WINNER OF THE PULITZER PRIZE What sort of "person" is God? What is his "life story"? Is it possible to approach him not as an object of religious reverence, but as the protagonist of the world's greatest book—as a character who possesses all the depths, contradictions, and ambiguities of a Hamlet? This is the task that Jack Miles—a former Jesuit trained in religious studies and Near Eastern languages—accomplishes with such brilliance and originality in *God: A Biography*. Using the Hebrew Bible as his text, Miles shows us a God who evolves through his relationship with man, the image who in time becomes his rival. Here is the Creator who nearly destroys his chief creation; the

bloodthirsty warrior and the protector of the downtrodden; the lawless law-giver; the scourge and the penitent. Profoundly learned, stylishly written, the resulting work illuminates God and man alike and returns us to the Bible with a sense of discovery and wonder.

*Noah's Ark* Beginner's Bible

What kind of book is the Bible? Is it a rulebook or a guidebook for moral living? Is it a history book or a book filled with fascinating (and sometimes fantastic) stories? Did humans write the Bible or did God somehow speak a perfect message that the authors transcribed? Many people have asked these questions about the nature of this beautiful, odd, comforting, disturbing book the church calls its "Holy Scripture." Charlotte Vaughan Coyle shares her own journey to make sense of the Bible in this read-through-the-Bible-in-a-year project. She discovered that the crucial work of asking hard questions and even arguing with the Bible revealed the Scriptures to be a symphony of polyphonic voices, a work of art that paints an alternative vision of reality, a complex novel-like story unavoidably embedded in its own culture and time, and yet able to give witness to the God beyond history who has acted (and continues to act) within history. With the heart of a pastor and the passion of a preacher, Rev. Coyle invites seekers and students (both church and un-church) to strap on their scuba gear and join her for a deeper dive beneath the surface of this immense, colorful, mysterious world of the Bible.

**My Very First Bible Stories** Nelson Bibles

America's leading religious scholar and public intellectual introduces lay readers to the Qur'an with a measured, powerful reading of the ancient text Garry Wills has spent a lifetime thinking and writing about Christianity. In *What the Qur'an Meant*, Wills invites readers to join him as he embarks on a timely and necessary reconsideration of the Qur'an, leading us through perplexing passages with insight and erudition. What does the Qur'an actually say about veiling women? Does it justify religious war? There was a time when ordinary Americans did not have to know much about Islam. That is no longer the case. We blundered into the longest war in our history without knowing basic facts about the Islamic civilization with which we were dealing. We are constantly fed false information about Islam—claims that it is essentially a religion of violence, that its sacred book is a handbook for terrorists. There is no way to assess these claims unless we have at least some knowledge of the Qur'an. In this book Wills, as a non-Muslim with an open mind, reads the Qur'an with sympathy but with rigor, trying to discover why other non-Muslims—such as Pope Francis—find it an inspiring book, worthy to guide people down through the centuries. There are many traditions that add to and distort and blunt the actual words of the text. What Wills does resembles the work of art restorers who clean away accumulated layers of dust to find the original meaning. He compares the Qur'an with other sacred books, the Old Testament and the New Testament, to show many parallels between them. There are also parallel difficulties of interpretation, which call for patient exploration—and which offer some thrills of discovery. What the Qur'an Meant is the opening of a conversation on one of the world's most practiced religions.
