"I would number *Moving Places* among a handful of truly classic books about film."—James Naremore, author of *Acting in the Cinema*

Washington International Arts Letter Greenwood

This alphabetical reference covers the entire spectrum of the recording of sound, from Edison's experimental cylinders to contemporary high technology. The major focus is on the recorded sound industry in the US, with additional material on Canada, Europe, Australia, and New Zealand. The coverage is particularly strong on the earliest periods of recorded sound history--1877-1948, the 78 rpm era and 1949-1982, the LP era. In addition to performers and their work, entries also cover important commercial organizations, individuals who made significant technical contributions, societies and associations, sound archives and libraries, magazines, catalogs, award winners, technical topics, special and foreign terms, copyright laws, and other areas of interest. Annotation copyright by Book News, Inc., Portland, OR

Books In Print 2004-2005 R. R. Bowler

This annotated bibliography contains over 700 entries covering adult non-fiction books on jazz published from 1990 through 1999. Entries are organized by category, including biographies, history, individual instruments, essays and criticism, musicology, regional studies, discographies, and reference works. Three indexes—by title, author, and subject—are included.

Afro-American Poets Since 1955 Copyright Office, Library of Congress

A revised paperback edition of composer George Rochberg's landmark essays "Rochberg presents the rare spectacle of a composer who has made his peace with tradition while maintaining a strikingly individual profile. . . . [H]e succeeds in transforming the sublime concepts of traditional music into contemporary language." ---Washington Post "An indispensable book for anyone who wishes to understand the sad and curious fate of music in the twentieth century." ---Atlantic Monthly "The writings of George Rochberg stand as a pinnacle from which our past and future can be viewed." ---Kansas City Star As a composer, George Rochberg has played a leading role in bringing about a transformation of contemporary music through a reassessment of its relation to tonality, melody, and harmony. In *The Aesthetics of Survival*, the author addresses the legacy of modernism in music and its related effect on the cultural milieu, particularly its overemphasis on the abstract, rationalist thinking

embraced by contemporary science, technology, and philosophy. Rochberg argues for the renewal of holistic values in order to ensure the survival of music as a humanly expressive art. A renowned composer, thinker, and teacher, George Rochberg has been honored with innumerable awards, including, most recently, an Alfred I. du Pont Award for Outstanding Conductors and Composers, and an André and Clara Mertens Contemporary Composer Award. He lives in Pennsylvania.

The Solaris Effect Univ of California Press

Drawing on previously untapped archival materials including letters, interviews, and more, Bernard F. Dick traces the history of Columbia Pictures, from its beginnings as the CBC Film Sales Company, through the regimes of Harry Cohn and his successors, and ending with a vivid portrait of today's corporate Hollywood. The book offers unique perspectives on the careers of Rita Hayworth and Judy Holliday, a discussion of Columbia's unique brands of screwball comedy and film noir, and analyses of such classics as *The Awful Truth*, *Born Yesterday*, and *From Here to Eternity*. Following the author's highly readable studio chronicle are fourteen original essays by leading film scholars that follow Columbia's emergence from Poverty Row status to world class, and the stars, films, genres, writers, producers, and directors responsible for its transformation. A new essay on Quentin Tarantino's *Once Upon a Time*...in Hollywood rounds out the collection and brings this seminal studio history into the 21st century. Amply illustrated with film stills and photos of stars and studio heads, *Columbia Pictures* is the first book to integrate history with criticism of a single studio, and is ideal for film lovers and scholars alike.

Billboard Duke University Press

"A wonderful book. Sam Bardfeld's approach to teaching soloing along with being able to listen to examples of the masters of Afro-Cuban style on the violin sparked new and creative ideas in me. He presents a huge amount of material in a way that seems fun and lets you dive right in." - Regina Carter, jazz violinist and MacArthur "Genius" Award recipient "It's very satisfying that Sam Bardfeld's contribution to the texts on Latin music comes out of the gate so strongly. The historical context is wonderful, the information about the overall structure of the music is invaluable and a great place for the violinist to start, and the transcriptions are beautiful. Congratulations on a wonderful project that is going to fill a vacuum that is vast and fill it completely. I see no reason for there ever to be another book besides this one on Latin violin playing." - Matt Glaser, violinist, Chairman Emeritus, Strings Department, Berklee College of Music "This book is a welcome addition to the growing number of texts on Afro-Cuban based music. Sam opens the door for all violinists (and all instrumentalists) to this incredibly rich tradition in a clear, concise

manner with a great deal of respect for its history. I recommend it highly." - Bobby Sanabria, 8x Grammy Nominee, percussionist, bandleader and educator "A very useful book for the violinist who wants to begin to understand the complexities and intricacies of Latin jazz music." - Mark Feldman, jazz violinist, composer, recording artist. Originally published in 2001, Sam Bardfeld's book *Latin Violin* is considered one of the classics of the creative/alternative strings literature. It's been out of print since 2014 and is finally getting re-released as an eBook. The music on the original accompanying CD can be accessed via a download link provided in the book. *Latin Violin* is useful for both professional and student violinists who want to learn something about playing violin in the Afro-Cuban tradition (aka "salsa" or "Latin music"). The book is in four sections and covers an historical overview of the role of the violin in Afro-Cuban music; how the music works; transcriptions and analyses of solos by the seminal violinists in the Afro-Cuban tradition; and an outline of the music featured on the accompanying CD. The CD includes famous Afro-Cuban violin solos and an extended play-along session. "Salsa, and Latin music in general, have been exploding in popularity since the late seventies and show no sign of slowing down. The violin has filled an intriguing role in this kind of music, and there are many great opportunities for string players playing this style, but there has been very little documentation on the style up until this book. One of the great things about the book is its powerful approach to context: Bardfeld managed to get the rights to important recordings of some of the originators of the style, and included them in a CD recording with the book. Historical information and painstakingly accurate transcriptions of those solos complete the picture. Discussions of Clave and other important features of Latin music make this book a must for any serious violinist, professional or amateur." - Darol Anger, violinist, educator, recording artist

Richard Cook's Jazz Encyclopedia University Press of Kentucky
 Chronicling over forty years of changes in African-American popular culture, the Regal Theatre (1928-1968) was the largest movie-stage-show venue ever constructed for a Black community. Semmes reveals the political, economic and business realities of cultural production and the institutional inequalities that circumscribed Black life.

Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's *Space is the Place* is the definitive biography of this

musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

Polytechnic University, the second oldest private engineering and science institution in the United States, has for over 150 years provided the academic crucible and talent to advance the principles and frontiers of engineering and technology which have improved the lives of the vast majority of the world's inhabitants. Its students and professors have been honored for groundbreaking discoveries in numerous areas, including microwave technology, aeronautics, barcode technology, polymer science, and telecommunications. Noted author Jeffrey L. Rodengen details the rich and colorful history of this distinguished institution, ranked in the top 10 percent of all U.S. colleges and universities by The Princeton Review. Foreword by Wm. A. Wulf, PhD, president of the National Academy of Engineering.

What do contemporary American movies and directors have to say about the relationship between nature and art? How do science fiction films like Steven Spielberg's A.I. and Darren Aronofsky's π represent the apparent oppositions between nature and culture, wild and tame? Steven Dillon's intriguing new volume surveys American cinema from 1990 to 2002 with substantial descriptions of sixty films, emphasizing small-budget independent American film. Directors studied include Steven Soderbergh, Darren Aronofsky, Todd Haynes, Harmony Korine, and Gus Van Sant, as well as more canonical figures like Martin Scorsese, Robert Altman, David Lynch, and Steven Spielberg. The book takes its title and inspiration from Andrei Tarkovsky's 1972 film *Solaris*, a science fiction ghost story that relentlessly explores the relationship between the powers of nature and art. The author argues that American film has the best chance of aesthetic success when it acknowledges that a film is actually a film. The best American movies tell an endless ghost story, as they perform the agonizing nearness and distance of the cinematic image. This groundbreaking commentary examines the rarely seen bridge between select American film directors and their typically more adventurous European counterparts. Filmmakers such as Lynch and Soderbergh are cross-cut together with Tarkovsky and the great French director, Jean-Luc Godard, in order to test the limits and possibilities of American film. Both enthusiastically cinephilic and fiercely critical, this book puts a decade of U.S. film in its global place, as part of an ongoing conversation on nature and art.

Since ascending onto the world stage in the 1990s as one of the premier bassists and composers of his generation, William Parker has perpetually toured around the world and released over forty

albums as a leader. He is one of the most influential jazz artists alive today. In *Universal Tonality* historian and critic Cisco Bradley tells the story of Parker's life and music. Drawing on interviews with Parker and his collaborators, Bradley traces Parker's ancestral roots in West Africa via the Carolinas to his childhood in the South Bronx, and illustrates his rise from the 1970s jazz lofts and extended work with pianist Cecil Taylor to the present day. He outlines how Parker's early influences—Ornette Coleman, John Coltrane, Albert Ayler, and writers of the Black Arts Movement—grounded Parker's aesthetic and musical practice in a commitment to community and the struggle for justice and freedom. Throughout, Bradley foregrounds Parker's understanding of music, the role of the artist, and the relationship between art, politics, and social transformation. Intimate and capacious, *Universal Tonality* is the definitive work on Parker's life and music.

Four Jazz Lives John Libbey & Company Limited

In the early years of the Cold War, Western nations increasingly adopted strategies of public diplomacy involving popular music. While the diplomatic use of popular music was initially limited to such genres as jazz, the second half of the 20th century saw a growing presence of various popular genres in diplomatic contexts, including rock, pop, bluegrass, flamenco, funk, disco, and hip-hop, among others. This volume illuminates the interrelation of popular music and public diplomacy from a transnational and transdisciplinary angle. The contributions argue that, as popular music has been a crucial factor in international relations, its diplomatic use has substantially impacted the global musical landscape of the 20th and 21st centuries.

Bulletin - National Music Council Penguin (Non-Classics)

This first-ever study of Swedish experimental film represents the results of a Swedish Research Council initiative in 2006--2008. The essays address the institutions, filmmakers, and films important to the history of experimental film in Sweden, and place this history in larger artistic and socio-cultural contexts. The authors look at the work of the Independent Film Group, regional Fluxus groups, E.A.T., and figures such as Viking Eggeling, Rune Hagberg, Pontus Hultén, Öyvind Fahlström, Leo Reis, Bo Jonsson, and Åke Karlung.

Mick Detroit, Mich. : Gale Research Company

This comprehensive biography of George Gershwin (1898-1937) unravels the myths surrounding one of America's most celebrated composers and establishes the enduring value of his music. Gershwin created some of the most beloved music of the twentieth century and, along with Jerome Kern, Irving Berlin, and Cole Porter, helped make the golden age of Broadway golden. Howard Pollack draws from a wealth of sketches, manuscripts, letters, interviews, books, articles, recordings, films, and other materials—including a large cache of Gershwin scores discovered in a Warner Brothers warehouse in 1982—to create an expansive chronicle of Gershwin's meteoric rise to fame. He also traces Gershwin's powerful presence that, even today, extends from Broadway, jazz clubs, and film scores to symphony halls and opera houses. Pollack's lively narrative describes Gershwin's family, childhood, and education; his early career as a pianist; his friendships and romantic life; his relation to various musical trends; his writings on music; his working methods; and his tragic death at the age of 38. Unlike Kern, Berlin, and Porter, who mostly worked within the confines of Broadway and Hollywood, Gershwin actively sought to cross the boundaries between high and low, and wrote works that crossed over into a realm where art music, jazz, and Broadway met and merged. The author surveys Gershwin's entire oeuvre, from his first surviving compositions to

the melodies that his brother and principal collaborator, Ira Gershwin, lyricized after his death. Pollack concludes with an exploration of the performances and critical reception of Gershwin's music over the years, from his time to ours.

"He's a smart little mother*****, I'll give him that." —KEITH RICHARDS on MICK JAGGER IS he Jumpin' Jack Flash? A Street Fighting Man? A Man of Wealth and Taste? All this, it turns out, and far more. By any definition, Mick Jagger is a force of nature, a complete original—and undeniably one of the dominant cultural figures of our time. Swaggering, strutting, sometimes elusive, always spellbinding, he grabbed us by our collective throat a half-century ago and—unlike so many of his gifted peers—never let go. For decades, Mick has jealously guarded his many shocking secrets—until now. As the Rolling Stones mark their 50th anniversary, journalist and #1 New York Times bestselling author Christopher Andersen tears the mask from rock's most complex and enigmatic icon in a no-holds-barred biography as impossible to ignore as Jagger himself. Based on interviews with friends, family members, fellow music legends, and industry insiders—as well as wives and legions of lovers—MICK sheds new light on a man whose very name defines an era and candidly reveals:

—New details about Jagger's jaw-dropping sexual exploits with more than four thousand women (including Madonna, Angelina Jolie, Carly Simon, Linda Ronstadt, Uma Thurman, and France's First Lady Carla Bruni)—as well as his encounters with several of rock's biggest male stars. Also, the day Mick's wife Jerry Hall and Keith Richards pleaded with Jagger to seek treatment for sex addiction. —The backstage drama surrounding Mick's knighthood, and Jagger's little-known ties to Britain's Royal Family, including Prince William and Kate Middleton. —What he really thinks of today's superstars—including Lady Gaga, Britney Spears, Beyoncé, Justin Timberlake, Kanye West, and Justin Bieber. —Never-before-revealed, behind-the-scenes accounts of his often turbulent relationships—from his band-mates, ravenous groupies, and rabid fans to such intimates as Andy Warhol, John Lennon, Jackie Onassis, Bill Clinton, and others. —Cocaine, LSD, hashish, and speed—the flabbergasting truth about the extent of Jagger's substance abuse, and how long it really went on. —A rare glimpse into Mick's business dealings and the killer instinct that has enabled him to amass a personal fortune well in excess of \$400 million. —The stormy "marriage" between Mick and Keith that nearly ran aground over Keith's searing comments—and all the scandal, mayhem, excess, madness, and genius that went into making the Rolling Stones "the world's greatest rock-and-roll band." Like its subject, this book is explosive and riveting—the definitive biography of a living legend who has kept us thrilled, confounded, and astounded. THIS IS MICK.

The New Yorker University of Michigan Press

Jazz has always been a genre built on the blending of disparate musical cultures. Latin jazz illustrates this perhaps better than any other style in this rich tradition, yet its cultural heritage has been all but erased from narratives of jazz history. Told from the perspective of a long-time jazz insider, *Latin Jazz: The Other Jazz* corrects the record, providing a historical account that embraces the genre's international nature and explores the dynamic interplay of economics, race, ethnicity, and nationalism that shaped it.
