ZAHOOR RASHID RATHER Universal forestry contains all the major subjects of forestry including memory based previous years JRF/SRF papers and key points of latest state forest report. The book covers 22 chapters in bullets forms as well as in the tabulated form. This book first edition was highly demandable among the competitors. The unique feature of this book is that all the major Forestry subjects are included in this book. Primary 'Universal Forestry 2nd Edition' is highly useful for ICAR JRF/SRF/NET examinations as well as other allied Forest service examinations. Most important thing is that this book is purely based on ICAR JRF/SRF and NET syllabus. This book includes state wise Forest profile in tabulated form which is very important for all Forestry examinations as well as the interviews of Forestry fields. This book again makes sure that its readers will be able to attempt all the questions asked in ICAR JRF/NET, allied Forestry exams and Forest service exams. 2nd Edition of this book also contains all the important questions asked in the all other Forestry related

examinations during the years 2018-2019. Secondary 'Universal Forestry 2nd Edition' is highly useful for students for the preparation of their semester examinations. This book covers all the points which is/are asked in their semester examinations, Because this book is written by the author after reading all the standard text books of Forestry. The simplified language of this book will be grasped by any average aspirant. I hope that 2nd edition of this book will also fulfill all the need of students as well as aspirants related to preparation of Forestry competition examination. Author is highly thankful to all readers and their Professors to make this book first choice of Forestry aspirants

The Himalaya, a global biodiversity hotspot, sustains about one-fifth of the humankind. Nestled within the north-western mountain ranges of the Himalaya, the Jammu and Kashmir (J&K) State harbours more than half of the biodiversity found in the Indian Himalaya. The wide expanse of State, spread across the subtropical Jammu,

through the temperate Kashmir valley, to the cold arid Ladakh, is typical representative of the extensive elevational and topographical diversity encountered in the entire Himalaya. This book, the most comprehensive and updated synthesis ever made available on biodiversity of the J&K State, is a valuable addition to the biodiversity literature with global and regional relevance. The book, arranged into 7 parts, comprises of 42 chapters contributed by 87 researchers, each of whom is an expert in his/her own field of research. The precious baseline data contained in the book would form the foundation for assessing current status of knowledge about the bioresources, identify the knowledge gaps, and help prioritization of conservation strategies to steer the sustainable use of biodiversity in this Himalayan region. Given the breadth of topics covered under the banner of biodiversity in this book, it can surely serve as a model for documentation of biodiversity in other regions of the world. The book will be of immense value to all those who,

directly or indirectly, have to deal with biodiversity, including students, teachers, researchers, naturalists, environmentalists, resource managers, planners, government agencies, NGOs and the general public at large.

This edited volume offers new analytical and methodological approaches to the study of education in the post-pandemic educational context, through case studies from countries in South Asia such as Bhutan, India, Nepal, Pakistan and Sri Lanka. Crossing disciplinary and national boundaries to advance collaborative knowledge production in South Asian education, the book explores how different colonial legacies, religious orientations, and positions in the global economy are played out in regional education systems. In doing so, this volume focuses on the educational challenges faced by the region to better understand South Asian society and the existing societal inequalities in the wake of COVID-19. The book highlights how the

pandemic invites a re-thinking of current ways of approaching educational research in hybrid forms, and also opens up new areas of research ranging from pedagogical innovations to the well-being of teachers and students. Offering interdisciplinary perspectives on education in this unique context, this timely book will be highly relevant to students, researchers, and academics in the fields of international and comparative education, South Asian studies, teacher education, and education policy and politics.
