All manga, all the time, all the Chris Hart way! • Bumper book of 256 manga-packed pages • Learn to draw manga, step by step • One gigantic celebration of manga mania Kids are drawn to manga like magnets, and Christopher Hart's manga books are among the hottest sellers of all

books, with more than 2.5 million copies in print. Now Watson-Guptill has gathered Hart's four best-selling Kids Draw books and combined them into one giant manga book. If they're out there in the world of manga, they're in here: cute little critters, sophisticated heroes, witches and wizards, magical boys and magical girls, and everything else manga! Each character is drawn in clear step-by-steps, so young artists can easily follow along. At just 19.95 dollars, Kids Draw Big Book of Everything Manga is one big bundle of manga-drawing fun for one, low price.

How to Draw Awesome Vehicles Penguin  
Any artist who loves the beauty of nature and is drawn by the majesty of the sea will want to try sketching boats and nautical scenes. American painter Yngve Edward Soderberg, who spent much of his career mastering this art on the Mystic coast of Connecticut, was known for his breathtaking maritime art. In this concise guide, he makes it look easy with step-by-step instructions perfect for novices and anyone wanting to brush up on his drawing skills. From sailboats and dinghies to cruisers and whale ships, Soderberg

shows how to observe and draw all that is seaworthy. Enhanced by expert commentary, over 100 illustrations include gulls, buoys, lighthouses, water surfaces, skies, clouds, and more. He even demonstrates how to sketch a boat's crew in action and offers valuable tips on perspective. Easy to follow, this essential guide helps hone all the valuable skills needed to create beautiful nautical compositions.

Now a Major Motion Picture Directed by George Clooney The #1 New York Times–bestselling story about the American Olympic rowing triumph in Nazi Germany—from the author of *Facing the Mountain*. For readers of *Unbroken*, out of the depths of the Depression comes an irresistible story about beating the odds and finding hope in the most desperate of times—the improbable, intimate account of how nine working-class boys from the

American West showed the world at the 1936 Olympics in Berlin what true grit really meant. It was an unlikely quest from the start. With a team composed of the sons of loggers, shipyard workers, and farmers, the University of Washington's eight-oar crew team was never expected to defeat the elite teams of the East Coast and Great Britain, yet they did, going on to shock the world by defeating the German team rowing for Adolf Hitler. The emotional heart of the tale lies with Joe Rantz, a teenager without family or prospects, who rows not only to regain his shattered self-regard but also to find a real place for himself in the world. Drawing on the boys' own journals and vivid memories of a once-in-a-lifetime shared dream, Brown has created an unforgettable portrait of an era, a celebration of a remarkable achievement, and a chronicle of one extraordinary young man's personal quest.

[All About Drawing Cool Cars, Fast Planes & Military Machines](#) Walter Foster

Five minutes may not seem like a lot of time to allow yourself to work on a

drawing, as artists have been known to take days, months, and even years to complete a single work of art. However, as this book will prove, you can draw some really cool stuff in just under five minutes. By limiting their time, artists will start to see only the most essential parts of a subject while communicating action, movement, and expression into one timed drawing. This book is jam-packed with step-by-step lessons for drawing cool objects quickly - in 5-minutes or less!

Author, artist, and instructor Catherine V. Holmes will start by teaching you how to quickly interpret basic information onto paper using simple but meaningful lines made with purpose. Start by observing, then draw the main shapes within your object. Next, you'll find simple lines and smaller shapes that build on the original ones, blocking in areas with lines and curves to represent the major details of your subject. The final steps should be filling your subject in with tone and refining shadows and highlights. Drawing under a time limit is a wonderful exercise that will help you learn how to draw more instinctively and gain a better understanding of form. The final outcome

is not meant to be a polished drawing, but rather an all-around practice exercise that will improve your game and help you draw really some cool stuff with ease. The fifth book in the How To Draw Cool Stuff series, this exciting new title will teach you how to create simple illustrations using basic shapes and a drawing technique that simplifies the process of drawing, all while helping you construct height, width, and depth in your work. It will guide you through the creative thought process and provide plenty of ideas to get you started.

Set in a dark future America devastated by the forces of climate change, this thrilling bestseller and National BookFinalist is a gritty, high-stakes adventure of a teenage boy faced with conflicting loyalties. In America's flooded Gulf Coast region, oil is scarce, but loyalty is scarcer. Grounded oil tankers are being broken down for parts by crews of young people. Nailer, a teenage boy, works the light crew, scavenging for copper wiring just to make quota--and hopefully live to see another day. But when, by luck or by chance, he discovers an exquisite clipper ship beached during a recent hurricane, Nailer

faces the most important decision of his life: Strip the ship for all it's worth or rescue its lone survivor, a beautiful and wealthy girl who could lead him to a better life.... In this powerful novel, Hugo and Nebula Award winning author Paolo Bacigalupi delivers a fast-paced adventure set in the vivid and raw, uncertain future of his companion novels *The Drowned Cities* and *Tool of War*. "Suzanne Collins may have put dystopian literature on the YA map with *The Hunger Games*...but Bacigalupi is one of the genre's masters, employing inventively terrifying details in equally imaginative story lines." —Los Angeles Times A New York Times Bestseller A Michael L. Printz Award Winner A National Book Award Finalist A VOYA 2010 Top Shelf Fiction for Middle School Readers Book A Rolling Stone 40 Best YA Novels Book Don't miss the other books in the series: *The Drowned Cities* *Tool of War*  
**The Boys in the Boat** Step-By-Step "How to Draw Cool Stuff: Basics, Shading, Texture, Pattern and Optical Illusions" is the second book in the How to Draw Cool Stuff series. Inside you will find simple illustrations that cover the necessities of

drawing cool stuff. Specific exercises are provided that offer step-by-step guidelines for drawing a variety of subjects. Each lesson starts with an easy-to-draw shape that will become the basic structure of the drawing. From there, each step adds elements to that structure, allowing the artist to build on their creation and make a more detailed image. Starting with the basic forms, the artist is provided a guide to help see objects in terms of simplified shapes. Instructions for shading to add depth, contrast, character and movement to a drawing are then covered. The varieties of texture and pattern that can be included in an artwork offer another layer of interest and depth to a design. These elements are necessary to indicate the way something looks like it feels in a work (texture) or creating the repetition of shapes, lines or colors (patterns). Illustrated optical illusions involve images that are sensed and perceived to be different from what they really are, showing examples of how the mind and the eyes can play tricks on each other. All you need is a piece of paper, a pencil and an eraser and you are ready to draw cool stuff. Once the drawing is complete, it can

be colored, shaded or designed in any way you like to make it original. Following these exercises is a great way to practice your craft and begin seeing things in terms of simple shapes within a complex object.
