A young boy emerges from life-saving surgery with remarkable stories of his visit to heaven. Heaven Is for Real is the true story of the four-year old son of a small town Nebraska pastor who during emergency surgery slips from consciousness and enters heaven. He survives and begins talking about being able to look down and see the doctor operating and his dad praying in the waiting room. The family didn't know what to believe but soon the evidence was clear. Colton said he met his miscarried sister, whom no one had told him about, and his great grandfather who died 30 years before Colton was born, then shared impossible-to-know details about each. He describes the horse that only Jesus could ride, about how "reaaally big" God and his chair are, and how the Holy Spirit "shoots down power" from heaven to help us. Told by the father, but often in Colton's own words, the disarmingly simple message is heaven is a real place, Jesus really loves children, and be ready, there is a coming last battle.

In 1999, Bronx-born plumber Tommy Rosa died after being the victim of a hit-and-run incident. Lying by the road, he felt a tug whisking him off into a tunnel of light. He found himself in a blessed place. He was shown that God created the Earth to nourish and heal mankind and that our sense of separation from each other and the divine is of our own making. He met his Divine Teacher and received a series of profound lessons - Eight Revelations about the nature of Heaven and Earth. Tommy returned to Earth with a heightened sense of connection to one and all. But the bliss of Heaven was quickly replaced by a long and painful recovery, and Tommy struggled to make sense of all that he had learned. Around the same time, Dr Stephen Sinatra, an integrative cardiologist, was revolutionizing his medical practice with a holistic approach to treatment. When a chance meeting brought the two men together, they gradually came to realize that the revelations of healing Tommy gleaned from his near-death experience aligned with the groundbreaking results Dr

Sinatra was seeing in his own practice and scientific research. Health Revelations from Heaven and Earth brings divine wisdom together with the science of how we can live as God intended. Let this book lead you toward revitalized health, a newfound sense of purpose, and spiritual balance. Fully corroborated by Dr Sinatra's four decades of medical expertise, these divine lessons bring Heaven and Earth a little bit closer.

Heaven has received a lot of attention in recent years as bestselling books and movies have told the stories of people who claim to have been there. But what does the Bible actually say about heaven? What difference does it make? What happens the moment after we die? What will our relationships be like in heaven? Chip Ingram sets aside the hype and myths and digs into the Scriptures to discover what God actually wants us to know about the hereafter. Most importantly, Ingram shows why our understanding of heaven matters now, in this life. Because what we believe about heaven actually affects us today in ways we may not have imagined.

Christ's Body, Human Flesh If we're honest, no one really cares about theology unless it reveals a gut-level view of God's presence. According to pastor and ministry leader Hugh Halter, only the incarnational power of Jesus satisfies what we truly crave, and once we taste it, we're never the same. God understands how hard it is to be human, and the incarnation—God with us—enables us to be fully alive. With refreshing, raw candor, *Flesh* reveals the faith we all long to experience—one based on the power of Christ in the daily grind of work, home, school, and life. For anyone burned out, disenchanted, or seeking a fresh honest-to-God encounter, *Flesh* will invigorate your faith.

Social media was made to bring us together. But few things have driven us further apart. Sadly, many Christians are fueling online incivility. Others, exhausted by perpetual outrage and shame-filled from constant comparison, are leaving social media altogether. So, how should Christians behave in this digital age? Is there a better way? Daniel Darling believes we need an approach

that applies biblical wisdom to our engagement with social media, an approach that neither retreats from modern technology nor ignores the harmful ways in which Christians often engage publicly. In short, he believes that we can and should use our online conversations for good.

The future hope of heaven is pulled into the here-and-now in this illuminating description of the kingdom of God. Popular teacher and author R. Alan Streett exposes half-truths about the kingdom that many believers have unwittingly accepted. He contrasts these with the testimony of Scripture: Jesus inaugurated the kingdom of God on the earth—it has already begun. As ambassadors of the kingdom, we are to fulfill our responsibilities and enjoy its benefits here and now. Salvation does not culminate with the soul escaping the body and living forever in heaven. Our bodies will eventually be transformed, and we will live with God on a restored earth. The church is like an embassy of heaven in a foreign country. In their life together, believers demonstrate kingdom realities to the world. Readers will find hope and direction in this fresh presentation of the historic teaching on the kingdom.

Get ready for life after death. The trilogy includes: *One Minute After You Die*. A simple and moving explanation of what the Bible teaches about death, this book makes you consider a sobering truth: one minute after you die, your life will not be over. Rather, it will be just beginning—in a place of unimaginable bliss or indescribable gloom. Are you ready for that moment? *How You Can Be Sure You Will Spend Eternity with God* summarizes the Bible's teaching on salvation, answering questions like, "What role do I play in my own salvation? Can I lose my salvation if I commit a serious sin? What if I doubt that I'm saved?" *Your Eternal Reward*. This book explores the often-overlooked Scriptures about reward and judgment for Christians, answering questions like, "How will believers be judged? Do rewards for faithfulness vary? If heaven is perfect, why do rewards even

matter?" Together these books will help you live faithfully today, readying you for that final hour when you meet your Maker.

*When Heaven Invades Earth* Moody Publishers

Utilizing a wellspring of sources, Eric Dale provides in this unique study a contemporary spirituality of work both practical and wholistic in which there is no separation between contemplation and action, between the so-called spiritual life and the realities of everyday worklife. Exploring the relevance of human labor to community life, and of aesthetics to work and human fulfillment, he demonstrates the need for re-evaluating both spirituality and work and for resacralizing all of life. *Bringing Heaven Down to Earth* helps re-claim for all people today the Christian spiritual tradition, East and West, by highlighting its universal themes of worship and service with practical applicability.

**Law of Confession** Thomas Nelson

Over half of Americans believe in a literal heaven, in a literal hell. Most people who hold these beliefs are Christian and assume they are the age-old teachings of the Bible. Ehrman shows that eternal rewards and punishments are found nowhere in the Old Testament, and are not what Jesus or his disciples taught. He recounts the long history of the afterlife, ranging from The Epic of Gilgamesh up to the writings of Augustine, focusing especially on the teachings of Jesus and his early followers. Ehrman shows that competing views were intimately connected with the social, cultural, and historical worlds out of which they emerged. -- adapted from jacket

This book introduces a vision for daily living that addresses what we confess to hope for but usually don't: eternal life in heaven. We have been misled by historical assumptions and popular prophecies to think of heaven as irrelevant and intimidating, but by reexamining the biblical picture of heaven as terrestrial and urban, and as a relevant resolution to the current cosmic story, we form a framework for living with godly purpose in our vocation, citizenship, recreation, and families.

**Wisdom to Heal the Earth** David C Cook

A riveting portrait of a rural Pennsylvania town at the center of the fracking controversy Shale gas extraction—commonly known as fracking—is often portrayed as an energy revolution that will transform the American economy and geopolitics. But in greater Williamsport, Pennsylvania, fracking is personal. *Up to Heaven and Down to Hell* is a vivid and sometimes heartbreaking account of what happens when one of the most momentous decisions about the well-being of our communities and our planet—whether or not to extract shale gas and oil from the very land beneath our feet—is largely a private choice that millions of ordinary people make without the public's consent. The United States is the only country in the world where property rights commonly extend "up to heaven and down to hell," which means that landowners have the exclusive right to lease their subsurface mineral estates to petroleum companies. Colin Jerolmack spent eight months living with rural communities outside of Williamsport as they confronted the tension between property rights and the commonwealth. In this deeply intimate book, he reveals how the decision to lease brings financial rewards but can also cause irreparable harm to

neighbors, to communal resources like air and water, and even to oneself. *Up to Heaven and Down to Hell* casts America's ideas about freedom and property rights in a troubling new light, revealing how your personal choices can undermine your neighbors' liberty, and how the exercise of individual rights can bring unintended environmental consequences for us all.

**Revelation P & R** Publishing

This book is a treatise on the Kingdom of God and the need for the Church to forcefully advance it across the earth. No longer can the businessman sit back in the pew and expect the pastor to do all the work. No longer can the lonely widow or single mom wallow in insecurity and condemnation. Heaven comes to earth when individual believers begin to understand their sphere of authority. The self-righteous will no longer be able to sit in judgment of the world, for they will come face to face with what God has forgiven them of and what He is calling them to. We have both the ability and the responsibility to transform society. Don't like the world in which you live? Then come to faith, obey the Word, and allow the Holy Spirit to release the power of the Kingdom through you.

You Can Help Bring Heaven to Earth God so loved the world, and he still does. He values his creation too much to destroy it. If you know where to look, you can see that the coming of a new heaven and a new earth already has begun. Life on earth is renewed every time you live out Jesus's prayer that God's ways will be followed on earth. The work of God's Kingdom involves restoring what has been broken. This includes people, unjust systems, relationships, anything that has been separated from God and needs to be healed, reconciled, and set right. This is how heaven collides with earth—not following fiery destruction but in the power of restoring to life everything that God created. What you believe about God's plan for humanity and for his creation

determines how you will invest your life. God calls all of us to this renewing work. You can help bring heaven to earth, starting today.

According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

**Heaven Is for Real** Turning Point

I often wonder how Exodus 3:14 and Matthew 6:10 have become so misunderstood. Everyone talks about how much better Heaven is going to be, and how their pains and sorrows will be no more once they die. Yet, we live in Heaven or Hell every day on Earth by our thoughts and by our daily choices. Heaven and Hell are states of consciousness. We are meant to live in Heaven on Earth! Jesus and other great teachers demonstrated this by setting the example and left their wisdom in written books. We have much to learn from every flower, every tree, every season, and every animal. They know exactly what to do without being told, and God/Universe sends them everything they need to survive. When we are aligned with Source, we, too, become magnets attracting everything we need. This means that we don't have to make things happen on our own understanding. Everything flows easily and naturally to the soul when aligned. Abundance, ideal relationships, all of your hearts desires are achieved without effort. And this was my hardest, yet most enriching lesson to learn-to surrender with grace to the forces that hold me, and will continue to hold me in ways I've never dreamt possible!!! There

were many times I have questioned myself, and wondered, What in the world am I doing? I felt like I was Noah building the Ark. What I know now is that I am an Ark builder! There was something inside of me telling me that if I kept strong in my faith, trusted and listened to that little nudging voice, then I would live a life beyond my wildest dreams. I knew deep down that this was bigger than me; it is my soul calling. I know I am being directed by a force far greater than myself, and I cannot erase these pictures that I hold in my imagination. I feel with divine love and happiness in my heart what this book will bring to millions of people. This feeling is imprinted upon my subconscious mind, and my subconscious mind creates exactly what I have come to believe and feel. I give thanks every day that this book will bring Heaven On Earth to the world. I have no idea how, but I surrender and trust in a power far greater than myself. I feel deep feelings of gratitude in advance for the magical outcome. The Secret teaches us that, "everything that has ever been invented or created throughout the history of humankind began with one thought. From one thought, a way was made, and it manifested from the invisible into the visible." When Henry Ford was bringing his vision of the motor vehicle into our world, people around him ridiculed him, and thought he had gone mad to pursue such a "wild" vision. He, however, knew much more than the people who ridiculed him. He knew The Secret, and he knew the law of the Universe. Ford has also been quoted saying, "Whether you think you can or think you can't, either way you are right." I choose to think that I can.

An approach to understanding religion that draws on both humanities and natural science but rejects approaches that

employ simple monisms and radical dualisms. In *Beyond Heaven and Earth*, Gabriel Levy argues that collective religious narratives and beliefs are part of nature; they are the basis for the formation of the narratives and beliefs of individuals. Religion grows out of the universe, but to make sense of it we have to recognize the paradox that the universe is both mental and material (or neither). We need both humanities and natural science approaches to study religion and religious meaning, Levy contends, but we must also recognize the limits of these approaches. First, we must make the dominant metaphysics that undergird the various disciplines of science and humanities more explicit, and second, we must reject those versions of metaphysics that maintain simple monisms and radical dualisms. Bringing Donald Davidson's philosophy—a form of pragmatism known as anomalous monism—to bear on religion, Levy offers a blueprint for one way that the humanities and natural sciences can have a mutually respectful dialogue. Levy argues that in order to understand religions we have to take their semantic content seriously. We need to rethink such basic concepts as narrative fiction, information, agency, creativity, technology, and intimacy. In the course of his argument, Levy considers the relation between two closely related semantics, fiction and religion, and outlines a new approach to information. He then applies his theory to discrete cases: ancient texts, modern media, and intimacy.
