 ike Lanes vs. Car Lanes
 The objective of this study is to examine the issue of bike lanes vs. car lanes in New York City through the lens of urban sociology. There is an ongoing battle in New York City between those who use bicycle lanes and those who drive cars.
 Car Essays: Examples, Topics, Titles, & Outlines
 This paper reviews the history of automotive technology development and human factors research, largely by decade, since the inception of the automobile. The human factors aspects were classified into primary driving task aspects (controls, displays, and visibility), driver workspace (seating and packaging, vibration, comfort, and climate), driver's condition (fatigue and impairment), crash injury, advanced driver-assistance systems, external communication access, and driving behavior.
