Offers a look at the causes and effects of poverty and inequality, as well as the possible solutions. This title features

research, human stories, statistics, and compelling arguments. It discusses about the world we live in and how we can make it a better place.

The Theft of History Random House
Brilliant and engagingly written, *Why Nations Fail* answers the question that has stumped the experts for centuries: Why are some nations rich and others poor, divided by wealth and poverty, health and sickness, food and famine? Is

it culture, the weather, geography? Perhaps ignorance of what the right policies are? Simply, no. None of these factors is either definitive or destiny. Otherwise, how to explain why Botswana has become one of the fastest growing countries in the world, while other African nations, such as Zimbabwe, the Congo, and Sierra Leone, are mired in poverty and violence? Daron Acemoglu and James Robinson conclusively show that it is man-made political and economic institutions that underlie economic success (or lack of it). Korea, to take just one of their fascinating examples, is a remarkably homogeneous nation, yet the people of North Korea are among the poorest on earth while their brothers and sisters in South Korea are among the richest. The south forged a

society that created incentives, rewarded innovation, and allowed everyone to participate in economic opportunities. The economic success thus spurred was sustained because the government became accountable and responsive to citizens and the great mass of people. Sadly, the people of the north have endured decades of famine, political repression, and very different economic institutions—with no end in sight. The differences between the Koreas is due to the politics that created these completely different institutional trajectories. Based on fifteen years of original research Acemoglu and Robinson marshal extraordinary historical evidence from the Roman Empire, the Mayan city-states, medieval Venice, the Soviet Union, Latin America,

England, Europe, the United States, and Africa to build a new theory of political economy with great relevance for the big questions of today, including: - China has built an authoritarian growth machine. Will it continue to grow at such high speed and overwhelm the West? - Are America's best days behind it? Are we moving from a virtuous circle in which efforts by elites to aggrandize power are resisted to a vicious one that enriches and empowers a small minority? - What is the most effective way to help move billions of people from the rut of poverty to prosperity? More philanthropy from the wealthy nations of the West? Or learning the hard-won lessons of Acemoglu and Robinson's breakthrough ideas on the interplay between inclusive political and economic

institutions? Why Nations Fail will change the way you look at—and understand—the world.

From Poverty to Power Presents transcriptions of a series of interviews conducted by Francois Truffaut with celebrated filmmaker Alfred Hitchcock beginning in 1962; and includes photographs and a filmography.

Good Omens Cambridge University Press

Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace.

Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A

major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation.

With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

From the author of *Future Shock*, a striking way out of today's despair . . . a bracing, optimistic look at our new potentials. The Third Wave makes startling sense of the violent changes now battering our world. Its sweeping synthesis casts fresh light on our new forms of marriage and family, on today's dramatic changes in business and economics. It explains the role of cults, the new definitions of work, play, love,

and success. It points toward new forms of twenty-first-century democracy. Praise for *The Third Wave* “Magnificent . . . an astonishing array of information.”—The Washington Post “Imperishably fresh.”—Business Week “Will mesmerize readers, and rightly so.”—Vogue “Alvin Toffler . . . has written another blockbuster . . . a powerful book.”—The Guardian “Fresh ideas, clearly explained. . . . Toffler has proven again that he is a master.”—United Press International “Toffler has imagination and an ability to think of various future possibilities by transcending prevailing values, assumptions and myths.”—Associated Press “Once you have walked into his version of the future, you may decide never again to whitewash some of the

built-in frailties of the real present.”—Financial Post “Rich, stimulating and basically optimistic . . . will unquestionably aid many to a greater understanding of [today’s] puzzling social changes.”—The Globe & Mail “A detailed breathtakingly bold projection of the social changes required if we are to survive. . . . Toffler’s vision of a democratic, self-sustaining utopia is a brave alternative to recent grim warnings.”—Cosmopolitan

Jezebel's Favorite Books of 2016 A Manual for Cleaning Women compiles the best work of the legendary short-story writer Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators and struggling mothers, hitchhikers and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how they'd ever overlooked her in the first place. "Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves." -Lydia Davis

This "investigative magnum opus" offers a jaw-dropping history of Mexican drug cartels as it transports readers to the frontlines of the 'war on drugs' in Latin America (Los Angeles Times). "A riveting story . . . [from] an incredibly brave journalist." —NPR The "war on drugs" has so far cost more than 60,000 lives.

Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names not just the narcos, but also the politicians, functionaries, judges, and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe

Calderón. The product of 5 years' investigative reporting—and the subject of intense national controversy—Narcoland is a publishing and political sensation in Mexico.

In *The Theft of History* Jack Goody builds on his own previous work to extend further his highly influential critique of what he sees as the pervasive Eurocentric or occidentalist biases of so much western historical writing and the consequent 'theft' by the West of the achievements of other cultures in the invention of (notably) democracy, capitalism, individualism and love. Goody, one of the world's most

distinguished anthropologists, raises questions about theorists, historians and methodology and proposes a new comparative approach to cross-cultural analysis which allows for more scope in examining history than an East versus West style.

The classic collaboration from the internationally bestselling authors Neil Gaiman and Terry Pratchett, soon to be an original series starring Michael Sheen and David Tennant. ?Season 2 of Good Omens coming soon! “Good Omens . . . is something like what would have happened if Thomas Pynchon, Tom Robbins and Don DeLillo had collaborated. Lots of literary inventiveness in the plotting and chunks of very good writing and characterization. It’s a wow. It would make one hell of a movie. Or a heavenly one. Take your pick.” —Washington Post According to The Nice and Accurate Prophecies of Agnes Nutter, Witch (the world's only completely accurate book of prophecies, written in 1655, before she exploded), the world will end on a

Saturday. Next Saturday, in fact. Just before dinner. So the armies of Good and Evil are amassing, Atlantis is rising, frogs are falling, tempers are flaring. Everything appears to be going according to Divine Plan. Except a somewhat fussy angel and a fast-living demon—both of whom have lived amongst Earth's mortals since The Beginning and have grown rather fond of the lifestyle—are not actually looking forward to the coming Rapture. And someone seems to have misplaced the Antichrist . . .

Technics and Civilization first presented its compelling history of the machine and critical study of its effects on civilization in 1934—before television,

the personal computer, and the Internet even appeared on our periphery. Drawing upon art, science, philosophy, and the history of culture, Lewis Mumford explained the origin of the machine age and traced its social results, asserting that the development of modern technology had its roots in the Middle Ages rather than the Industrial Revolution. Mumford sagely argued that it was the moral, economic, and political choices we made, not the machines that we used, that determined our then industrially driven economy. Equal parts powerful history and polemic criticism, *Technics and Civilization* was the first comprehensive attempt in English to portray the development of the machine age over the last thousand years—and to predict the pull the

technological still holds over us today. “The questions posed in the first paragraph of *Technics and Civilization* still deserve our attention, nearly three quarters of a century after they were written.”—*Journal of Technology and Culture*

 #1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST MYSTERY AND THRILLER BOOKS OF ALL TIME • Before *Doctor Sleep*, there was *The Shining*, a classic of modern American horror. Jack Torrance takes a job as the caretaker of the remote Overlook Hotel. As the brutal winter sets in, the hotel's dark secrets begin to unravel. “An undisputed master of suspense and terror.” —*The Washington Post* Jack Torrance’s new job at the Overlook Hotel

is the perfect chance for a fresh start. As the off-season caretaker at the atmospheric old hotel, he'll have plenty of time to spend reconnecting with his family and working on his writing. But as the harsh winter weather sets in, the idyllic location feels ever more remote . . . and more sinister. And the only one to notice the strange and terrible forces gathering around the Overlook is Danny Torrance, a uniquely gifted five-year-old.
