This translation of the Larenopfer, or offerings to the household god Lar, are songs that Rilke sings to his hometown Prague and to his beloved Bohemia, short poems on the parks, fountains, churches, bridges and palaces of Prague, not forgetting Rabbi Löw's legends, the Jewish cemetery, the Thirty Years War and, of course, young love. This cycle of 90 poems offers the reader a unique view into Rilke's fascinating world, the turn-of-the-century atmosphere of Prague, then the third largest city in the Austro-Hungarian Empire. Here a young German of the ruling bourgeoisie shows great appreciation of contemporary Czech literary works and enthusiasm for the cause of Czech cultural identity. The book therefore possesses not only literary merit but is also of considerable sociological and historical interest. --Red Hen Press. *Rich Man's Vengeful Seduction* HarperCollins Australia

One morning he went out for a walk beyond the town limits to excogitate the final touches for some sentences that were to annihilate the infidel Frenchman. Suddenly he fell prey to a disquiet that almost amounted to physical distress. He turned over in his mind the life he had been leading for the last three months. It had grown wearisomely familiar—the morning walks into the country, the evenings spent in gambling for petty stakes with the reputed Baron Perotti and the latter's pock-marked mistress. He thought of the affection lavished upon himself by his hostess, a woman ardent but no longer young. He thought of how he had passed his time over the writings of Voltaire and over the composition of an audacious rejoinder which until that moment had seemed to him by no means inadequate. Yet now, in the dulcet atmosphere of a morning in late summer, all these things appeared stupid and repulsive.

The guiding theme of these essays is the fate of the imagination and the condition of art in the modern world, where both appear to be enfeebled by scientific hubris, undermined by psychological self-questioning and compromised by political disaster. Erich Heller traces this predicament with subtlety and profundity, from Hegel's and Nietzsche's diagnoses to the various truces and manoeuvres through which remarkable victories have nonetheless been achieved - such as the comic triumphs of Wilhelm Busch. As elsewhere in Professor Heller's work, Thomas Mann's attempt to outwit and redeem his circumstances through art - 'despite' them, as he said himself - occupies a central place. Three of the present essays are devoted to him. Others consider Kleist, Fontane, Hamsun, Karl Kraus and the crucial figures of Hölderlin (who plays such a central role in Heidegger's later philosophical writings) and Rilke. Written with feeling, and the distinctive elegance and wit that have characterized all of Professor Heller's work, the essays here reaffirm the vital interdependence of literature and human values.
