CANTRELL HERRING

Highlighting the History of Astronomy in the Asia-Pacific Region

Turtleback Books
Recent crime fiction increasingly transcends national boundaries, with investigators operating across countries and continents. Frequently, the detective is a migrant or comes from a transcultural background. To solve the crime, the investigator is called upon to decipher the meaning(s) hidden in clues and testimonies that require transcultural forms of understanding. For the reader, the investigation discloses new interpretive methods and processes of social investigation, often challenging facile interpretations of the postcolonial world order. Under the rubric 'postcolonial postmortems', this collection of essays seeks to explore the tropes, issues and themes that characterise this emergent form of crime fiction. But what does the 'postcolonial' bring to the genre apart from the well-known, and valid, discourses of resistance, subversion and ethnicity? And why 'postmortems'? A dissection and medical

examination of a body to determine the cause of death, the 'postmortem' of the postcolonial not only alludes to the investigation of the victim's remains, but also to the body of the individual text and its contexts. This collection interrogates literary concepts of postcoloniality and crime from transcultural perspectives in the attempt to offer new critical impulses to the study of crime fiction and postcolonial literatures. International scholars offer insights into the 'postcolonial postmortems' of a wide range of texts by authors from Africa, South Asia, the Asian and African Diaspora, and Australia, including Robert G. Barrett, Unity Dow, Wessel Ebersohn, Romesh Gunsekera, Kazuo Ishiguro, Sujata Massey, Alexander McCall Smith and Michael Ondaatje. *TLA Film, Video, and DVD Guide 2002-2003* HarperCollins
This chilling fable brings the stories of several characters together into a whole, like clockwork

Science, military technology, and more Features contributions by the most accomplished scholars in the field of science history Covers pivotal events in U.S. history that shaped the development of science and science policy such as WWII, the Cold War, and the Women's Rights movement

From the Mixed-Up Files of Mrs. Basil E.

Frankweiler John Wiley & Sons

The thrilling conclusion to two-time National Book Award finalist Laura Ruby's epic adventure through the streets of an alternate New York City. It was only a few days ago that Tess Biedermann, Theo Biedermann, and Jaime Cruz, along with a mysterious figure from the past, managed to survive an assault on the location of the latest clue in the Morningstarr cipher—and, in the process, made a shocking discovery about their own connection to this one-hundred-sixty-year-old enigma. Now the friends are divided. Tess and Theo have no idea what the photo they found in Greenwood Cemetery means, but Jaime is convinced that they do, and that they've been keeping their own secrets

from him. As the city continues to break around them, suddenly solving the greatest mystery of the modern world seems less important than saving their own friendship. The stakes of completing the cipher, however, have never been higher. Darnell Slant, real estate developer and owner of all the Morningstarr buildings, knows that they hold one last secret: a power that even the Morningstarrs themselves never revealed. The world has rested on a precarious balance of power for generations; now Slant and his shadowy business partners aim to unbalance it. It's up to Tess, Theo, and Jaime to uncover the Morningstarrs' final mystery in a desperate attempt to set things right. The world—theirs, and possibly others—depends on it.

The Freemason's Chronicle Wildside Press LLC

From a New York Times bestseller, "firmly planted in the steampunk genre, an epic-scale story . . . with beautiful illustrations" based on the album from Rush(Booklist). A remarkable collaboration that is unprecedented in

its scope and realization, this exquisitely wrought novel represents an artistic project between the bestselling science fiction author Kevin J. Anderson and the multiplatinum rock band Rush. Rush's concept album, *Clockwork Angels*, sets forth a story in Neil Peart's lyrics that has been expanded by Peart and Anderson into this epic novel. In a young man's quest to follow his dreams, he is caught between the grandiose forces of order and chaos. He travels across a lavish and colorful world of steampunk and alchemy with lost cities, pirates, anarchists, exotic carnivals, and a rigid Watchmaker who imposes precision on every aspect of daily life. The mind-bending story is complemented with rich paintings by the five-time Juno Award winner for Best Album Design, Hugh Syme. "Stands on its own merits as a grand adventure tale woven with threads of various themes enough to keep it fresh, exciting and engaging. Ultimately, *Clockwork Angels* is one of the most human of stories." —Book Reporter "A fine piece of dystopian fiction, and it will appeal to readers young and

old.” —Booklist

The Youth's Companion

Tor Books

It was 1798 when the Morningstarr twins arrived in New York with a vision for a magnificent city: towering skyscrapers, dazzling machines, and winding train lines, all running on technology no one had ever seen before. Fifty-seven years later, the enigmatic architects disappeared, leaving behind for the people of New York the Old York Cipher—a puzzle laid into the shining city they constructed, at the end of which was promised a treasure beyond all imagining. By the present day, however, the puzzle has never been solved, and the greatest mystery of the modern world is little more than a tourist attraction. Tess and Theo Biedermann and their friend Jaime Cruz live in a Morningstarr apartment—until a real estate developer announces that the city has agreed to sell him the five remaining Morningstarr buildings. Their likely destruction means the end of a dream long held by the people of New York. And if Tess, Theo, and Jaime want to save their home, they have to prove that the Old York Cipher is real. Which means they have to solve

it.

Now available in a deluxe keepsake edition! A Time Best YA Book of All Time (2021) Run away to the Metropolitan Museum of Art with E. L. Konigsburg's beloved classic and Newbery Medal-winning novel *From the Mixed-Up Files of Mrs. Basil E. Frankweiler*. When Claudia decided to run away, she planned very carefully. She would be gone just long enough to teach her parents a lesson in Claudia appreciation. And she would go in comfort—she would live at the Metropolitan Museum of Art. She saved her money, and she invited her brother Jamie to go, mostly because he was a miser and would have money. Claudia was a good organizer and Jamie had some ideas, too; so the two took up residence at the museum right on schedule. But once the fun of settling in was over, Claudia had two unexpected problems: She felt just the same, and she wanted to feel different; and she found a statue at the Museum so beautiful she could not go home until she had discovered its maker, a question that baffled the

experts, too. The former owner of the statue was Mrs. Basil E. Frankweiler. Without her—well, without her, Claudia might never have found a way to go home.

[A Companion to the History of American Science](#) Simon and Schuster

Lucia and Charley are the products of Old New York's ruling elite. Prestige. Wealth. Tradition. Scandal. No one is immune. Not Charley, reckless, blithe courtier of trouble, heiress to the Montrose fortune, who has been conspicuously absent for over a year without a word of truth or explanation. Nor Lucia, as docile a daughter as any parent could wish for, carrying secrets of her own, slowly awakening to a yearning for things beyond obedience to the established order, as deeply ingrained as Old New York's fascination for, and fear of, scandal. Sailing into the summer of 1929, on the eve of the Black Tuesday Wall Street Crash and a world on the brink of change, Charley and Lucia must keep their wits sharp about them in the pleasure capitals of the Continent and on the Nile to steer their futures away from peril. There are men and temptations to

resist, intrigues and mysteries to untangle, secrets to hide, lies to weave, and jewel thieves to outsmart while, back home in New York and on the Exchange, the world rumbles and thunders ominously by. More hangs in the balance than the frivolities of the Jazz Age, the glitzy parties in London and the lures of Paris, automobile races, leisurely flirtations on the French Riviera, opulent Egyptian nights, and the catching of a brilliant matrimonial prize. This Grand Tour could prove to be the making of two young women, a prelude to freedom and independence, to saving and building an empire... Or perhaps merely an invitation to rebellion, scandal and unmitigated disaster. Running away or running towards? Tick-tock. This volume contains all three books in the Voyage Out series: *Voyage Out*, *The Grand Tour*, *The Stroke of Midnight*.

Ali Cross Harper Collins
In Supernatural Entertainments, Simone Natale vividly depicts spiritualism's rise as a religious and cultural phenomenon and explores its strong connection to the growth of the media

entertainment industry in the nineteenth century. He frames the spiritualist movement as part of a new commodity culture that changed how public entertainments were produced and consumed. Starting with the story of the Fox sisters, considered the first spiritualist mediums in history, Natale follows the trajectory of spiritualism in Great Britain and the United States from its foundation in 1848 to the beginning of the twentieth century. He demonstrates that spiritualist mediums and leaders adopted many of the promotional strategies and spectacular techniques that were being developed for the broader entertainment industry. Spiritualist mediums were indistinguishable from other professional performers, as they had managers and agents, advertised in the press, and used spectacularism to draw audiences. Addressing the overlap between spiritualism's explosion and nineteenth-century show business, Natale provides an archaeology of how the supernatural became a powerful force in the media and popular culture of today.

Astronomy and Astrophysics Abstracts is devoted to the recording, summarizing and indexing of astronomical publications throughout the world. Two volumes are scheduled to appear per year. Volume 67 records 10,903 papers covering besides the classical fields of astronomy and astrophysics such matters as space flights related to astronomy, lunar and planetary probes and satellites, meteorites and interplanetary matter, X rays and cosmic rays, quasars and pulsars. The abstracts are classified under more than one hundred subject categories thus permitting quick surveying of the bulk of material published on the same topic within six months. For instance, this volume records 119 papers on minor planets, 155 papers on

supernovae, and 554 papers on cosmology. Postcolonial Postmortems Carroll & Graf Pub The ghost of Eric, a teenage honor student killed by his friend Tom, a defiant rebel obsessed with A Clockwork Orange, chronicles the story of his life, especially the tumultuous months that led up to his death. A first novel. Original.

Too Much of Nothing WordFire +ORM

View our feature on Simon R. Green's Ghost of a Chance. A brand-new series from the New York Times bestselling author of the Nightside novels! The Carnacki Institute exists to "Do Something" about Ghosts-and agents JC Chance, Melody Chambers, and Happy Jack Palmer will either lay them to rest, send them packing, or kick their nasty ectoplasmic arses with extreme prejudice.

Comets, Cosmology and the Big Bang Simon and Schuster

This book will take the story of astronomy on from where Allan Chapman left it in Stargazers, and bring it almost up to date, with the developments and discoveries of the last three centuries. He covers the big names - Halley, Hooke, Herschel, Hubble

and Hoyle; and includes the women who pushed astronomy forward, from Caroline Herschel to the Victorian women astronomers. He includes the big discoveries and the huge ideas, from the Milky War, to the Big Bang, the mighty atom, and the question of life on other planets. And he brings in the contributions made in the US, culminating in their race with the USSR to get a man on the moon, before turning to the explosion of interest in astronomy that was pioneered by Sir Patrick Moore and The Sky at Night.

Turtleback Books

From the acclaimed author of Nightbooks and The Thickety comes a spooky series, perfect for fans of Neil Gaiman, Adam Gidwitz, and Stranger Things! Cordelia Liu knew Shadow School was going to be different. Still, she didn't expect the school grounds to be filled with ghosts. Cordelia soon realizes she's not the only one who can see the ghosts; her new friend

Benji can too. Together with super-smart Agnes, the trio are determined to find out why the ghosts are there, and whether there's a way to set them

free. But the school was created with more sinister intentions, and someone is willing to go to extreme lengths to ensure that the ghosts remain trapped forever. Check out the

book that School Library Journal called a "delightful blend of friendship, suspense, and spectral sightings [that] belongs on most shelves!"
