Manual of Catalan Linguistics Walter de Gruyter GmbH & Co KG

This manual is intended to fill a gap in the area of Romance studies. There is no introduction available so far that broadly covers the field of Catalan linguistics, neither in Catalan nor in any other language. The work deals with the language spoken in Catalonia and Andorra, the Balearic Islands, the region of Valencia, Northern Catalonia and the town of l'Alguer in Sardinia. Besides introducing the ideologies of language and nation and the history of Catalan linguistics, the manual is divided into separate parts embracing the description - grammar, lexicon, variation and varieties - and the history of the language since the early medieval period to the present day. It also covers its current social and political situation in the new local and global contexts. The main emphasis is

placed on modern Catalan. The manual is designed as a companion for students of Catalan, while also introducing specialists of other languages into this field, in particular scholars of Romance languages.

[A Critical and Pronouncing Dictionary of the English Language](#) Library of Tibetan Works and Archives

The four works included in this collection have enjoyed a rather chequered career. They originally formed the second volume of the doctoral thesis Michael Aris submitted in 1978 to the University of London. They have been included because of their value as crucial source material on the formative era of Bhutanese history, as they cover the entire period leading to the full emergence of the Bhutanese theocracy. Their relative brevity as compared with the other major works relevant to this period further suggested the convenience of including them as a group of inter-related 'minor' texts. While the first two works in this collection have never before been available to modern scholars, and are indeed hardly known even in Bhutan, the next two (which include a text translated from Portuguese) have been partially known from the works of John Claude White (Sikkim and Bhutan-Twenty-one years on the North-East Frontier 1887-1908, London) and C.

Wessels (Early Jesuit Travelers in Central Asia, The Hague 1924.
