i wrote this book as a proposal. its meant to be a tool for you to access the intrinsic joy, happiness and fulfillment in (your) life. its my vision that this book becomes full of you. i believe that we are the creators of our own reality. i dont want to create anything in your life. i am not here to tell you what or how to do. you know the best, you are the expert on yourself. i only wrote the words, that i found strictly

necessary. simplicity is one of the major keys to perfect understanding and happiness. i wish this book to come alive through your inspiration and creativity. i wish to contribute to your growth, learning and expansion, because expansion is our natural state. i would love this book to be a contribution for you to let go of resistance and insistence and come back into the flow of (your) life and regain your natural state of health, ease and well-being. just let go and be(come). finding the message that we want to tell ourselves, is crucial in my point of view. the message that comes out of your inner wisdom, the still small voice within, your inner truth, your soul, whatever term you prefer to use. not the message of your head, that one you listen to all day long. no, i am talking about your message. i wish that this book can assist you in changing aspects of your life, that you would like to change. that for it is a practical book that you can use every day. please fill it with your own words, drawings, scribbles etc., let it grow with you.

A vibrant novel from Booker Prize winner Penelope Lively—a wry, wise story about the surprising ways lives intersect When Charlotte Rainsford, a retired schoolteacher, is accosted by a petty thief on a London street, the consequences ripple across the lives of acquaintances and strangers alike. A marriage unravels after an illicit love affair is revealed through an errant cell phone message; a posh yet financially strapped interior designer meets a business partner who might prove too good to be true; an old-guard historian tries to recapture his youthful vigor with an ill-conceived idea for a TV miniseries; and a middle-aged central European immigrant learns to speak English and reinvents his life with the assistance of some

new friends. In this engaging, utterly absorbing and brilliantly told novel, Penelope Lively shows us how one random event can cause marriages to fracture and heal themselves, opportunities to appear and disappear, lovers who might never have met to find each other and entire lives to become irrevocably changed. Funny, humane, touching, sly and sympathetic, *How It All Began* is a brilliant sleight of hand from an author at the top of her game.

Communist Propaganda at School is based on an analysis of reading primers from the Soviet bloc and recreates the world as presented to the youngest schoolchildren who started their education between 1949 and 1989 across the nine Eastern European countries. The author argues that those first textbooks, from their first to last pages, were heavily laden with communist propaganda, and that they share similar concepts, techniques and even contents, even if some national specificities can be observed. This volume reconstructs the image of the world presented to schoolchildren in the first books they were required to read in their school life, and argues that the image was charged with communist propaganda. The book is based on the analysis of over sixty reading primers from nine countries of the Soviet bloc: Albania, Bulgaria, Czechoslovakia, the German Democratic Republic, Hungary, Poland, Romania, the Soviet Union and Yugoslavia from the period. Written with

simplicity and straightforwardness, this book will be a valuable resource, not only to international academics dealing with the issues of propaganda, censorship, education, childhood and everyday life under communism in Eastern and Central Europe, but can also academics dealing with education under communism or with the content of primary education. It also brings educational experiences of the Soviet bloc to international researchers, in particular to researchers of education under totalitarian and authoritarian regimes.

An extraordinary coming-of-age memoir by the Nobel-Prize-winning playwright My First Seven Years is Dario Fo's fantastic, enchanting memoir of his youth spent in Northern Italy on the shores of Lago Maggiore. As a child, Fo grew up in a picturesque village teeming with glass-blowers, smugglers and storytellers. Of his teenage years, Fo recounts the struggles of the Fascists and Partisans, the years of World War II, and his own tragicomic experience trying to desert the Fascist army.

In a series of colorful vignettes, Fo draws us into a remarkable early life filled with characters and anecdotes that would become the inspiration for his own creative genius.
