Doing Business 2019  
Open Book Publishers  
Aiming to help with the  
productivity and efficiency  
of garment-producing  
enterprises, this book  
suggests practical ideas  
for the design, materials,  
safety, welfare and

maintenance of the  
business. It also presents  
procedures and examples  
for identifying and  
assessing productivity.  
A Practical Approach to  
Civil Procedure African  
Books Collective  
This study represents a  
comprehensive attempt to  
estimate the incidence of  
domestic violence in  
Ghana, and analyse the  
attitudes that sustain

domestic violence, its  
determinants and its  
consequences. The study  
estimates that 28 per cent  
of women and 20 per cent  
of men experienced  
domestic violence in  
2015. This innovative  
mixed-methods study  
provides an in-depth  
understanding of the  
incidence, attitudes,  
causes and consequences  
of domestic violence in

Ghana, as well as investigating the effectiveness of existing institutional support offered to women and men.

Improving Working Conditions and Productivity in the Garment Industry World Bank Publications

"The theme of The World Development Report 2007 is youth - young people between the ages of 12 to 24. As this population group seeks identity and independence, they make decisions that affect not only their own well-being,

but that of others, and they do this in a rapidly changing demographic and socio-economic environment. Supporting young people's transition to adulthood poses important opportunities and risky challenges for development policy. Are education systems preparing young people to cope with the demands of changing economies? What kind of support do they get as they enter the labor market? Can they move freely to where the jobs are? What can be done to help them avoid

serious consequences of risky behavior, such as death from HIV-AIDS and drug abuse? Can their creative energy be directed productively to support development thinking? The report will focus on crucial capabilities and transitions in a young person's life: learning for life and work, staying healthy, working, forming families, and exercising citizenship. For each, there are opportunities and risks; for all, policies and institutions matter."

A law professor draws from social and cultural theory to defend her idea that that intellectual property law affects the ability of citizens to live a good life and prohibits people from making and sharing culture.

Kenya National Assembly Official Record (Hansard)

MIT Press

Securing Development: Public Finance and the Security Sector highlights the role of public finance in the delivery of security

and criminal justice services. This book offers a framework for analyzing public financial management, financial transparency, and oversight, as well as expenditure policy issues that determine how to most appropriately manage security and justice services. The interplay among security, justice, and public finance is still a relatively unexplored area of development. Such a perspective can help security actors provide more professional,

effective, and efficient security and justice services for citizens, while also strengthening systems for accountability. The book is the result of a project undertaken jointly by staff from the World Bank and the United Nations, integrating the disciplines where each institution holds a comparative advantage and a core mandate. The primary audience includes government officials bearing both security and financial responsibilities, staff of international

organizations working on public expenditure management and security sector issues, academics, and development practitioners working in an advisory capacity.

terminological and empirical issues, theoretical approaches, and research methodologies.

*From Goods to a Good Life* Oxford University Press

A study of Internet blocking and filtering around the world: analyses by leading researchers and survey results that document filtering practices in dozens of countries. Many countries around the world block or filter Internet content, denying access to information that they deem too sensitive

for ordinary citizens—most often about politics, but sometimes relating to sexuality, culture, or religion. *Access Denied* documents and analyzes Internet filtering practices in more than three dozen countries, offering the first rigorously conducted study of an accelerating trend. Internet filtering takes place in more than three dozen states worldwide, including many countries in Asia, the Middle East, and North Africa. Related Internet content-control

mechanisms are also in place in Canada, the United States and a cluster of countries in Europe. Drawing on a just-completed survey of global Internet filtering undertaken by the OpenNet Initiative (a collaboration of the Berkman Center for Internet and Society at Harvard Law School, the Citizen Lab at the University of Toronto, the Oxford Internet Institute at Oxford University, and the University of Cambridge) and relying on work by regional

experts and an extensive network of researchers, *Access Denied* examines the political, legal, social, and cultural contexts of Internet filtering in these states from a variety of perspectives. Chapters discuss the mechanisms and politics of Internet filtering, the strengths and limitations of the technology that powers it, the relevance of international law, ethical considerations for corporations that supply states with the tools for blocking and filtering, and the implications of

Internet filtering for activist communities that increasingly rely on Internet technologies for communicating their missions. Reports on Internet content regulation in forty different countries follow, with each two-page country profile outlining the types of content blocked by category and documenting key findings. Contributors Ross Anderson, Malcolm Birdling, Ronald Deibert, Robert Faris, Vesselina Haralampieva [as per Rob Faris], Steven Murdoch,

Helmi Noman, John Palfrey, Rafal Rohozinski, Mary Rundle, Nart Villeneuve, Stephanie Wang, Jonathan Zittrain  
**Development and the Next Generation** World Bank Publications  
 The production and distribution of film and audiovisual works is one of the most dynamic growth sectors in the world. Thanks to digital technologies, production has been growing rapidly in Africa in recent years. For the first time, a complete mapping of the film and audiovisual

industry in 54 States of the African continent is available, including quantitative and qualitative data and an analysis of their strengths and weaknesses at the continental and regional levels. The report proposes strategic recommendations for the development of the film and audiovisual sectors in Africa and invites policymakers, professional organizations, firms, filmmakers and artists to implement them in a concerted manner.

Bank Publications  
Fifteen in a series of  
annual reports comparing  
business regulation in 190  
economies, Doing  
Business 2018 measures  
aspects of regulation  
affecting 10 areas of  
everyday business  
activity: • Starting a  
business • Dealing with  
construction permits •  
Getting electricity •  
Registering property •  
Getting credit • Protecting  
minority investors •  
Paying taxes • Trading  
across borders • Enforcing  
contracts • Resolving  
insolvency These areas

are included in the  
distance to frontier score  
and ease of doing  
business ranking. Doing  
Business also measures  
features of labor market  
regulation, which is not  
included in these two  
measures. The report  
updates all indicators as  
of June 1, 2017, ranks  
economies on their overall  
“ease of doing business”,  
and analyzes reforms to  
business regulation “  
identifying which  
economies are  
strengthening their  
business environment the  
most. Doing Business

illustrates how reforms in  
business regulations are  
being used to analyze  
economic outcomes for  
domestic entrepreneurs  
and for the wider  
economy. It is a flagship  
product produced in  
partnership by the World  
Bank Group that garners  
worldwide attention on  
regulatory barriers to  
entrepreneurship. More  
than 137 economies have  
used the Doing Business  
indicators to shape reform  
agendas and monitor  
improvements on the  
ground. In addition, the  
Doing Business data has

generated over 2,182 articles in peer-reviewed academic journals since its inception. Data Notes; Distance to Frontier and Ease of Doing Business Ranking; and Summaries of Doing Business Reforms in 2016/17 can be downloaded separately from the Doing Business website.

Trusted by generations of students and litigators, *A Practical Approach to Civil Procedure* is a classic text which guides you through

the maze of procedural requirements utilized by the civil courts. Written by an expert in the field, and co-editor of *Blackstone's Civil Practice*, this book is unrivalled in its detail of the various stages of a civil claim, making it essential reading for students and newly qualified litigators alike. Taking a thoroughly practical focus throughout, the book charts the progress of a typical civil litigation claim, from funding litigation and issuing and serving proceedings,

through to trial, enforcement, and appeal. Full coverage of alternative dispute resolution is also included. Relevant sample documentation is featured throughout and introduces the reader to the forms and documents which will be encountered in practice, while key point summaries featured at the end of chapters highlight the essential points covered. Digital formats and resources  
This edition is available for students and institutions to purchase in

a variety of formats, and is supported by online resources. Access to a digital version of this book comes with every purchase to enable a more flexible learning experience - 12 months' access to this title on Oxford Learning Link will be available from 15 July 2022. Access must be redeemed by 1 August 2024. - The online resources include a range of web links to key related sources to support students looking to read around the subject and develop their

understanding.

This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for

teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular

words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of

the letters ) to be spelt with those single letters in non-final syllables.

Who is not captivated by tales of Islanders earnestly scanning their watery horizons for great fleets of cargo ships bringing rice, radios and refrigerators - ships that will never arrive? Of all the stories spun about the island peoples of Melanesia, tales of cargo cult are among the most fascinating. The term cargo cult, Lamont Lindstrom contends, is

one of anthropology's most successful conceptual offspring. Like culture, worldview and ethnicity, its usage has steadily proliferated, migrating into popular culture where today it is used to describe an astonishing roll-call of people. It's history makes for lively and compelling reading. The cargo cult story, Lindstrom shows, is more significant than it at first appears, for it recapitulates in summary form three generations of anthropological theory and Pacific studies.

Although anthropologists' enthusiasm for the notion of cargo cult has waned, it now colors outsiders' understanding of Melanesian culture, and even Melanesians' perceptions of themselves. The repercussions for contemporary Islanders are significant: leaders of more than one political movement have felt the need to deny that they are any kind of cargo cultist. Of particular interest to this history is Lindstrom's argument that accounts of cargo cult are

at heart tragedies of thwarted desire, melancholy anticipation and crazy unrequited love. He makes a convincing case that these stories expose powerful Western scenarios of desire itself—giving cargo cult its combined titillation of the fascinating exotic and the comfortably familiar. [The Acquisition of Heritage Languages](#) Cambridge University Press  
Addressing the Problems of Access provides a systematic analysis of the

requirements of access law, both the CBD requirements and the basic requirements of enforceable legislation. Often key legal issues that have a significant impact on enforceability of ABS agreements are not addressed in national legislation, therefore, this book addresses these issues with the aim to recognize and understand the nature of the legal impediments that must be addressed for the drafting of functional ABS legislation. Although the book is premised on the

issues of access, it inevitably refers to corresponding issues of benefit sharing that are relevant for articulating the legal principles that inform a functional ABS system. Its conclusions look at particular legal concepts that, if accepted, could form the basis for functional ABS systems that respond to the identified concerns.

Colony and Protectorate of Kenya, the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya.

Securing Development  
Harvard University Press  
A convincing argument against the widespread belief that rapid population growth is an obstacle to socio-economic development, while individual land ownership is a prerequisite. The author presents an in-depth study of traditional land tenure in Taita, Kenya,

where the implementation of birth control programmes and the individualization of land tenure have failed to eradicate rural poverty and have brought about other sociopsychological problems. This book is of vital importance to development personnel to help them place the problem of population growth in its proper perspective.

Conveyancing World Bank Publications  
Fourteenth in a series of annual reports comparing business regulation in 190

economies, Doing Business 2017 measures aspects of regulation affecting 10 areas of everyday business activity: • Starting a business • Dealing with construction permits • Getting electricity • Registering property • Getting credit • Protecting minority investors • Paying taxes • Trading across borders • Enforcing contracts • Resolving insolvency These areas are included in the distance to frontier score and ease of doing business ranking. Doing

Business also measures features of labor market regulation, which is not included in these two measures. This year's report introduces major improvements by expanding the paying taxes indicators to cover postfiling processes—tax audits, tax refunds and tax appeals—and presents analysis of pilot data on selling to the government which measures public procurement regulations. Also for the first time this year Doing Business collects data on Somalia,

bringing the total number of economies covered to 190. Using the data originally developed by Women, Business and the Law, this year for the first time Doing Business adds a gender component to three indicators—starting a business, registering property, and enforcing contracts—and finds that those economies which limit women's access in these areas have fewer women working in the private sector both as employers and employees. The report updates all indicators as

of June 1, 2016, ranks economies on their overall “ease of doing business”, and analyzes reforms to business regulation by identifying which economies are strengthening their business environment the most. Doing Business illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in

partnership by the World Bank Group that garners worldwide attention on regulatory barriers to entrepreneurship. More than 137 economies have used the Doing Business indicators to shape reform agendas and monitor improvements on the ground. In addition, the Doing Business data has generated over 2,182 articles in peer-reviewed academic journals since its inception.
