RICH GAEL

The Cambridge History of Travel Writing Good Press
Bringing together original contributions from scholars across the world, this volume traces the history of travel writing from antiquity to the Internet age. It examines travel texts of several national or linguistic traditions, introducing readers to the global contexts of the genre. From wilderness to the urban, from Nigeria to the polar regions, from mountains to rivers and the desert, this book explores some of the key places and physical features represented in travel writing. Chapters also consider the employment in travel writing of the diary, the letter, visual images, maps and poetry, as well as the relationship of travel

writing to fiction, science, translation and tourism. Gender-based and ecocritical approaches are among those surveyed. Together, the thirty-seven chapters here underline the richness and complexity of this genre.

The 48 Laws of Power Cambridge University Press
In 'History of the Fan' by G. Woolliscroft Rhead, readers are taken on a fascinating journey through the cultural and historical significance of fans. This detailed account explores the evolution of fans from practical tools to symbols of status and fashion, illuminating their significance in various societies. Rhead's writing style is engaging and informative, making this book a valuable resource for anyone interested in the social history of everyday objects. The author's meticulous research and attention to detail provide a comprehensive overview of the fan's role in different

cultures and time periods. G. Woolliscroft Rhead, a renowned expert in decorative arts and material culture, brings his expertise to 'History of the Fan' by delving into the rich history and symbolism of this often overlooked accessory. Rhead's extensive knowledge and passion for the subject shine through in his meticulous exploration of the fan's evolution and cultural significance. I highly recommend 'History of the Fan' to readers interested in cultural history, decorative arts, or fashion studies. Rhead's thorough examination of this everyday object sheds light on its often overlooked importance and provides valuable insights into the social and cultural dynamics surrounding it.

Magic in Western Culture Cambridge University Press
Cambridge English Readers is an award-winning series of original fiction readers for learners of English, offering exciting reading from Starter to Advanced levels. A man is found on the street, and taken to hospital. He appears unable to tell the doctor who he is, or where he comes from, but has he really lost his memory? The man is playing a dangerous game, and really knows a lot more than he is prepared to say. When he leaves the hospital, he goes to the house of the nurse who looked after him, and events take a very sinister turn. Paperback-only version. Also available with Audio CD including complete text recordings from the book.

Worlds of Natural History Cambridge University Press

The last - and largest - of Cage's most important formative exchanges of letters, discussing music criticism and questions of aesthetics.

Cambridge English Readers Level 1: John Doe Рипол Классик
Modern, original fiction for learners of English. Dr Mark Latto travels to California USA to learn about an alternative medical

treatment from Deborah Spencer. But on arrival he finds that Deborah has died and the book she was writing about the treatment has vanished. The police don't suspect murder but Mark does.

Jojo's Story Level 2 Elementary/Lower Intermediate Book and Audio CD Pack Good Press

Modern, original fiction for learners of English. A man is found on the street, and taken to hospital. He appears unable to tell the doctor who he is, or where he comes from, but has he really lost his memory? The man is playing a dangerous game, and really knows a lot more than he is prepared to say. When he leaves the hospital, he goes to the house of the nurse who looked after him, and events take a very sinister turn.

John Doe Level 1 Cambridge University Press

"Harry's dad works away from home and his mother isn't well. He needs to help her a lot at home. But then, Harry sees a competition - he and his parents can go on a holiday together. For free! But can he win? And is it really a free holiday?"--Cover.
Memoirs of Extraordinary Popular Delusions and the Madness of Crowds HarperCollins

Modern, original fiction for learners of English. A missing woman and a dead body welcome Inspector Jenny Logan to her new job with the Edinburgh police. Logan questions the husband of the dead woman and a local doctor about the murder, but can she believe what they say? Then, a piece of jewellery leads Logan to the killer.

The Cambridge Quintet Cambridge University Press

These stories offer eight slices of life in England today, covering inner-city problems, immigration, football hooliganism, food,

student life, leisure activities, the media and the countryside.

The Judicial and Civil History of Connecticut Cambridge University Press

High interest-low vocabulary books.

History of the Fan Cambridge University Press

"There aren't any more days. There's just time. Time when it's dark and time when it's light. Everything is dead, so why not days too?" Everyone in Jojo's village is dead, and ten-year-old Jojo is alone.

Inspector Logan Level 1 Longman

This is a famous educational text by Gilbert J. Hunt presenting an account of the War of 1812 in the style of the King James Bible. It starts with President James Madison and the congressional declaration of war and then describes the Burning of Washington, the Battle of New Orleans, and the Treaty of Ghent.

[The Photomontages of Hannah Höch](#) Penguin

By 1949, the idea of duplicating human thought processes in a computer was starting to surface, as the outgrowth of code-breaking work done by Alan Turing and others in Britain during the Second World War. This ingenious work of speculative scientific fiction reconstructs what might have been said during the animated conversation flowing around Snow's rooms that fateful in Cambridge. The quintet's debate anticipates all of the basic questions which have surrounded artificial intelligence in the fifty years since. Can a machine think or merely process information? Is the brain simply a symbol-processing machine, as Turing suggests, and if so, what is the nature of meaning? Can there be, as Wittgenstein proposes, no thought without language, and no language without the social interaction of human beings?

A forest huge of spears and thronging helms Appear'd, and serried shields, in thick array. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
Prominent Families of New York Cambridge University Press
Modern, original fiction for learners of English. Liz teaches archaeology in Athens. She works too hard and her doctor tells her she needs to take a holiday. So she goes to the beautiful and peaceful Greek island of Sifnos. But the peace does not last long when a local man dies in suspicious circumstances. Liz ignores advice not to get involved and her relaxing holiday becomes a matter of life and death.

Control Order 351 Cambridge University Press

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three

thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

John Cage and Peter Yates Cambridge University Press
Hardcover reprint of the original 1922 edition - beautifully bound in brown cloth covers featuring titles stamped in gold, 8vo - 6x9. When Penny moves from her home in the village to a new house in the city she has to leave her friends and pet dog behind. One

day, after school, Penny finds a little puppy in the park. He is small and dirty and very frightened. Penny calls him Socks. But Penny's new house is small and Socks can't stay with her. Can Penny find a new home for Socks?

Homo Deus Cambridge University Press

Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how

will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

Genealogy of the Descendants of John Eliot, "apostle to the Indians," 1598-1905 Cambridge University Press
Explores the development of natural history since the Renaissance and contextualizes current discussions of biodiversity.
