When twentysomething reporter Miranda Kennedy leaves her job in New York City and travels to India with no employment prospects, she longs to immerse herself in the turmoil and excitement of a rapidly developing country. What she quickly learns in Delhi about renting an apartment as a single woman—it's next to impossible—and the proper way for women in India to ride scooters—perched sideways—are early signs that life here is less Westernized than she'd counted on. Living in Delhi for more than five years, and finding a city pulsing with possibility and hope, Kennedy experiences friendships, love affairs, and losses that open a window onto the opaque world of Indian

politics and culture—and alter her own attitudes about everything from food and clothes to marriage and family. Along the way, Kennedy is drawn into the lives of several Indian women, including her charismatic friend Geeta—a self-described “modern girl” who attempts to squeeze herself into the traditional role of wife and mother; Radha, a proud Brahmin widow who denies herself simple pleasures in order to live by high-caste Hindu principles; and Parvati, who defiantly chain-smokes and drinks whiskey, yet feels compelled to keep her boyfriend a secret from her family. In her effort to understand the hopes and dreams that motivate her new friends, Kennedy peels back India's globalized image as a land of call centers and fast-food chains and finds an ancient place where, in many ways, women's lives have scarcely changed for centuries. Incisive, witty, and written with a keen eye for the lush vibrancy of the country that Kennedy comes to love, *Sideways on a Scooter* is both a remarkable memoir and a cultural revelation.

This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English

spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

In this in depth look at hymns, Brian Wren explores the theological significance of congregational song, asks how music has meaning for its singers, and considers the importance of contemporary worship music. He argues that a hymn is a complex

"Word study is an approach to teaching phonics, vocabulary, and spelling that is based on a developmental model described by Henderson and his students. Given the reciprocal nature between reading and writing, phonics, spelling and vocabulary are integrated in instruction. Teachers understand that this word study approach integrates phonics, spelling, and vocabulary, and have challenged us to share concrete examples of how teachers organize and implement word study and how literacy educators in universities and school districts conduct professional learning for word study. The primary goal, then, is to make word study work for our students. The authors of each chapter show how literacy leaders and teacher educators guide others in a wide variety of educational settings. Stories in this volume capture classroom conversations, describe professional learning communities, and present coaching scenarios that will resonate with reader's experiences"--

33 Ways to Help with Spelling Primary Concepts

High school was supposed to be a fresh start—new school, new me. I should be basking in the glory of my new found popularity and placing top of my class, but I can't. That's because I have to live with my stupid ex, Mizuto Irido, who is also my little stepbrother now. For the sake of our newlywed parents, we're pretending to be best friends, but behind the scenes, we hate each other's guts and would like nothing more than to see the other crash and burn. We once thought we were deeply in love, but that was nothing but a folly of youth—a mistake that neither of us were keen on repeating. He never really understood me, even when we were dating. Nowadays, he still acts like he knows me, but that's all it is—an act. All he saw— No, all he's ever seen has been a plain-looking girl who shared a hobby with him. If someone else who fit that description asked him out, what would

stop him from saying yes?

In the 1930's, when Hitler's Nazi party was growing in Germany, it also gained popularity in the Sudetenland, inhabited by a German-speaking population that had been added to Czechoslovakia in 1919. A minority group, the Social Democrats, became active in opposing that party. When Britain's Neville Chamberlain ceded the area to Germany in 1938 as the "Price for Peace," these people were in danger of incarceration or even execution. Of those who escaped, a number were able to immigrate to Canada. Although none of them had any training or experience in agriculture, being office or factory workers in towns or cities of central Europe, they were admitted to Canada providing that they become farmers. A group of about 518 ranging in age from 1 month to 54 years were brought to Tupper, BC, in the Peace River District, under the supervision of the Canadian Colonization Association, a subsidiary of the Canadian Pacific Railway, to develop their own farms out of a virtual wilderness. This book is the story of their first five years there.
