Body Parts on Planet Slum House of Anansi

Heated debates about and insurgencies against female circumcision are symptoms of a disease emanating from a mindset that produced hierarchies of humans, conquered colonies, and built empires. The loss of colonies and empires does not in any way mitigate the ideological underpinnings of empire-building and the knowledge construction that subtends it. The mindset finds its articulation at points of coalescence. Female circumcision provided a point of coalescence and impetus for this articulation. Insisting that the hierarchy on which the imperialist project rests is not bipolar but multi-layered and more complex, the contributions in this volume demonstrate how imperialist discourses complicate issues of gender, race, and history. Nnaemeka gives voice to the silenced and marginalized, and creates space for them to participate in knowledge construction and theory making. The authors in this volume trace the travels of imperial and colonial discourses from antecedents in anthropology, travel writings, and missionary discourse, to modern configurations in films, literature, and popular culture. The contributors interrogate foreign, or Western, modus operandi and interventions in the so-called Third World and show how the resistance they generate can impede development work and undermine the true collaboration and partnership necessary to promote a transnational feminist agenda. With great clarity and in simple, accessible language, the contributors present complex ideas and arguments which hold significant implications for transnational feminism and development.

Stop Street Harassment Mohr Siebeck

Written by experienced psychology instructors Beth M. Schwartz, R. Eric Landrum, and Regan A. R. Gurung, all active and respected members of the American Psychological Association (APA) Society for the Teaching of Psychology, the updated Third Edition of *An EasyGuide to APA Style* provides a reader-friendly guide for mastering APA style and covers all sections of an APA-style paper. Clear, conversational, and humorous, the book presents easy-to-

understand explanations of how to write research papers, term papers, and lab reports, and cite references following APA style and format. The authors focus on the most essential elements of APA style and format, offering useful advice, tips, and visual representations.

Anatomy & Physiology Routledge

In First Corinthians, Paul makes two conflicting statements about women's speech: He crafts a difficult argument about whether men and women should cover their heads while praying or prophesying (11:2-16) and instructs women to be silent in the assembly (14:34-35). These two statements bracket an extended discussion about inspired modes of speech - prophecy and prayer in tongues. From these exegetical observations, Jill E. Marshall argues that gender is a central issue throughout 1 Corinthians 11-14 and the religious speaking practices that prompted Paul's response. She situates Paul's arguments about prayer and prophecy within their ancient Mediterranean cultural context, using literary and archaeological evidence, and examines the differences in how ancient writers described prophetic speech when voiced by a man or a woman.

Women in the Age of Shakespeare American Bar Association
The bestselling author delves into the twisted crimes of Wayne Adam Ford. "This kind of frightening and fascinating glimpse into a killer's mind is rare." —Ron Franscell, New York Times–bestselling author
On a chilly November afternoon in 1998, a tearful 36-year-old man walked into the Humboldt County Sheriff's Department in Eureka, California, and confessed to something horrible. "I hurt some people," he said. Inside his pocket was the ghastly proof of his statement. But there was more to Wayne Adam Ford than the trail of mangled victims he left behind. More, even, than the twisted predator inside, which drove him to increasingly perverse sexual appetites. Pulitzer Prize–nominated author Caitlin Rother draws on previously sealed testimony, interviews with the key players in the case, and the killer's shocking confession to explore the demons that drove a damaged man to his unspeakable crimes. Her book is a harrowing psychological portrait and a haunting, unforgettable true-life thriller. Includes dramatic photos
"Page-turning excitement and blood-curdling terror . . . Riveting,

fast-paced, and sure to keep you up at night." —M. William Phelps, New York Times–bestselling author
"Shocking, chilling, fast-paced . . . A book crime aficionados will be loath to put down." —Simon Read, author of *The Iron Sea*
"Rother has produced a superior study of a serial killer and his lost and lonely victims." —Carol Anne Davis, author of *Couples Who Kill*
"A must-read . . . Well-written, extremely intense; a book that I could not put down." —True Crime Book Reviews

Body Parts U of Nebraska Press

This book offers a look at the lives of Elizabethan era women in the context of the great female characters in the works of William Shakespeare. Like the other entries in this fascinating series, *Women in the Age of Shakespeare* shows the influence of the world William Shakespeare lived in on the worlds he created for the stage, this time by focusing on women in the Elizabethan and Jacobean eras in general and in Shakespeare's works in particular. *Women in the Age of Shakespeare* explores the ancient and medieval ideas that Shakespeare drew upon in creating his great comedic and tragic heroines. It then looks at how these ideas intersected with the lived experiences of women of Shakespeare's time, followed by a close look at the major female characters in Shakespeare's plays and poems. Later chapters consider how these characters have been enacted on stage and in film, interpreted by critics and scholars, and re-imagined by writers in our own time.

The Young Woman's Journal Chronicle Books

Capitalism and Communism, the progenies of the semitic culture, have given birth to two different streams of women's Liberation. These streams, which have stormed western society and communist groups, have now actively intruded into the Indian socio-political milieu. The moment these concepts encounter with Indian realities, they display their inherent contradictions and limitations. But seldom an Indian alternative to such views is discussed. This book is an attempt to understand the Indian approach through a comparative study aimed at addressing the issues related to the future women

Reshaping the Female Body kit crumb

Based on a year's research from within a Brazilian slum, this

study follows a series of unemployed women who watch up to six hours of telenovelas a day, often in the midst of arduous physical labour in the home. The women suffer in relation to their bodies, but simultaneously invest in a masochistic glorification of suffering that links their lives to the soap operas, revealing disturbing valuations of the female body that traverse reality and fiction. Through its exploration of this daily integration of real suffering and fictional glamour and wealth, 'Body Parts on Planet Slum' reveals how fantasy and social exclusion can together induce a form of psychological survivalism, enabling these women to reconfigure the central features of their existence - their suffering, pleasure, sexuality and embodiment.

Women in Fundamentalism examines the striking similarities in three extreme fundamentalist religious communities in their views about and treatment of women

Campus Sexual Violence Bloomsbury Publishing USA

Leonardi analyses and evaluates the problems that may arise from ideology-driven shifts in the translation process as a result of gender differences. First she offers a theoretical background, draws up an analytic checklist of linguistic tools and states the main hypothesis, then she tests the hypothesis with four empirical analyses.

An EasyGuide to APA Style Crown

From two internationally recognized experts in the field of gifted education comes this timely exploration of how best to nurture a child's unique gifts, and set them on a path to a happily productive life — in school and beyond. What is intelligence? Is it really a have or have not proposition, as we've been led to believe? Are some children just destined to fall behind? Dona Matthews and Joanne Foster answer those questions with a resounding "No!" In *Beyond Intelligence*, they demonstrate that every child has the ability to succeed — with the right support and guidance. But how can parents provide that support? Matthews and Foster proceed from the assumption that knowledge is power, offering parents an information-packed guide to identifying a child's ability, fostering creativity, and bolstering effort and persistence. Using case studies and anecdotes from their personal and professional experience, they explore different ways of learning; the links between creativity and intelligence;

and how to best to provide emotional and social supports. They offer critical advice on how to work co-operatively with schools and educators, and address how to embrace failures as learning opportunities. Drawing on the latest research in brain development and education theory, *Beyond Intelligence* is a must-read for today's parents and educators.

Anatomy and Physiology Springer

Reshaping... looks at women's involvement in cosmetic surgery and raises the question of why women put themselves under the knife for operations which are painful, risky and expensive and often leave them in worse shape than before.

Female Circumcision and the Politics of Knowledge Oxford University Press

In many forms of discourse, specific parts of the human anatomy may signify the whole body/person. In this volume, scholars from a variety of historical and cultural studies disciplines examine scientific, medical, popular, and literary texts, paying special attention to the different strategies employed in order to establish authority over the body through the management of a single part. By considering body parts that are usually ignored by scholars, these essays render the idea of a single, coherent body untenable by demonstrating that the body is not a transhistorical entity, but rather, deeply fragmented and fundamentally situated in a number of different contexts.

Body Parts Walter de Gruyter GmbH & Co KG

Teaching your child about his/her body parts boosts your child's awareness of his body and at the same time, skyrocket his/her vocabulary! Although toddlers will naturally learn about some body parts, there is still more than enough room to refine that knowledge. Together with the ability to tell the difference between parts, be there to teach your child what each part does too! Buy a copy now!

Oracles, Curses, and Risk Among the Ancient Greeks Oxford University Press

"An inside view of the Lakota world-of the meaning of Lakota song and dance, of their history, of what it is to be Lakota in America today. . . . A lasting personal tribute to the Lakota way of living."- Whole Earth Review. "A unique, in-depth presentation on Lakota music and the profession of singer, a useful contemporary Oglala representation of the core of their culture, and a version of the involvement of the American Indian Movement on Pine Ridge

Reservation, told by a man who was affiliated but not a principal leader. . . . This is a subjective statement, well and persuasively written."-Choice. Severt Young Bear stood in the light-in the center ring at powwows and other gatherings of Lakota people. As founder and, for many years, lead singer of the Porcupine Singers, a traditional singing and drumming group, he also stood, figuratively, in the light of understanding the cherished Lakota heritage. Young Bear's own life in Brotherhood Community, Porcupine District of the Pine Ridge Sioux Reservation, is the linchpin of this narrative, which ranges across the landscape of Dakota culture, from the significance of names to the search for modern Lakota identity, from Lakota oral traditions to powwows and giveaways, from child-rearing practices to humor and leadership. "Music is at the center of Lakota life," says Young Bear; he describes in rich detail the origins and varieties of Lakota song and dance. Severt Young Bear performed with the Porcupine Singers throughout North America, taught at Oglala Lakota College, and served on the Oglala Sioux tribal council. He was music and dance consultant for the films *Dances with Wolves* and *Thunder Heart*. This book is the fruit of his longfriendship and collaboration with R. D. Theisz, a fellow Porcupine Singer and professor of communications and education at Black Hills State University.

Prosthetic Body Parts in Nineteenth-Century Literature and Culture Edinburgh University Press

This open access book deals with imaging of the abdomen and pelvis, an area that has seen considerable advances over the past several years, driven by clinical as well as technological developments. The respective chapters, written by internationally respected experts in their fields, focus on imaging diagnosis and interventional therapies in abdominal and pelvic disease; they cover all relevant imaging modalities, including magnetic resonance imaging, computed tomography, and positron emission tomography. As such, the book offers a comprehensive review of the state of the art in imaging of the abdomen and pelvis. It will be of interest to general radiologists, radiology residents, interventional radiologists, and clinicians from other specialties who want to update their knowledge in this area.

Nature's Altars Rowman & Littlefield

It should have been just another routine call for Rye and Claire Anderson, owners of Mad Dash Ambulance Service. But when the

DOA they deliver to the hospital goes missing, their routine turns deadly. Greedy doctors involved in black market organ harvesting. Innocent girls lured into the dangerous world of xxx-rated films. Sex, murder and deception in a small, Oregon town. It's all here in *Body Parts*, Kit Crumb's latest Rye and Claire adventure.

#1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of

experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

Indian Woman, Feminism and Women’s Liberation Speedy Publishing LLC

This open access book investigates imaginaries of artificial limbs, eyes, hair, and teeth in British and American literary and cultural sources from the nineteenth and early twentieth century. *Prosthetic Body Parts in Nineteenth-Century Literature and Culture* shows how depictions of prostheses complicated the contemporary bodily status quo, which increasingly demanded an appearance of physical wholeness. Revealing how representations of the prosthetized body were inflected significantly by factors such as social class, gender, and age, *Prosthetic Body Parts in Nineteenth-Century Literature and Culture* argues that nineteenth-century prosthesis narratives, though presented in a predominantly ableist and sometimes disablist manner, challenged the dominance of physical completeness as they questioned the logic of prostheticization or presented non-normative subjects in threateningly powerful ways. Considering texts by authors including Charles Dickens, Edgar Allan Poe, and Arthur Conan Doyle alongside various cultural, medical, and commercial materials, this book provides an important reappraisal of historical attitudes to not only prostheses but also concepts of physical normalcy and difference.

What's That? Body Parts Book for Toddlers (Baby Professor Series) Greenhaven Publishing LLC

A grab bag of historic spleens, chins, and more, this is your ultimate literary dissection of body parts throughout history! From famous craniums to prominent breasts, ancient spleens and bound feet, this book will bring history to life in a whole new way. With their inimitable wit and probing intelligence, authors Kathy and Ross Petras look at the role the human body has played

throughout history as each individual part becomes a jumping-off point for a wider look at the times. In far-ranging, quirky-yet-interrelated stories, learn about Charles II of Spain's jaw and the repercussions of inbreeding, what Anne Boleyn's heart says about the Crusades and the trend of dispersed burials, and what can be learned about the Aztecs through Moctezuma's pierced lip. *A History of the World Through Body Parts* is packed with fascinating little-known historical facts and anecdotes that will entertain, enlighten, and delight even the most well-read history buff. BESTSELLING AUTHORS: Kathy and Ross Petras have authored the New York Times bestseller *You're Saying It Wrong* and the hit calendar *The 365 Stupidest Things Ever Said*, now in its 24th year with over 4.8 million copies sold! ENGAGING CONTENT: Packed with rich material told with a lively and humorous voice, take a trip through history in this unique, exciting way. QUIRKY HISTORY FANS REJOICE!: For fans of *The Disappearing Spoon*, *Wicked Plants*, *The Violinist's Thumb*, *The Sawbones Book* and *Strange Histories!* Perfect for: • History buffs and pop history fans • Father's Day, birthday, and holiday shoppers

Your Medical Mind Indus Scrolls Press

Leaving a religion is not merely a matter of losing or rejecting faith. For many, it involves dramatic changes of everyday routines and personal habits. Davidman bases her analysis on in-depth conversations with forty ex-Hasidic individuals. From these conversations emerge accounts of the great fear, angst, and sense of danger that come of leaving a highly bounded enclave community. Many of those interviewed spoke of feeling marginal in their own communities; of strain in their homes due to death, divorce, or their parents' profound religious differences; experienced sexual, physical, or verbal abuse; or expressed an acute awareness of gender inequality, the dissimilar lives of their secular relatives, and forbidden television shows, movies, websites, and books. *Becoming Un-Orthodox* draws much-needed attention to the vital role of the body and bodily behavior in religious practices. It is through physical rituals and routines that the members of a religion, particularly a highly conservative one, constantly create, perform, and reinforce the culture of the religion. Because of the many observances and daily rituals required by their faith, Hasidic defectors are an exemplary case study for exploring the centrality of the body in shaping,

maintaining, and shedding religions. This book provides both a

moving narrative of the struggles of Hasidic defectors and a compelling call for greater collective understanding of the

complex significance of the body in society.
