WINNER OF THE HILLMAN PRIZE FOR BOOK JOURNALISM, THE HELEN BERNSTEIN BOOK AWARD, AND THE LUKAS WORK-IN-PROGRESS AWARD * A NEW YORK TIMES TOP 10 BOOKS OF THE YEAR * NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST * LOS ANGELES TIMES BOOK PRIZE FINALIST * ABA SILVER GAVEL AWARD FINALIST * KIRKUS PRIZE FINALIST NAMED ONE OF THE BEST BOOKS OF 2019 BY: Esquire, Amazon, Kirkus, Library Journal, Publishers Weekly, BookPage, BookRiot, Economist, New York Times Staff Critics "A seminal and breathtaking account of why home is the most dangerous place to be a woman . . . A tour de force." -Eve Ensler "Terrifying, courageous reportage from our internal war zone." -Andrew Solomon "Extraordinary." -New York Times "Editors' Choice" "Gut-wrenching, required reading." -Esquire "Compulsively readable . . . It will save lives." - Washington Post "Essential, devastating reading." -Cheryl Strayed, New York Times Book Review An award-winning journalist's intimate investigation of the true scope of domestic violence, revealing how the roots of America's most pressing social crises are buried in abuse that happens behind closed doors. We call it domestic violence. We call it private violence. Sometimes we call it intimate terrorism. But whatever we call it, we generally do not believe it has anything at all to do with us, despite the World Health Organization deeming it a "global epidemic." In America, domestic violence accounts for 15 percent of all violent crime, and yet it remains locked in silence, even as its tendrils reach unseen into so many of our most pressing national issues, from our economy to our education system, from mass shootings to mass incarceration to #MeToo. We still have not taken the true measure of this problem. In *No Visible Bruises*, journalist Rachel Louise Snyder gives context for what we don't know we're seeing. She frames this urgent and immersive account of the scale of domestic violence in our country around key stories that explode the common myths-that if things were bad enough, victims would just leave; that a violent person cannot become nonviolent; that shelter is an adequate response; and most insidiously that violence inside the home is a private matter, sealed from the public sphere and disconnected from other forms of violence. Through the stories of victims, perpetrators, law enforcement, and reform movements from across the country, Snyder explores the real roots of private violence, its far-reaching consequences for society, and what it will take to truly address it.

Responding to Intimate Partner Violence and Sexual Violence Against Women Purdue University Press

Detailing the domestic violence suffered by the first author during her 16 year marriage, this moving volume details the background and events leading up to and immediately following Beth Sipe's tragic act of desperation: ending the life of the perpetrator. Encouraged to publish her story by her therapist and co-author, Evelyn Hall, Sipe relates how her case was mishandled by the police, the

military, a mental health professional and the welfare system, illustrating how women like herself are further victimized and neglected by the very systems that are expected to provide assistance. Her story is followed by seven commentaries by experts in the field. They discuss the causes and process of spousal abuse, reasons why battered women stay, and the dynamic consequences of domestic violence.

Global and Regional Estimates of Violence Against Women Government Printing Office

Helps abusive men understand their violence toward women and change their emotional, psychological, and physical abuse patterns.

The Routledge International Handbook of Domestic Violence and Abuse National Academies Press Now in its Second Edition, *Current Controversies on Family Violence* contains thoughtful--often heated--discussions that highlight the most current controversies, research, and policy directions in the family violence area. This volume includes chapters by academic and public policy researchers, therapists, lawyers, victim advocates and educators. Some of the controversies in the First Edition have been deleted while new ones have been added. Chapters in this Second Edition also are shorter and more accessible to readers who are not already experts in family violence.

Filled with insightful questionnaires and actual case histories, the essential how-to book *Stop Hurting the Woman You Love*, will help end abusive patterns in favor of healthier, happier relationships.

Gendered Domestic Violence and Abuse in Popular Culture Hunter House

Evidence is mounting that animal abuse, frequently embedded in families scarred by domestic violence and child abuse and neglect, often predicts the potential for other violent acts. As early intervention is critical in the prevention and reduction of aggression, this book encourages researchers and professionals to recognize animal abuse as a significant problem and a human public-health issue that should be included as a curriculum topic in training. The book is an interdisciplinary source book of original essays that examines the relations between animal maltreatment and human interpersonal violence, expands the scope of research in this growing area, and provides practical assessment and documentation strategies to help professionals confronting violence do their jobs better by attending to these connections. As an outgrowth of the Latham Foundation's 1995 training manual, *Breaking the Cycles of Violence*, this book is a historic step in helping professionals from these disciplines, as well as the general public, recognize the cyclical and insidious nature of family violence and provides training in recognizing peripheral forms of family violence outside a family's immediate purview. It encourages cross-disciplinary prevention and intervention strategies with an ultimate goal of reducing the levels of violence which is such a great societal and cultural concern today. This book brings together, for the first time, all of the leaders in this emerging field. They examine contemporary research and programmatic issues, encourage cross-disciplinary interactions, and describe innovative programs in the field today. Also included are vivid first-person accounts from survivors whose experiences included animal maltreatment among other forms of family violence. *Child Abuse, Domestic Violence, and Animal Abuse* provides professional communities of psychologists and child welfare specialists with a deeper, higher, and more encompassing awareness and understanding of the crucial linking of caring for animals and children in human experience. The combination of careful research, documentation, and compelling narrative accounts are blended into a rich resource to help professionals, concerned citizens, and parents understand how the ethics of caring are not bounded by species.

No Visible Bruises Springer Nature

The second edition of this comprehensive text for MSW and BSW students studying family violence is fully reorganized for improved flow of information, is substantially revised, and is updated to reflect current scholarship and practice. Focusing on child abuse and maltreatment, intimate partner violence (IPV), and older adult abuse, the book covers assessment procedures and evidence-based treatments used by social workers with victims and perpetrators of all age groups and of both genders. It provides expanded information on agencies advocating on behalf of children including child advocacy centers, guardians ad litem, and court-appointed special advocates as well as child welfare laws and policies. The textbook provides updated information related to IPV and vulnerable/at-risk populations including sex trafficking victims, veterans, and male victims. The second edition also features more in-depth theoretical information integrated with case studies, and new information regarding technological issues and criminal justice reform. The authors address assessments and interventions for adult victims of family violence, adult survivors of child abuse, child witnesses of domestic violence, adolescent victims of dating violence, older adult victims of abuse, and both male and female perpetrators of abuse. The text encompasses several features that make it particularly useful in the classroom, including real-life case studies in every chapter, key terms, and discussion questions. An updated and robust instructor package includes a fully revised Test Bank and more detailed PowerPoints. New to the Second Edition: Aligns with 2015 CSWE Educational Policy and Accreditation Standards Adds updated news articles to help stimulate discussion on chapter content Updated instructor package including fully revised Test Bank Updated and expanded PowerPoint presentations Expanded information in the child maltreatment section on child advocacy centers, guardians ad litem, and court-appointed special advocates A new child maltreatment case example and SMART plan Updated child welfare laws and policies Expanded coverage of safety planning and protection orders for IPV victims New coverage of IPV and sex trafficking Expanded coverage of IPV with male victims and their female perpetrators Coverage of multiple vulnerable and at-risk populations Use of pet therapy and service dogs for IPV in military Updated material on causation of older adult abuse Inclusion of instrument to screen for maltreatment Expanded chapter on assessment and intervention of older adult abuse Example of a possible risk assessment for older adults

Violence and Abuse in the Lives of People with Disabilities SAGE

Domestic violence, childhood sexual abuse, rape and sexual assault, and sexual exploitation through prostitution, pornography and trafficking can have many significant adverse impacts on a survivor's health and wellbeing, in the short, medium and long-term. Taking a life-course approach, the book explores what is known about appropriate treatment responses to those who have experienced, and those who perpetrate, domestic and sexual violence and abuse. The book also examines key factors that are important in understanding how and why different groups experience heightened risks of domestic and sexual violence and abuse, namely: gender and sexuality; race and culture; disability; and abuse by professionals. Drawing together results from specially commissioned research, the views of experts by experience, experts by profession and the published research literature, the book argues that sufficient is already known to delineate an appropriate public health framework,

encompassing primary, secondary and tertiary prevention, to successfully tackle the important public health issue represented by domestic and sexual violence and abuse. Domestic and Sexual Violence and Abuse equips health and social care professionals and services to identify and respond to the needs of affected individuals with a view to the prevention and early intervention.

Queering Narratives of Domestic Violence and Abuse World Health Organization

Each year, child protective services receive reports of child abuse and neglect involving six million children, and many more go unreported. The long-term human and fiscal consequences of child abuse and neglect are not relegated to the victims themselves-they also impact their families, future relationships, and society. In 1993, the National Research Council (NRC) issued the report, Understanding Child Abuse and Neglect, which provided an overview of the research on child abuse and neglect. New Directions in Child Abuse and Neglect Research updates the 1993 report and provides new recommendations to respond to this public health challenge. According to this report, while there has been great progress in child abuse and neglect research, a coordinated, national research infrastructure with high-level federal support needs to be established and implemented immediately. New Directions in Child Abuse and Neglect Research recommends an actionable framework to guide and support future child abuse and neglect research. This report calls for a comprehensive, multidisciplinary approach to child abuse and neglect research that examines factors related to both children and adults across physical, mental, and behavioral health domains-including those in child welfare, economic support, criminal justice, education, and health care systems-and assesses the needs of a variety of subpopulations. It should also clarify the causal pathways related to child abuse and neglect and, more importantly, assess efforts to interrupt these pathways. New Directions in Child Abuse and Neglect Research identifies four areas to look to in developing a coordinated research enterprise: a national strategic plan, a national surveillance system, a new generation of researchers, and changes in the federal and state programmatic and policy response.

Psychological Maltreatment of Children Emerald Group Publishing

Handbook of Interpersonal Violence Across the Lifespan is an official publication of the National Partnership to End Interpersonal Violence Across the Lifespan (NPEIV). It is a comprehensive state-of-the-science reference work for researchers, practitioners, and policy makers. It is written from a trauma-informed perspective, and utilizes adverse childhood experiences research as its basic developmental framework along with the traumatic effects all forms of interpersonal violence tend to produce. With public health and social justice in mind, this human-rights based handbook also focuses on the overlap and continuum of the various types of interpersonal violence. It integrates all forms of interpersonal violence while dealing with key issues of intersectionality and systems responses. This two-volume handbook is published in collaboration with the National Partnership to End Interpersonal Violence Across the Lifespan, which aims to: Acknowledge and understand the impact interpersonal violence has on individuals and society Recognize the mental, physical, legal, social, and economic burden of interpersonal violence Respect an individual's basic right to live without violence; value human dignity Promote consensus-based practices while maintaining cultural sensitivity Consider and address the unique needs of vulnerable populations
