FUR TRADE IN CANADA Calgary : Weigl Educational Publishers

An investigation of the effects of the fur trade on the social patterns of the Algonquian peoples living in the eastern James Bay region from 1600 to 1870.

The Fur Trader University of Alberta

"This Atlas is a description and depiction of the yearly travels of the major traders and trappers from 1800 to 1840 out of St. Louis, MO. It started with the Lewis & Clark Expedition and ended with change in fashion in men's hats from beaver felt to silk."

Making the Voyageur World Bison Books

Describes the rise and fall of the Canadian fur trade, including the role of the coureurs de bois and voyageurs, trading partnerships with the Aboriginal Peoples, and the explorers who mapped Canada's vastness.

The Canadian Fur Trade in the Industrial Age McClelland & Stewart

From the Indians of the American West to overseas influences, this book takes an extensive look at the fur trade. It details how it affected the history of North America and impacted the world economies.

Provides a vivid look into the life of the trapper and trader, the dangers they faced, and the fortunes that a few lucky ones were able to amass. Butler uses his role as an archaeologist to present floor plans of many of the posts and unknown drawings that are just now coming to light. Attention has also been given to the five of twenty-four trading posts that have been reconstructed. Rendezvous in Colorado are also covered, as well as shipping methods used to get the furs to various markets"--P. [4] of cover.

Epic in sweep and reach, *The American Fur Trade of the Far West* made clear how much the fur trade was "indissolubly connected to the history of North America." Chittenden brought to this enduring work an appreciation of geography and a feeling for the lives and times of colorful trappers and mountain men like Manuel Lisa, William H. Ashley, the Sublette brothers, Jedediah Smith, Jim Bridger, and Kenneth McKenzie. He provided a comprehensive view of the fur trade that still remains sound, over 100 years after its 1902 publication.

The Fur Trade Revisited is a collection of twenty-eight essays selected from the more than fifty presentations made at the Sixth North American Fur Trade Conference held on Mackinac Island, Michigan, in the fall of 1991. Essays contained in this important new interpretive work focus on the history, archaeology, and literature of a fascinating, growing area of scholarly investigation. Underscoring the work's multifaceted approach is an introductory essay by Lily McAuley titled "Memories of a Trapper's Daughter." This vivid and compelling account of the fur-trade life sets a level of quality for what follows. Part one of The Fur Trade Revisited discusses eighteenth-century fur trade intersections with European markets. The essays in part two examine Native people and the strategies they employed to meet demands placed on them by the market for furs. Part three examines the origins, motives, and careers of those who actually participated in the fur trade. Part four focuses attention on the indigenous fur-trade culture and subsequent archaeology in the area around Mackinac Island, Michigan, while part five contains studies focusing on the fur-trade culture in other parts of North America. Part six assesses the fur trade after 1870 and part seven contains evaluations of the critical historical and literary interpretations prevalent in fur-trade scholarship.

"By beginning where the standard works leave off and carrying the story up to its logical conclusion in 1865, this book fills a definite void in the history of the fur trade in the American West. Set in the upper Missouri country, which was bypassed by settlement until the 1860s, it

focuses primarily upon the St. Louis firm of Pierre Chouteau, Jr., and Company, usually known as the American Fur Company....This is not the distorted and romanticized approach so typical of much of the literature on the earlier fur trade. Drama is inherent, but it is sound, well-conceived, carefully documented history."-American Historical Review

The early Canadian fur traders described the region of the Canadian Shield which lies north of Lake Superior and east of Lake Winnipeg as the "Le Petit Nord", distinguishing it from the vast area west and north of Lake Winnipeg denominated "Le Grand Nord". This study elucidates the historical and geographical development of the fur trade in the Little North. It is based primarily on the archival documents of the Hudson's Bay Company, held in the provincial archives of Manitoba in Winnipeg. *Profit & Ambition* Winnipeg, Canada : Rupert's Land Research Centre, University of Winnipeg

This lively book encompasses the French predecessors of Fort William, Native Peoples of the time, and the evolution of the fur trade.

The Fur Trade in Canada McGill-Queen's Press - MQUP

Throughout much of the nineteenth century the Hudson's Bay Company had a virtual monopoly on the core area of the fur trade in Canada. Its products were the object of intense competition among merchants on two continents - in Leipzig, New York, London, Winnipeg, St Louis, and Montreal. But in 1870 things began to change, and by the end of the Second World War the company's share had dropped to about a quarter of the trade. Arthur Ray explores the decades of transition, the economic and technological changes that shaped them, and their impact on the Canadian north and its people. Among the developments that affected the fur trade during this period were innovations in transportation and communication; increased government involvement

in business, conservation, and native economic welfare; and the effects of two severe depressions (1873-95 and 1929-38) and two world wars. The Hudson's Bay Company, confronting the first of these changes as early as 1871, embarked on a diversification program that was intended to capitalize on new economic opportunities in land development, retailing, and resource ventures. Meanwhile it continued to participate in its traditional sphere of operations. But the company's directors had difficulty keeping pace with the rapid changes that were taking place in the fur trade, and the company began to lose ground. Ray's study is the first to make extensive use of the Hudson's Bay Company archives dealing with the period between 1870 and 1945. These and other documents reveal a great deal about the decline of the company, and thus about a key element in the history of the modern Canadian fur trade.
