Multilingual Matters Set in nineteenth-century rural Africa, Fiel's Child tells the gripping story of Fiel Komoetie and a white, three-year old child, Benjamin, whom she finds crying on her doorstep. For nine years Fiel's raises Benjamin as one of her own children. But when census takers discover Benjamin, they send him to an illiterate white family of woodcutters who claim him as their son. What follows is Benjamin's search for his identity and the fundamental changes affecting the white and black families who claim him. "Everything a novel can be: convincing, thought-

provoking, upsetting, unforgettable, and timeless."—Grace Ingoldby, New Statesman "Fiela's Child is a parade that broadens and humanizes our understanding of the conflicts still affecting South Africa today."—Francis Levy, New York Times Book Review "A powerful creation of time and place with dark threads of destiny and oppression and its roots in the almost Biblical soil of a storyteller's

art."—Christoph her Wordsworth, The Guardian "The characters in the novel live and breathe; and the landscape is so brightly painted that the trees, birds, elephants, and rivers of old South Africa are characters themselves. A book not to miss."—Kirkus Reviews

 This book provides a contemporary approach to the study of bilingualism.

Drawing on contributions from leading experts in the field, this book brings together - in a single volume - a selection of the exciting work conducted as part of the programme of the ESRC Centre for Research on Bilingualism in Theory and Practice at Bangor University, Wales. Each chapter has as its main focus an exploration of the relationship between the two languages of a bilingual. Section by

section, the authors draw on current findings and methodologies to explore the ways in which their research can address this question from a number of different perspectives.

Primary Grammar and Word Study:
Ages 5-6

Innovative Language Learning
A wide-ranging guide to language and society in South Africa. The book surveys the most important language groupings in

the region in terms of wider socio-historical processes; contact between the different language varieties; language and public policy issues associated with post-apartheid society and its eleven official languages.

Fiela's Child
Cambridge University Press

The series builds an extensive collection of high quality descriptions of languages around the world. Each

volume offers a comprehensive grammatical description of a single language together with fully analyzed sample texts and, if appropriate, a word list and other relevant information which is available on the language in question. There are no restrictions as to language family or area, and although special attention is paid to hitherto undescribed languages, new and valuable

treatments of better known languages are also included. No theoretical model is imposed on the authors; the only criterion is a high standard of scientific quality.

Language and Behavior Abstracts

University of Chicago Press
This volume highlights the shortcomings concerning literacy development in Africa and collates the current available literature based on empirical

research in various countries in a coherent manner. Further emphasized is how the current research can guide practical information to improve the literacy situation in Africa. The research studies will encompass various fields such as linguistics, neurosciences, and education and will provide future research directions and instructional recommendations to

improve the literacy situation in Africa.
General Report - Transvaal Education Department
