"The Diskursn fun di naye un di alte kille are a rare phenomenon, not just in the history of Jewish communities in the period of emancipation, but in the histories of Yiddish literature and satirical/polemical periodicals as well. This is the first ever bilingual edition of a major portion of these fascinating documents - indeed the first time any of them have been published in English translation.

*People Love Dead Jews: Reports from a Haunted Present* W. W. Norton & Company

Who are the Jews--a race, a people, a religious group? For over a century, non-Jews and Jews alike have tried to identify who they were--first applying the methods of physical anthropology and more recently of population genetics. In *Legacy*, Harry Ostrer, a medical geneticist and authority on the genetics of the Jewish people, explores not only the history of these efforts, but also the insights that genetics has provided about the histories of contemporary

Jewish people. Much of the book is told through the lives of scientific pioneers. We meet Russian immigrant Maurice Fishberg; Australian Joseph Jacobs, the leading Jewish anthropologist in fin-de-siècle Europe; Chaim Sheba, a colorful Israeli geneticist and surgeon general of the Israeli Army; and Arthur Mourant, one of the foremost cataloguers of blood groups in the 20th century. As Ostrer describes their work and the work of others, he shows that to look over the genetics of Jewish groups, and to see the history of the Diaspora woven there, is truly a marvel. Here is what happened as the Jews migrated to new places and saw their numbers wax and wane, as they gained and lost adherents and thrived or were buffeted by famine, disease, wars, and persecution. Many of these groups--from North Africa, the Middle East, India--are little-known, and by telling their stories, Ostrer brings them to the forefront at a time when assimilation is literally changing the face of world Jewry. A fascinating blend of history, science, and biography, *Legacy* offers readers an entirely fresh perspective on the Jewish people and their history. It is as well a cutting-edge portrait of population genetics, a field which may soon take its place as a pillar of group identity alongside shared spirituality, shared social values, and a shared cultural legacy.

Since the creation of the National Cooperative Educational Statistics System in 1988, states have joined with the National Center for Education Statistics to produce and maintain comparable and uniform education statistics. Through the National Forum on Education Statistics, states have met to develop and propose a set of basic data elements for voluntary use. Using these data elements will provide more comparable and reliable education information for any educational system adopting the common terminology. The basic data elements will not meet every education information purpose, but a set of basic data elements should help answer the most frequently asked questions about the administration, status, quality, operation, and performance of schools and school systems. This report presents a process for selecting and including new data elements in an information system and the student and staff elements that can

be used to create information for conducting the day-to-day administration of schools and school districts; completing federal and state reports, and creating indicators that address questions about the success and functioning of education systems. The basic data elements selected for student information systems are grouped into categories of: (1) personal information; (2) enrollment; (3) school participation and activities; (4) assessment; (5) transportation; (6) health conditions, special program participation, and student support services; and (7) discipline. Similar elements defined for staff information systems include personal information, educational background, qualification information, current employment, assignments, and information on career development and separation from employment. An appendix contains discussions of policy questions, indicators, and basic data elements. (SLD)

Winner of the 2021 National Jewish Book Award for Contemporary Jewish Life and Practice Finalist for the 2021 Kirkus Prize in Nonfiction A New York Times Notable Book of the Year A Wall Street Journal, Chicago Public Library, Publishers Weekly, and Kirkus Reviews Best Book of the Year A startling and profound exploration of how Jewish history is exploited to comfort the living.

Renowned and beloved as a prizewinning novelist, Dara Horn has also been publishing penetrating essays since she was a teenager. Often asked by major publications to write on subjects related to Jewish culture—and increasingly in response to a recent wave of deadly antisemitic

attacks—Horn was troubled to realize what all of these assignments had in common: she was being asked to write about dead Jews, never about living ones. In these essays, Horn reflects on subjects as far-flung as the international veneration of Anne Frank, the mythology that Jewish family names were changed at Ellis Island, the blockbuster traveling exhibition Auschwitz, the marketing of the Jewish history of Harbin, China, and the little-known life of the "righteous Gentile" Varian Fry. Throughout, she challenges us to confront the reasons why there might be so much fascination with Jewish deaths, and so little respect for Jewish lives unfolding in the present. Horn draws upon her travels, her research, and also her own family life—trying to explain Shakespeare's Shylock to a curious ten-year-old, her anger when swastikas are drawn on desks in her children's school, the profound perspective offered by traditional religious practice and study—to assert the vitality, complexity, and depth of Jewish life against an antisemitism that, far from being disarmed by the mantra of "Never forget," is on the rise. As Horn explores the (not so) shocking attacks on the American Jewish community in recent years, she reveals the subtler dehumanization built into the public piety that surrounds the Jewish past—making the radical argument that the benign reverence we give to past horrors is itself a profound affront to human dignity.

This remarkable history tells the story of the independent city-republic of Basel in the nineteenth century, and of four major thinkers who shaped its intellectual history: the historian Jacob Burckhardt, the philologist and anthropologist Johann Jacob Bachofen, the theologian Franz Overbeck, and the philosopher Friedrich Nietzsche.

"Remarkable and exceptionally readable . . . There is wit, wisdom and an immense erudition on every page."—Jonathan Steinberg, *Times Literary Supplement* "Gossmann's book, a product of many years of active contemplation, is a tour de force. It is at once an intellectual history, a cultural history of Basel and Europe, and an important contribution to the study of nineteenth-century historiography.

Written with a grace and elegance that many aspire to, few seldom achieve, this is model scholarship."—John R. Hinde, *American Historical Review*

This book deals with transnationalism and captures its singularity as a generalized phenomenon. The profusion of transnational communities is a factor

of fluidity in social orders and represents confrontations between contingencies and basic socio-cultural drives. It has created a new era different from the past at essential respects. This is an age of enriching cultural diversity fraught with threatening risks inextricably linked to contemporary globalization. National sovereignty is eroded from above by global processes, from below by aspirations of sub-national groups, and from the sides - by transnational allegiances. This is the backdrop against which this book delves into the fundamental issues relating to the nature, scope and overall significance of transnationalism.

The new novel by the internationally acclaimed author- "a farce of nuclear proportions"(Vanity Fair) Arnon Grunberg is one of the most subtly outrageous provocateurs in world literature. The Jewish Messiah, which chronicles the evolution of one Xavier Radek from malcontent grandson of a former SS officer, to Jewish convert, to co-translator of Hitler's Mein Kampf into Yiddish, to Israeli politician and Israel's most unlikely prime minister, is his most outrageous work yet. Taking on the most well-guarded pieties and taboos of our age, The Jewish Messiah is both a great love story and a grotesque farce that forces a profound reckoning with the limits of human guilt, cruelty, and suffering. It is without question Arnon Grunberg's masterpiece.

In July 1941, the Soviet Union was in mortal danger. Imperiled by the Nazi invasion and facing catastrophic losses, Stalin called on the Soviet people to "subordinate everything to the needs of the front." Kazakhstan answered that call. Stalin had long sought to restructure Kazakh life to modernize the local population—but total mobilization during the war required new tactics and produced unique results. Kazakhstan in World War II analyzes these processes and their impact on the Kazakhs and the Soviet Union as a whole. The first English-language study of a non-Russian Soviet republic during World War II, the book explores how the war altered official policies toward the region's ethnic groups—and accelerated Central Asia's integration into Soviet institutions. World War II is widely recognized as a watershed for Russia and the Soviet Union—not only did the conflict legitimize prewar institutions and ideologies, it also provided a medium for integrating some groups and excluding others. Kazakhstan in World War II explains how these processes played out in the ethnically diverse and socially "backward" Kazakh republic. Roberto J. Carmack marshals a wealth of archival materials, official media sources, and personal memoirs to produce an in-depth examination of wartime ethnic policies in the Red Army, Soviet propaganda for non-Russian groups, economic strategies in the Central Asian periphery, and administrative practices toward deported groups. Bringing Kazakhstan's previously neglected role in World War II to the fore, Carmack's work fills an important gap in the region's history and sheds new light on

our understanding of Soviet identities.

*The Jewish Messiah* Walter de Gruyter

In the spring of 1945, Fuhrer and Reich Chancellor Adolf Hitler, President Edvard Benes, and Marshal Josip Broz Tito stood as examples of the complete rupture between the Germans and Austrians on the one hand, and the Czechs, Slovaks, Slovenes, Croats, Serbs, and Bosniaks on the other. The total break that occurred in World War II with war crimes, crimes against humanity, and even genocides (particularly against the Jews and "Gypsies") had a long pre-history, beginning with violent nationalist clashes in the Habsburg Monarchy during the revolutions of 1848/49. Therefore, this monograph - based on a broad range of international primary and secondary sources - explores the development of the political, legal, economic, social, and cultural "communities of conflict" within Austria-Hungary, especially in the Bohemian and South Slavic countries, the making of the Paris Peace Treaties in 1919/20 by violating President Wilson's principle of self-determination, particularly in drawing new borders and creating new economic units, and the perpetuated ethnic-national conflicts between Czechs and Germans, Slovaks and Magyars, Slovenes and Germans, Croats and Serbs as well as Serbs and

Germans in the successor states, deepening the differences between the nations of East-Central Europe. Although many kings, presidents, chancellors, ministers, governors, diplomats, business tycoons, generals, Nazi-Gauleiter, higher SS and police leaders, and Communist functionaries have appeared as historical actors in the 170 years of East-Central and Southeastern European history, Hitler, Benes, and Tito remain especially present in historical memory at the beginning of the twenty-first century.

Anton de Kom's *We Slaves of Suriname* is a literary masterpiece as well as a fierce indictment of racism and colonialism. In this classic book, published here in English for the first time, the Surinamese writer and resistance leader recounts the history of his homeland, from the first settlements by Europeans in search of gold through the era of the slave trade and the period of Dutch colonial rule, when the old slave mentality persisted, long after slavery had been formally abolished. 159 years after the abolition of slavery in Suriname and 88 years after its initial publication, *We Slaves of Suriname* has lost none of its brilliance and power.

This is the first comprehensive study examining the impact of emancipation on the lives of Amsterdam's Jews. The enactment of equality in 1796 failed to provide these Jews with similar rights and opportunities as the non-Jews; two thirds of Amsterdam's Jewish community

remained poor for much of the nineteenth century. Even though the declaration of emancipation should have provided the Jews with legal and social equality, the Dutch authorities continued to retain their perception of the Jews as a separate and different group of predominantly uncultured paupers and never made it their priority to remove all restrictive measures.
