Three World Cuisines Hylas Publishing

It's the start of a luminous Scandinavian summer, and Elsa, the matriarch of an eminent Helsinki family, is dying. Her family members gather around to support her, but their hidden struggles come, too. There's Elsa's granddaughter Anna, lost in her own world and concealing an unhappy affair that will not heal; Martti, Elsa's loving husband, whose dreams are haunted by the spectre of another woman; and Elsa's adult daughter Eleonoora, anxiously trying to deal with her mother's illness. As Elsa's existence becomes more fragile, the anchors of Eleonoora's childhood memories begin to slip away, and the foundations upon which the family has built its life for forty years start to shift. One afternoon, Anna discovers a secret that goes to the very heart of her family — a secret that takes her back to the restlessness and change of the 1960s, a Europe in the throes of a social revolution, and a stranger named Eeva who entered her family's lives, changing them forever. As Eeva's story unfolds, Anna discovers a young woman who mirrors herself in many ways, and whose life illustrates both the danger of giving oneself up too completely to love and the necessity of doing so in order to truly live. Enthralling and beautifully drawn, True charts the experiences of three generations as they try to come to terms with a memory long repressed, and explores the mercy and tenderness that can come from a lie. Ultimately it asks: when we can never really know the people we love, how do we try to be true?

The Short Story of Art MIT Press (MA)

The Short Story of Art is a pocket guide to key movements, works, themes and techniques – a new and innovative introduction to the subject of art. Simply constructed, the book explores 50 key works, from the wall paintings of Lascaux to Damien Hirst installations, and then links these to sections on art movements, themes and techniques. The design of the book allows the student or art enthusiast to easily navigate their way around key periods, artists and styles. Accessible and concise, it simplifies and explains the most important and influential concepts in art, and shows how they are connected. The book explains how, why

and when art changed, who introduced certain things, what they were, where they were produced, and whether they matter. It demystifies artistic jargon, giving readers a thorough understanding and broad enjoyment of art. 'Susie Hodge has culled through hundreds of art movements to highlight and present 36 that illustrate transitions of art, its ideas, representations, characteristics, and production from Prehistoric times up to the dynamic shifts of the 1960s and '70s. As complex as art history is, this book is a welcome, succinct introduction to some classic Western masters.' Cindy Helm, New York Journal of Books 'Excellent introduction to the subject. A good quality book, tightly bound, and well illustrated.' – Colin, Amazon reviewer 'The Short Story of Art is an attractive volume that serves as a convenient introduction to major movements, works, themes, and techniques of Western art. The works within are featured more for their seminal or illustrative nature than their fame per se, so the "story" part of the title is apt. The cross referencing and "Other works by..." sections makes it clear that this book is encouraging the reader to explore art on his own.' –Tommy Grooms, Goodreads reviewer

Apocrypha Hippocrene Books

Balthazar Korab's recent passing at the age of eighty-six was met by a deep appreciation for his work and a tremendous outpouring of affection for his gentle spirit. As one of the most prolific and celebrated architectural photographers, Korab captured images as graceful and elegant as his subjects. His iconic photographs for master architects immortalized their finest works, while leaving his own indelible impact on twentieth-century visual culture. Now available in paperback, John Comazzi's riveting illustrated biography traces Korab's circuitous path from a forced exodus from his native Hungary to an architectural education at the famed École des Beaux-Arts in Paris and emigration to the United States, where he launched his career as Eero Saarinen's on-staff photographer. Balthazar Korab includes a portfolio of more than one hundred images from Korab's commissioned architectural photography as well as close examinations of Eero Saarinen's TWA Terminal and the Miller House in Columbus, Indiana.

In American cinema, films with multiple plots can be traced back to Grand Hotel in 1932, but the form was used only sporadically in subsequent decades. However, filmmakers of the 1970s and 80s, notably Robert Altman and Woody Allen, repeatedly employed complex narratives to weave sprawling stories in their films. Later filmmakers such as Quentin Tarantino, Paul Thomas Anderson, Wong Kar-Wai, Steven Soderbergh, and Paul Haggis embraced multiple plotlines, a device that eventually achieved mainstream respectability in such Oscar winners as Traffic and Crash. In the past two decades, more than 200 films utilizing some variation of

this format have appeared worldwide. In *Altman and After: Multiple Narratives in Film*, Peter Parshall carefully examines films that feature various plotlines. Parshall asserts that although this form may lose some of the close psychological identification and forward drive of linear narratives, such films gain a corresponding strength by developing thematic relationships in the various story lines. In each of these chapters, Parshall examines a different example of the multi-plot form, such as network narrative and the multiple-draft narrative, demonstrating that the structure of each is central to their artistry. He also argues that these devices open up a variety of creative vistas, a strength that appeals to directors and audiences alike. Films studied in this book include Nashville, Pulp Fiction, Amores Perros, Code Unknown, The Edge of Heaven, Virgin Stripped Bare by Her Bachelors, The Double Life of Veronique, and Run Lola Run. A long overdue examination of this unique cinematic form, *Altman and After* will appeal to scholars, students, and fans eager to learn more about complex-narrative films.

Tougher Than Leather Tess Stomski

In more than 2,000 issues, British Vogue magazine has acted as a cultural barometer, putting fashion in the context of the larger

world in which we live - how we dress, how we entertain, what we eat, listen to, watch, who leads us, excites us and inspires us. The century's most talented photographers, illustrators and artists have contributed to it. In Lee Miller it had, unexpectedly, its own war photographer; in Norman Parkinson, Cecil Beaton, David Bailey, Snowdon and Mario Testino the greatest portrait and fashion photographers of their generation; and in Beaton and Irving Penn two giants of twentieth-century photography. From 1892, American Vogue chronicled the life of beautiful people - their clothes, parties, houses and habits - and the magazine was exported for intrigued British readers. In 1916, when the First World War made transatlantic shipments impossible, its proprietor, Condé Nast, authorised a British edition. It was an immediate success, and over the following ten decades of uninterrupted publication continued to mirror its times - the austerity and optimism that followed two world wars, the 'Swinging London' scene of the sixties, the radical seventies, the image-conscious eighties - and in its second century remains at the cutting edge of photography and design. Decade by decade, Vogue 100: A Century of Style celebrates the greatest moments in fashion, beauty and portrait photography. Illustrated throughout with well-known images, as well as the less familiar and recently rediscovered, the book focuses on the faces that shaped the cultural landscape: from Matisse to Bacon, Freud and Hirst, from Dietrich to Paltrow, from Fred Astaire to David Beckham, from Lady Diana Cooper to Lady Diana Spencer. It features the fashion designers who defined the century - Dior, Galliano, Balenciaga, Saint Laurent, McQueen - and explores more broadly the changing form of the twentieth-century woman.

This book charts contemporary illustration's rich history: from the rampant idealism of the 1960s to the bleak realism of the 1970s, and from the over-blown consumerism of the 1980s to the digital explosion of the 1990s, followed by the increasing diversification of illustration in the early twenty-first century. The book explores the contexts in which the discipline has operated and looks historically, sociologically, politically, and culturally at the key factors at play across each decade, while artworks by key illustrators bring the decade to life. Contemporary illustration's impact and influence on design and popular culture are investigated through introductory essays and profiles of leading practitioners, illustrated with examples of the finest work.

The Oldest Living Things in the World is an epic journey through time and space. Over the past decade, artist Rachel Sussman has researched, worked with biologists, and traveled the world to photograph continuously living organisms that are 2,000 years old and older. Spanning from Antarctica to Greenland, the Mojave Desert to the Australian Outback, the result is a stunning and unique visual collection of ancient organisms unlike anything that has been created in the arts or sciences before, insightfully and accessibly narrated by Sussman along the way. Her work is both timeless and timely, and spans disciplines, continents, and millennia. It is underscored by an innate environmentalism and driven by Sussman's relentless curiosity. She begins at "year zero," and looks back from there, photographing the past in the present. These ancient individuals live on every continent and range from Greenlandic lichens that grow only one centimeter a century, to unique desert shrubs in Africa and South America, a predatory fungus in Oregon, Caribbean brain coral, to an 80,000-year-old colony of aspen in Utah. Sussman journeyed to Antarctica to photograph 5,500-year-old moss; Australia for stromatolites, primeval organisms tied to the oxygenation of the planet and the beginnings of life on Earth; and to Tasmania to capture a 43,600-year-old self-propagating shrub that's the last individual of its kind. Her portraits reveal the living history of our planet—and what we stand to lose in the future. These ancient survivors have weathered millennia in some of the world's most extreme environments, yet climate change and human encroachment have put many of them in danger. Two of her subjects have already met with untimely deaths by human hands. Alongside the photographs, Sussman relays fascinating - and sometimes harrowing - tales of her global adventures tracking down her subjects and shares insights from the scientists who research them. The oldest living things in the world are a record and celebration of the past, a call to action in the present, and a barometer of our future.

A novel about the life of German cabaret singer and film actress Ingrid Caven, who was once director Rainer Werner Fassbinder's star, and his wife, muse to Yves Saint Laurent, and a protégé of Pierre Berge. Consisting of memories, mixing real and invented people and events, Ingrid Caven reveals the cold heart of the European counterculture of the 1970s, an era of celebrity glitz, cocaine-fueled excess, gay bathhouses, and young idealists-turned-terrorists. Ingrid Caven was an immediate bestseller in France, where it sold over 235,000 copies in its first year of publication. It has been translated into 18 languages. Jean-Jacques Schuhl is a Parisian dandy who lives with Ingrid Caven and who had not published a book for twenty years until this one.

Altman and After Gibbs Smith

Christian Boltanski's votive installations, archives and objects, revolving around the fragile polarities of memory and amnesia, identity and anonymity, have made him one of the world's most renowned contemporary artists. And yet, despite the centrality of biography and testimony to his work, Boltanski's own story is little known and has never been fully told. Published on the occasion of the artist's sixty-fifth birthday, *The Possible Life of Christian Boltanski*, written in the form of a book-length interview (which the artist likens to a "psychoanalysis" or "confession") with the art historian Catherine Grenier, is Boltanski's oral autobiography. In it, he recounts his unusual wartime childhood ("my mother hid my father under the floorboards. He stayed there for a year and a half, between two floors in the house. He'd come out from time to time--I'm living proof of that"), his career, friendships and marriage, successes and regrets, his approaches to art and teaching, how he created various installations, his relations with dealers and the public, and other matters that illuminate as never before his complex, enigmatic works. Boltanski is refreshingly phlegmatic about the realities of the world (art and otherwise), and he relates his remarkable stories--some enormously amusing, others tragic--with a matter-of-factness and self-deprecating humor that highlight his capacity for humane responsiveness. As both the self-portrait of a major contemporary artist and a frank, fascinating memoir, this is a document of capital importance.
