici".

Bigger Muscles in 42 Days Abrams

"An impressively accomplished retelling of the Gatsby story," in which a Russian businessman engages an impoverished bookseller's help pursuing a lover. (Los Angeles Review of Books) On a rainy afternoon in London's old Chelsea, a charming multi-billionaire Russian oligarch, Gorsky, walks into an ailing bookshop and writes the first of several quarter-of-a-million pound checks. With that money, Gorsky has tasked Nikola, the store's bored and brilliant clerk, with sourcing books for a massive personal library, which will be housed in the magnificent, palatial home Gorsky happens to be building immediately next to Nikola's own modest dwelling. Gorsky needs a tasteful collection of Russian literature to woo a long-lost love—no matter that she happens to be married to an Englishman. His passion for her surpasses even his immeasurable wealth, and Nikola will be drawn into a world of opulence, greed, capitalism, sex, and beauty as he helps Gorsky pursue this doomed love. "An accomplished retelling of an American classic." —Tablet "It's a very clever idea: to update "The Great Gatsby" by making the bootlegger into a Russian arms-dealing billionaire and transplanting the action from Jazz Age New York to 21st-century London, a city increasingly shaped by global wealth." —The New York Times Book Review "A tense, witty page-turner." —The Spectator "Entertaining." —New York Journal of Books "[A] kind of novel-length love letter to the written word." —Jewish Book Council
