Book Penguin UK

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BUZZFEED • A stunning

epic that is at once a new vision of science fiction and a deeply moving love story, from the award-winning author of *Redemption in Indigo* “An engrossing picaresque quest, a love story, and a moving character study . . . [Karen] Lord is on a par with Ursula K. Le Guin.”—*The Guardian* A proud and reserved alien society finds its homeland destroyed in an unprovoked act of aggression, leaving the survivors no choice but to reach out to the indigenous humanoids of their adopted world, to whom they are distantly related. They wish to preserve their cherished way of life but discover that to protect their culture, they may have to change it forever. Now a man and a woman from opposite sides of these clashing societies must work together to save this vanishing race—and end up uncovering ancient mysteries with far-reaching ramifications. As their mission hangs in the balance, these unlikely partners—one cool and cerebral, the other fiery and impulsive—may find in each other their own destinies . . . and a force that transcends all. Includes two bonus short stories “[A] fascinating and thoughtful science fiction novel that examines] adaptation, social change, and human relationships. I’ve not read anything quite like it, which makes it that rare beast: a true original.”—Kate Elliott, author of the *Crown of Stars* series and *The Spiritwalker Trilogy* “Reads like smooth jazz comfort food, deceptively familiar and easy going down, but subtly subversive.”—Nalo Hopkinson, *Los Angeles Review of Books*

“If you want to see science fiction doing something new and fascinating . . . then you shouldn’t sleep on *The Best of All Possible Worlds*.”—io9 “Rewarding science fiction for emotional grown-ups.”—*Mysterious Galaxy* “[A] marvelously formed universe.”—*The A.V. Club* “A rewarding, touching and often funny exploration of the forms and functions of human culture.”—*SFX* “*The Best of All Possible Worlds* . . . poses an interesting question: What parts of you do you fight to preserve when everything you know suddenly changes?”—*Associated Press*

All the Best Nights Simon and Schuster
 "After years of debate and inquiry, the key to a great marriage remained shrouded in mystery. Until now..."—Carol Dweck, author of *Mindset: The New Psychology of Success* Eli J. Finkel's insightful and ground-breaking

investigation of marriage clearly shows that the best marriages today are better than the best marriages of earlier eras. Indeed, they are the best marriages the world has ever known. He presents his findings here for the first time in this lucid, inspiring guide to modern marital bliss. The All-or-Nothing Marriage reverse engineers fulfilling marriages—from the “traditional” to the utterly nontraditional—and shows how any marriage can be better. The primary function of marriage from 1620 to 1850 was food, shelter, and protection from violence; from 1850 to 1965, the purpose revolved around love and companionship. But today, a new kind of marriage has emerged, one oriented toward self-discover, self-esteem, and personal growth. Finkel combines cutting-edge scientific research with practical advice; he considers paths to better communication and responsiveness; he offers guidance on when to recalibrate our expectations; and he even introduces a set of must-try “lovehacks.” This is a book for the newlywed to the empty nester, for those thinking about getting married or remarried, and for anyone looking for illuminating advice that will make a real difference to getting the most out of marriage today.

INSTANT NEW YORK TIMES BESTSELLER
A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST'S BOOKS OF THE YEAR "My new favorite book of all time." --Bill Gates If you think the world is coming to an end, think again: people are living longer, healthier, freer, and happier lives, and while our problems are formidable, the solutions lie in the Enlightenment ideal of using

reason and science. By the author of the new book, *Rationality*. Is the world really falling apart? Is the ideal of progress obsolete? In this elegant assessment of the human condition in the third millennium, cognitive scientist and public intellectual Steven Pinker urges us to step back from the gory headlines and prophecies of doom, which play to our psychological biases. Instead, follow the data: In seventy-five jaw-dropping graphs, Pinker shows that life, health, prosperity, safety, peace, knowledge, and happiness are on the rise, not just in the West, but worldwide. This progress is not the result of some cosmic force. It is a gift of the Enlightenment: the conviction that reason and science can enhance human flourishing. Far from being a naïve hope, the Enlightenment, we now know, has worked. But more than ever, it needs a vigorous defense. The Enlightenment project swims against currents of human nature--tribalism, authoritarianism, demonization, magical thinking--which demagogues are all too willing to exploit. Many commentators, committed to political, religious, or romantic ideologies, fight a rearguard action against it. The result is a corrosive fatalism and a willingness to wreck the precious institutions of liberal democracy and global cooperation. With intellectual depth and literary flair, *Enlightenment Now* makes the case for reason, science, and humanism: the ideals we need to confront our problems and continue our progress.

The Best Magic of All Apollo
From the author of Edgar Award finalist *Grit* and *The Lies They Tell* comes a tense, atmospheric novel for fans of E. Lockhart and Marieke Nijkamp, about friendship, truth, and the creeping fears

that can't be outrun. Whenever another kid goes missing in October, the kids in the old factory town of Pender know what is really behind it: a monster out in the marshes that they call the Mumbler. That's what Clara's new crew tells her when she moves to town. Bree and Sage, who take her under their wing. Spirited Trace, who has taken the lead on this year's Halloween prank war. And magnetic Kincaid, whose devil-may-care attitude and air of mystery are impossible for Clara to resist. Clara doesn't actually believe in the Mumbler—not like Kinkaid does. But as Halloween gets closer and tensions build in the town, it's hard to shake the feeling that there really is something dark and dangerous in Pender. Lurking in the shadows. Waiting to bring the stories to life.

"There was no patriotism in the trenches. It was too remote a sentiment, and rejected as fit only for civilians. A new arrival who talked patriotism would soon be told to cut it out. As Blighty, Great Britain was a quiet, easy place to get back to out of the present foreign misery, but as a nation it was nothing." This is the original version of Robert Graves's intense memoir of the First World War, restoring this raw, emotionally truthful, darkly comic work to the way it was first written, by a young man still reeling from the trenches. 'We see the dark heart of the book even more clearly, and hear it beating even more loudly, in this original edition than we do in the comparatively careful and considered terms of the later one' Andrew Motion 'One of the most candid self-portraits, warts and all, ever painted' TLS
