"Brighter Child Math Grade 1," you can help your child understand the math concepts he or she will need for the school years ahead. And because the book features bright, colorful activities, your child is sure to have fun! The "Brighter Child Math Grade 1" workbook features activities that teach: - Numbers - Addition and subtraction - Problem solving - Fractions - Time and money concepts Success in School Starts Here! *Sequencing and Memory, Preschool* Brighter Child Connect with Words, Grade 1 offers children important vocabulary practice in all subject areas! Children need to understand the basic vocabulary of a subject to be able to learn the skills and concepts of

each subject. Designed in a 36-week, unit-by-unit sequence this 352 page workbook covers key math, social studies, language arts, and science vocabulary in a fun approach. Helping children build a foundation of language that will help them achieve success in every area of school! Plus, the Connect with Words series offers a CD-ROM portal to thousands of additional worksheets! Once the program is running, simply click on the title of a page, you will be able to choose 200 from nearly 15,000 printable activities and practice sheets targeting the same subject areas for additional practice or to help hone difficult skills. You can also download and print the progress poster from

the CD-ROM and track the progress!

Featuring:

- Provides important vocabulary practice in each subject area
- Designed in 36-week word skill practice lessons
- Choose 200 additional worksheets from a database of 15,000
- Printable progress report

Learning Activities, Grade 1 Brighter Child Use this set of 134 plastic Money Blocks to teach young children the values of common U.S. coins. It includes blocks for 100 pennies (green), 20 nickels (yellow), 10 dimes (red), and 4 quarters (blue). A 10" x 10" grid of 100 squares printed on sturdy green

cardstock represents 100 pennies or 1 dollar. Each Money Block consists of linked squares measuring 1" x 1" x 5mm thick. Each square represents 1 penny, thus a penny block is 1 square, a nickel block is 5 squares, a dime block is 10 squares, and a quarter block is 25 squares. Using the grid and the blocks, students will be able to model the value of any combination of coins from 1 cent to 1 dollar. It includes a 32-page reproducible activity book featuring a wide range of activities that support the Money Blocks as well as supports current NCTM Standards.
