 When people in First World countries think of tourists in the vast expanses of the Third World today, they typically think of pampered westerners, filling up the luxury hotels and imposing their Orientalist gazes on the teeming masses. As David Gladstone shows us in this fascinating and provocative book, such preconceptions are wrong. Coupling incisive and colorful ethnographic accounts of tourism in India and Mexico with sharp analysis, Gladstone demonstrates the amazing complexity of this industry, which now comprises close to ten percent of the world economy. As he also shows, the vast majority of tourists in the Third World are indigenous people with few resources-often making pilgrimages to religious shrines. From Pilgrimage to Package Tour is a fresh and entirely original account that stands tourism studies on its head and proves that this industry is far more complicated than it initially appears.

 There is a steady and growing scholarly, as well as popular interest in Hindu religion – especially devotional (bhakti) traditions as forms of spiritual practice and expressions of divine embodiment. Associated with this is the attention to sacred images and their worship. Attending Krishna's Image extends the discussion on Indian images and their worship, bringing historical and comparative dimensions and considering Krishna worship in the context of modernity, both in India and the West. It focuses on one specific worship tradition, the Chaitanya Vaishnava tradition of the fourteenth to sixteenth centuries, as it develops and sustains itself in two specific locales. By applying the comparative

category of 'religious truth', the book provides a comprehensive understanding of a living religious tradition. It successfully demonstrates the understanding of devotion as a process of participation with divine embodiment in which worship of Krishna's image is integral.

 Srila Prabhupada-lilamrta tells the story of a remarkable individual and a remarkable achievement. The individual is A. C. Bhaktivedanta Swami Prabhupada: philosopher, scholar, religious leader, saint. The achievement is the revolutionary transplantation of a timeless spiritual culture from ancient India to twentieth-century America. This second volume begins in 1971. In the West, Srila Prabhupada had firmly established the Krsna consciousness movement, which his disciples were expanding in his absence. This volume chronicles Srila Prabhupada's triumphant return to India and his plans for constructing temples in three crucial locations: Bombay, the center of India's wealth and business; Vrindavana, the sacred village where Lord Krsna lived and sported; and Mayapur, the holy birth site of Sri Caitanya Mahaprabhu, who had inaugurated the Hare Krsna movement some five hundred years earlier. These are vigorous years spent building a spiritual society in India and establishing centers around the world where people could contact the ancient, orthodox faith of India in their own cities. In this volume, Srila Prabhupada circles the globe repeatedly, speaking out on timely issues and defending his budding religious society against "brainwashing" charges in America and shady business practices in India. Srila Prabhupada wanted to unite two worlds, the "lame man" of India and the "blind man" of America. "A blind man can carry a lame man," he said, "and together they can walk. Similarly, the combination of Indian spirituality and American technology can benefit the whole world." His principal means of accomplishing this feat was to publish his books – annotated translations of India's spiritual classics. Under his guidance, the Bhaktivedanta Book Trust was organized, and by 1977 it had produced and distributed more than sixty million volumes of Srila Prabhupada's writings. A final tour of India in 1977 took Srila Prabhupada, eighty-one and in failing health, to the colossal Kumbha-mela religious festival, to Hrsikesha, and finally back to his beloved Vrindavana. The time for his passing had come, he said. As his anguished disciples flooded Vrindavana from all corners of the world, Srila Prabhupada presented them with the greatest challenge – and the greatest lesson – of their young spiritual lives.

 Curriculum Studies in India examines Indian scholars in dialogue regarding their intellectual life histories and subjective investments in their field. With chapter introductions by William Pinar, scholars explore their intellectual history and present circumstances of curriculum studies in India, emphasized by their own engagement and research. These works demonstrate the rapidity and scale of economic growth today, and how it creates conflict, dislocation, inequality, and "echoes" of a colonial past now present in globalization. Pinar and his contributors conclude that historical (dis)continuities, cultural conflict, economic globalization, and political tension characterize the present circumstances of curriculum studies in India.

 Why modern man is more dangerous than wild animals even after higher education & elite status? Why are diseases uncontrolled and deaths are vital despite advanced medical science? Why do bad things happen to good people and vice versa despite omnipotent law of natural justice? These are some of the questions which often arise in our mind sooner or later. We often ponder upon these painful questions, but never get absolute solution. In light of the wisdom of Bhagavad Gita, the author has endeavored to uncover the root cause of the sufferings for a viable vedic solution through an in depth analysis of contemporary challenges of present society.

This Handbook is the first major volume to examine the conservation of Asia's culture and nature in relation to the wider social, political and economic forces shaping the region today. Throughout Asia rapid economic and social change means the region's heritage is at once under threat and undergoing a revival as never before. As societies look forward, competing forces ensure they re-visit the past and the inherited, with the conservation of nature and culture now driven by the broader agendas of identity politics, tradition, revival, rapid development, environmentalism and sustainability. In response to these new and important trends, the twenty three accessible chapters here go beyond sector specific analyses to examine heritage in interdisciplinary and critically engaged terms, encompassing the natural and the cultural, the tangible and intangible. Emerging environmentalisms, urban planning, identity politics, conflict memorialization, tourism and biodiversity are among the topics covered here. This path-breaking volume will be of particular interest to students and scholars working in the fields of heritage, tourism, archaeology, Asian studies, geography, anthropology, development, sociology, and cultural and postcolonial studies.

This is a Comprehensive Survey of the Bhakti Movement as it sprang in South India to spread across the subcontinent in independent and multifarious manifestations yet marked with amazing commonalities. Spanning a period of 11 centuries starting from the 6th CE, the movement encompassed in its sweep a vast range of dimensions; Social, political, economic, religious, cultural, linguistic, ethical and philosophical. Among the multifarious movements which contributed to the formation of India and its Culture, the Bhakti was undoubtedly the most pervasive and persistent, says the author. Besides its sweep and depth, what proved most remarkable about the movement was that it arose almost everywhere from the masses who belonged to the lowest class and castes. Though spirituality was its leitmotif, Bhakti proved to be a stirring song of the subaltern in their varied expressions of resistance and revolt. A seemingly conservative phenomenon became a potent weapon against entrenched hierarchies of orthodoxy and oppression, in a wonderful dialectical expression. This qualifies Bhakti movement to be reckoned on a par with European renaissance as it marked a massive upsurge in the societal value system to directly impact a range of fields like arts, politics, culture or religion. Even as he takes note of the elements of reactionary revivalism that also marked the Bhakti movement, the author convincingly argues that those of renaissance and progress far outweighed the former.

Over the last decade traditional Indian temple towns have transformed into centres for urban lifestyles and tourist activities. One of these is the historic temple town Vrindavan in North India, on which this study focuses. Exploring the multiple socio-cultural realities present in the town, the author engages with the narratives of the residents as they respond to the socio-environmental changes against the backdrop of national and regional modernisation processes. Here the imaginaries of a mythic Vrindavan, with its pristine and sacred environment, are evoked in narrations on contemporary modernity.

Within the broad Hindu religious tradition, there have been for millennia many subtraditions generically called Vaiṣṇava, who insist that the most appropriate mode of religious faith and experience is bhakti, or devotion, to the supreme personal deity, Viṣṇu. Caitanya Vaiṣṇavas are a community of Vaiṣṇava devotees who coalesced around Kṛṣṇa Caitanya (1486–1533), who taught devotion to the name and form of Kṛṣṇa, especially in conjunction with his divine consort Rādhā and who also came to be looked upon by many as Kṛṣṇa himself who had graciously chosen to be born in Bengal to exemplify the ideal mode of loving devotion (prema-bhakti). This book focusses on the relationship between the 'transcendent' intentionality of religious faith of human beings and their 'mundane' socio-cultural ways of living, through a

detailed study of the social implications of the Caitanya Vaiṣṇava devotional Hindu tradition in pre-colonial and colonial Bengal. Structured in two parts, the first analyzes the articulation of Kṛṣṇa-bhakti within the broad Hindu sector of Bengali society. The second section examines Hindu-Muslim relationships in Bengal from the particular vantage point of the Caitanya Vaiṣṇava tradition, and in which the subtle influence of Kṛṣṇa-bhakti, it is argued, may be detected. In both sections, the bulk of attention is given to the sixteenth and seventeenth centuries, when Bengal was under independent Sultanate or emergent Mughal rule and thus free of the impact of British and European colonial influence. Arguing that the Caitanya Vaiṣṇava devotion contributed to the softening of the potentially alienating socio-cultural divisions of class, caste, sect and religio-political community in Bengal, this book will be of interest to academics in the field of Asian Religion and Hinduism, in particular devotional Hinduism, both premodern and modern, as well as to scholars and students of South Asian social history, Hindu-Muslim relations, and Bengali religious culture.
