From a former senior advisor to Senator John McCain comes an urgent wake-up call about how new technologies are threatening America's military might. For generations of Americans, our country has been the world's dominant military power. How the US military fights, and the systems and

weapons that it fights with, have been uncontested. That old reality, however, is rapidly deteriorating. America's traditional sources of power are eroding amid the emergence of new technologies and the growing military threat posed by rivals such as China. America is at grave risk of losing a future war. As Christian Brose reveals in this urgent wake-up call, the future will be defined by artificial intelligence, autonomous systems, and other emerging technologies that are revolutionizing global industries and are now poised to overturn the model of American defense. This fascinating, if disturbing, book confronts the existential risks on the horizon, charting a way for America's military to adapt and succeed with new thinking as well as new technology. America must build a battle network of systems that enables people to rapidly understand threats, make decisions, and take military actions, the process known as "the kill chain." Examining threats from China, Russia, and elsewhere, The Kill Chain offers hope and, ultimately, insights on how America can apply advanced technologies to prevent war, deter aggression, and maintain peace. **Normal Instructor and Primary Plans** Call It in the Air Somewhere between elegy and memoir, poetry and prose, Ed Pavlić's Call It in the Air follows the death of a sister into song. Pavlić's collection traces the life and death of his elder sister, Kate: a

brilliant, talented, tormented woman who lived on her own terms to the very end. Kate's shadow hovers like a penumbra over these pages that unfold a kaleidoscope of her world. A small-town apartment full of "paintings & burritos & pyramid-shaped empty bottles of Patron & an ad hoc anthology of vibrators." A banged-up Jeep, loose syringes underfoot, rattles under Colorado skies. Near an ICU bed, Pavlić agonizes over the most difficult questions, while doctors "swish off to the tune of their thin-soled leather loafers." And a diary, left behind, brims with revelations of vulnerability nearly as great as Pavlić's own. But *Call It in the Air* records more than a relationship between brother and sister, more than a moment of personal loss. "I sit while eleven bodies of mine fall all over the countless mysteries of who you are," he writes, while "Somewhere along the way, heat blasting past us & out the open jeep, the mountain sky turned to black steel & swung open its empty mouth." In moments like these, Pavlić recognizes something of his big sister everywhere. Rived by loss and ravaged by grief, *Call It in the Air* mingles the voices of brother and sister, one falling and one forgiven, to offer an intimate elegy that meditates on love itself. No aircraft ever captured the curiosity & fascination of the public like the SR-71 Blackbird.

Nicknamed "The Sled" by those few who flew it, the aircraft was shrouded in secrecy from its inception. Entering the U.S. Air Force inventory in 1966, the SR-71 was the fastest, highest flying jet aircraft in the world. Now for the first time, a Blackbird pilot shares his unique experience of what it was like to fly this legend of aviation history. Through the words & photographs of retired Major Brian Shul, we enter the world of the "Sled Driver." Major Shul gives us insight on all phases of flying, including the humbling experience of simulator training, the physiological stresses of wearing a space suit for long hours, & the intensity & magic of flying 80,000 feet above the Earth's surface at 2000 miles per hour. SLED DRIVER takes the reader through riveting accounts of the rigors of initial training, the gamut of emotions experienced while flying over hostile territory, & the sheer joy of displaying the jet at some of the world's largest airshows. Illustrated with rare photographs, seen here for the first time, SLED DRIVER captures the mystique & magnificence of this most unique of all aircraft.

For the last quarter century, Dan Jenkins has been fixing his cold-eyed stare and wisecracking style on the real-life Billy Clyde and Kenny Lee Pucketts of the sports world. You Call It Sports, But I Say It's a Jungle Out There is a collection of his best work from *Sports Illustrated*, *Playboy*, *Golf Digest*, and his nationally syndicated column, and includes a stack of new pieces written especially for this book. Jenkins spares no one in his search for the culprits who have taken the fun out of sports: NFL owners and refs, PGA Tour administrators, basketball players who can't read, tennis players who can't speak English (or say anything worth hearing when they do). He also finds things worth celebrating: the electric charge given off by Arnold Palmer at his best, the excitement of a truly great college football game, or a real heavyweight champion, like Joe Louis. Overflowing with good ol' boys, great one-liners, famous sporting events, and barroom tales, this is the best of Dan Jenkins—which is to say, it's as good as sportswriting gets anywhere.

Winner of the 2014 Christianity Today Book of the Year First Place Winner of the Religion Writers Association's Non-fiction Religion Book of the Year The Jesus People movement was a unique combination of the hippie counterculture and evangelical Christianity. It first appeared in the famed "Summer of Love" of 1967, in San Francisco's Haight-Ashbury district, and spread like wildfire in Southern California and beyond, to cities like Seattle, Atlanta, and Milwaukee. In 1971 the growing movement found its way into the national media spotlight and gained momentum,

attracting a huge new following among evangelical church youth, who enthusiastically adopted the Jesus People persona as their own. Within a few years, however, the movement disappeared and was largely forgotten by everyone but those who had filled its ranks. God's Forever Family argues that the Jesus People movement was one of the most important American religious movements of the second half of the 20th-century. Not only do such new and burgeoning evangelical groups as Calvary Chapel and the Vineyard trace back to the Jesus People, but the movement paved the way for the huge Contemporary Christian Music industry and the rise of "Praise Music" in the nation's churches. More significantly, it revolutionized evangelicals' relationship with youth and popular culture. Larry Eskridge makes the case that the Jesus People movement not only helped create a resurgent evangelicalism but must be considered one of the formative powers that shaped American youth in the late 1960s and 1970s.

This richly detailed examination of two forms of American entertainment focuses on the various ways that radio stations and air personalities have been depicted in motion pictures, from 1926's *The Radio Detective* to more recent films like 2022's *Halloween Ends*. Newly updated and revised chapters cover the cinematic portrayals of various aspects of radio, including disc jockeys, sports broadcasts, religious programs and abnormal personalities on the air. Such films as *The Big Broadcast* (1932), *Reveille with Beverly* (1943), *Mister Rock and Roll* (1957), *WUSA* (1970), *Radio Days* (1987), *Private Parts* (1997), *We Are Marshall* (2006) and *Straight Outta Compton* (2015) provide fascinating insights into not only their own times but also the historical eras that some of these films have attempted to recreate.

Two years after earning a business degree with honors from the University of Colorado, Trent Newcomer decides to abandon his corporate job, sell his car, and travel around the globe with nothing more than what he can fit in a small backpack. His goal is simple: experience all that the world has to offer so he can then be satisfied with settling down to a normal life. Over the next year and a half, the adventures that find Newcomer and the people he encounters teach him more about the world and his own place in it than he could have ever imagined. From having a gun pulled on him in Vietnam and being jumped by a gang of men while trying to change money on Kenya's black market to experiencing more near-death bus rides than he can count, Newcomer soon discovers that the journey itself is much more meaningful than checking items off a to-do list. Part travelogue and part memoir, *The Call of the World* is a candid and insightful account of the challenges and joys of backpacking solo around the globe, as well as one young man's journey of personal discovery. *The Call of the World* has been recognized as a Medalist (Travel Essay) in the 2009 Independent Publisher Book Awards, as well as a Finalist (Travel/Travel Guide) in the 2009 Next Generation Indie Book Awards.
