 How deep is the importance and influence of organized sports in Alberta? Discover key episodes and players in the history of Alberta's organized sports and read how sport shaped the lives of individuals as well as of communities of indigenous people, settlers, and immigrants. Read new perspectives on well-known sports stories along with tales of lesser-known games that remained on the margins of most histories for reasons of race, class, and gender. Whether a spectator, supporter, scholar, or fan, readers will be informed and delighted by the research contained in this sport history.

 The glory days of rock from the perspective of Canada's original music magazine. The story of Music Express is told through the unique perspective of Keith Sharp, the magazine's founder and editor. During its seventeen-year existence, Music Express rose from a small, Calgary-based regional magazine to an international publication. The interviews, anecdotes, and stories cover the golden era of Canadian music, with the rise to global status of such icons as Bryan Adams, Loverboy, Rush, Celine Dion, and Triumph. Their stories, as well as many more, are captured together with an array of classic rock photography that provides a unique time capsule. From Sharp's Calgary roots in 1976 to the heady heights of his publication's growth, he details foreign adventures covering the likes of David Bowie in Australia, KISS in West

Germany, and Iron Maiden in Poland, along with other high-profile interviews including U2, Paul McCartney, Iron Maiden, and Rod Stewart.

Sports Geek is a visual and numerical tour through sporting debates and ideas. Sport revolves around two things: narrative and numbers. You need the narrative, otherwise why would anyone care about sport? Rivalries, emotions, and sporting legends all require it. But sport also needs numbers. Without them, we have no idea who has won. We need numbers to tell which team is top of the table, or who is the world champion. Teams in all sports use data to create extraordinary analysis of how their players perform, to assess tactics and to get an edge over arch rivals; but fans are rarely presented with challenging and informative data that would help them to further understand sport. You'll never see sport the same way again.

Financial Management in the Sport Industry provides readers with an understanding of sport finance and the importance of sound financial management in the sport industry. It begins by covering finance basics and the tools and techniques of financial quantification, using current industry examples to apply the principles of financial management to sport. It then goes beyond the basics to show how financial management works specifically in sport - how decisions are made to ensure wealth maximization. Discussions include debt and equity financing, capital budgeting, facility financing, economic impact, risk and return, time value of money, and more. The final section focuses on sport finance in three sectors of the industry - public sector sports, collegiate athletics, and professional sport-providing in-depth analysis of financial management in each sector. Sidebars, case studies, concept checks, and practice problems throughout provide practical applications of the material and enable thorough study and practice. The business of sport has changed dynamically since the publication of the first edition, and this second edition reflects the impact of these changes on financial management in the sport industry. New to this edition are changes to reflect the global nature of sport (with, for example, discussions of income tax rates in the Premiere League), expanded material on the use of spreadsheets for financial calculations, a primer on accounting principles to help students interpret financial statements, a valuation case study assignment that takes students step by step through a valuation, a new stadium feasibility analysis using the efforts of the Oakland Raiders to obtain a new stadium, a new economic impact example focusing on the NBA All Star game, and much more.

Canada Geography-Statistics say most kids know less geography than ever-don't let that apply to your students! Start by making sure kids know the main places & geographic features in their own country. Give them activities that pretend they are taking a cross-country bike tour, using free football game passes, jogging through the country, etc., & they'll find their way around in a hurry! Geography activities include information on provinces, cities, rivers, regions, museums, historic places, sites of interest, colleges, bordering

countries, climate, topography, crops and more, all ready to reproduce!

Approximately 30 activities and 200 geography-related places and facts are covered. Students work alone or in groups and use maps, reference books or resource people to complete challenging riddles, matching games, word searches, fill-in lists, scavenger hunts, and completion exercises that reinforce learning, sharpen research skills, and provide a lively introduction to Canada. *Standard Catalog of Baseball Cards* University of Alberta

"The Funniest People in Sports: 250 Anecdotes About Sports" contains such anecdotes as the following: Umpire Beans Reardon once made a mistake. Richie Ashburn slid into second base and Billy Cox attempted to tag him. Beans yelled "Safe," but at the same time he flung his arm in the "Out" gesture. Mr. Ashburn asked, "What the hell does that mean?" Mr. Reardon replied, "Richie, you know you're safe. Billy, you know he's safe. But 30,000 fans see my arm. Richie, you're out." Figure skater Rosalynn Sumners has a tendency to put on weight. When she was skating for Disney, her contract required her to be weighed each week, and if she was three pounds over her

desired weight, Disney fined her \$10. After a while, Ms. Sumners began to stand on the scales each week with a \$10 bill in her hand.
