**The Learning Revolution** BRILL  
A FINANCIAL TIMES  
BOOK OF THE YEAR  
One of our most  
scintillating public  
intellectuals explores  
the political paradoxes

of the pandemic and helps us think our way through it 'We are able to imagine anything because we are being besieged by something that was considered unimaginable...'  
Beneath the panic and bluster, beneath the confusing speeches and the conflicting advice, the

Coronavirus pandemic acted, changing our world in the most profound ways. The tragic human cost and the economic devastation will be assessed and calculated for decades to come. But the pandemic also changed things in ways that are less easily expressed and understood. It has made bare the frayed contradictions of modern life. It has distorted things that seemed simple and settled. It has affirmed plain, uncomfortable truths. In this brilliant, thought-provoking essay, Ivan Krastev, one of our most interesting thinkers today, explores the pandemic's immediate consequences and conceives of its long-term legacy. Will things

be different for the communities most harmed, and for those who escaped the worst? Where are we now with the US and China, with the UK and Europe? And how do we think our way through the unthinkable?

Calvin and the Bible

Imagining Creation is a collection of views on creation by noted authors from different disciplines. Topics include creation accounts and iconography from Mesopotamia and Egypt, and cosmologies from India and Africa. Special attention is devoted to creation in the Scriptures (Bible and Koran) and related oral

traditions on Genesis from Slavonic Europe, as well as Kabbalah. Some of the creations myths are earlier and some later than the Bible, while a number of the discussed texts offer alternative approaches to the beginnings of the universe. The contributions provide many new perspectives on the origins of man and his world from diverse cultures. The volume is the proceedings of a symposium on creation stories held at University College London.

*Creep Behaviour in Cracked Sections of Fibre Reinforced*

*Concrete* Food and Agriculture

Organization of the United Nations

This is the first publication ever

focusing strictly on the creep behaviour in cracked sections of Fibre Reinforced Concrete (FRC). These proceedings contain the latest scientific papers about new testing methodologies, results and conclusions of multiple experimental campaigns and recommendations about significant factors of long-term behaviour, experiences from more than ten years of creep testing and some reflections about future perspectives on this topic. This book is an essential reference for all researchers of creep behaviour on FRC. This volume is the result of the efforts of the RILEM TC 261-CCF, that has been working since 2014 to develop standardized

methodologies and guidelines to compare results from different laboratories and get a better understanding of the significant parameters related to creep of FRC.

*The Captive and the Gift* Cambridge University Press  
Published in 1963, this book about the famous accountant and bookkeeper Luca Paciolo explores his extraordinary contribution to the development of the accounting profession. Paciolo is the first known writer to publish a work describing the double entry process.

### **Is It Tomorrow Yet?**

Scientific Publishers  
Student-Centered Leadership offers a timely and thoughtful resource for school leaders who want to turn their ideals into

action. Written by educational leadership expert Viviane Robinson, the book shows leaders how they can make a bigger difference to the quality of teaching and learning in their school and ultimately improve their students' performance. This book is based not on fad or fashion but on the best available evidence about the impact of different types of leadership on student outcomes. The book includes examples of five types of leadership practice as well as rich accounts of the knowledge and skills that leaders need to employ them with confidence. Filled with practical lessons, clear information, and much inspiration, Robinson encourages leaders to experiment with

changing how they lead so they can transform their schools for the better. Student-Centered Leadership is part of the Jossey-Bass Leadership Library in Education series. Praise for Student-Centered Leadership "Student-Centered Leadership shines with clarity and practical, powerful ideas. Add this book to your leadership library."—Michael Fullan, author, *The Six Secrets of Change and Leading in a Culture of Change* "Viviane Robinson's compelling book is both evidence based and profoundly practical."—Steve Munby, chief executive, National College for Leadership of Schools and Children's Services, England "This book will be an equally

important resource for individual school leaders, professional developers, and administrator-preparation programs. There will be two copies on my shelf—one to loan and one for my own reference."—Karen Seashore Louis, Regents Professor, University of Minnesota

*The Migration of Ideas*  
Yale University Press

Second Language Learning and Language Teaching provides an introduction to the application of second language acquisition research to language teaching. Assuming no previous background in second language acquisition or language teaching methods, this text starts by introducing readers to the basic issues of second language

acquisition research. It then examines how people learn particular aspects of the second language, such as grammar, vocabulary, pronunciation and the writing system, and at the strategies they adopt in their learning and the differences between individuals. Final chapters look at second language learning in a broader context – the goals of language teaching and how teaching methods relate to SLA research. This newly updated fifth edition builds on the comprehensive scope of earlier editions while also addressing more recent developments in the field, particularly multilingual approaches to language teaching.

**Conflicting Memories** Paciolo on

Accounting  
Personality  
development is an indispensable tool that helps an individual to flourish personal and professional skills. An extraordinary personality is sophisticated, well dressed and groomed, exuding confidence in speech and interpersonal skills. The factors such as biological characteristics, family and social groups, cultural and social factors contribute towards formation of an individual personality. Good communication is vital to any institution's successful operation and equally imperative for personality development. The book 'Communication Skills and Personality Development' is a

thorough attempt to present the aforesaid concepts in a simple, understandable, and student-friendly language to gaze the difficult situations and handle them appropriately. The course on Communication Skills and Personality Development has been recommended by V Deans Committee for B.Sc. (Agri.), B.Sc. (Horti.) and B.Tech. faculties throughout the agricultural universities in India; this book has been administered to cover the entire syllabus of this course. The book is highly recommended as a text book for the under graduate agricultural students.

The first comprehensive exploration of women's multifaceted experiences of forced

and consensual ravishment in medieval England.

*Longing, Weakness and Temptation*

Penguin UK

The Caucasus region of Eurasia, wedged in between the Black and Caspian Seas, encompasses the modern territories of Armenia, Azerbaijan, and Georgia, as well as the troubled republic of Chechnya in southern Russia. A site of invasion, conquest, and resistance since the onset of historical record, it has earned a reputation for fearsome violence and isolated mountain redoubts closed to outsiders. Over extended efforts to control the Caucasus area, Russians have long mythologized stories of their countrymen taken

captive by bands of mountain brigands. In *The Captive and the Gift*, the anthropologist Bruce Grant explores the long relationship between Russia and the Caucasus and the means by which sovereignty has been exercised in this contested area. Taking his lead from Aleksandr Pushkin's 1822 poem "Prisoner of the Caucasus," Grant explores the extraordinary resonances of the themes of violence, captivity, and empire in the Caucasus through mythology, poetry, short stories, ballet, opera, and film. Grant argues that while the recurring Russian captivity narrative reflected a wide range of political positions, it most often and compellingly suggested

a vision of Caucasus peoples as thankless, lawless subjects of empire who were unwilling to acknowledge and accept the gifts of civilization and protection extended by Russian leaders. Drawing on years of field and archival research, Grant moves beyond myth and mass culture to suggest how real-life Caucasus practices of exchange, by contrast, aimed to control and diminish rather than unleash and increase violence. The result is a historical anthropology of sovereign forms that underscores how enduring popular narratives and close readings of ritual practices can shed light on the management of pluralism in long-

fraught world areas. *Rome and Jerusalem* Longman Publishing Group  
During the past several decades a growing number of scholars have come to appreciate the importance of studying John Calvin's interpretive work as a commentator on Scripture in addition to his better-known writings on theology. In this volume ten essays by scholars specializing in Calvin's exegetical methods examine the approaches and themes Calvin emphasized when he interpreted major portions of Scripture. These essays focus on Calvin's work in his biblical commentaries with appropriate cross-referencing to his other writings, including his sermons. A concluding

essay synthesizes the main features of what has gone before to present an overall view of John Calvin as an interpreter and commentator on Holy Scripture. An appreciation of Calvin's exegetical labors and his work as a biblical commentator are now recognized as key elements in Calvin scholarship.

Recently at the Visible Learning Conference, Professor John Hattie stood up in his opening address and said, "I'm looking at you all and thinking 'What if I got this wrong?'" I feel the same way when educators ask to visit and I always end up in the same place - that Keilor Views is a living, breathing example that he didn't. -- Charles

Branciforte, Principal of Keilor Views Primary School, Melbourne, Australia Visible Learning into Action takes the next step in the evolving Visible Learning story. It translates one of the biggest and most critically acclaimed education research projects ever undertaken into case studies of actual success stories, implementing John Hattie's ideas in the classrooms of schools all around the world. The evidenced case studies presented in this book describe the Visible Learning journeys of fifteen schools from Australia, USA, Hong Kong, UK, Sweden, New Zealand and Norway and are representative of the VL international community of schools

in their quest to ensure all of their students exceed their potential for academic success. Each school's story will inform and inspire, bringing to life the discussions, actions and reflections from leaders, teachers, students and families. This book features extensive, interactive appendices containing study guide questions to encourage critical thinking, annotated endnotes with recommendations for further reading and links to YouTube and relevant websites. Drawing on the latest research into the major principles and strategies of learning, this essential resource is structured into five parts: Know thy impact; Effective feedback; Visible learners; Inspired and

passionate teachers; The Visible Learning School. Visible Learning into Action is aimed at any student, teacher or parent requiring an up-to-date commentary on how research into human learning processes can inform our teaching and what goes on in our schools.

*Identity as Ideology*  
Cambridge Scholars Publishing

This inspiring account of a diverse all-women's expedition to the North Pole reveals the highs and lows of record-breaking, modern-day exploration. "A wonderful collaboration both on the Arctic ice and onto the page. Each team members voice arises to offer a view beyond the physical giving us the essence of a unique

adventure.” Ann Bancroft, first woman to reach the North Pole and coauthor of *No Horizon Is So Far: Two Women and Their Historic Journey across Antarctica When British Explorer Felicity Aston put out an open call for women with little to no experience willing to brave the elements on an expedition to the North Pole*, she was stunned to have over 1000 applicants. After narrowing it down to ten women from ten different countries—some of whom had never seen snow before—the team spent the next two years training for this unique opportunity. Each member of the team tells part of the story in her own words, chronicling their grueling preparation in Iceland and Oman, the

anticipation for the journey, and the terrifying conditions of the Arctic. Set against a backdrop of Arctic pack ice that is thinner, newer, and less stable than ever before due to climate change—the team face the realities of hungry polar bears, extreme temperatures, and the possibility that anything and everything could go wrong at any moment. Aston beautifully weaves each woman’s account into the greater expedition narrative, reminding readers of the teamwork needed to complete such a feat. Over 60 stunning photographs illustrate the journey, illuminating the breathtaking landscape along with the joy, pain, and determination of these

ten women. Polar Exposure is a powerful celebration of the perseverance of women in science, sports, and exploration that sheds light on all that it takes to reach the top of the world. Polar Exposure John Wiley & Sons

This is a concise introductory textbook for a one-semester (40-class) course in the history and philosophy of mathematics. It is written for mathematics majors, philosophy students, history of science students, and (future) secondary school mathematics teachers. The only prerequisite is a solid command of precalculus mathematics. On the one hand, this book is designed to help mathematics majors acquire a philosophical

and cultural understanding of their subject by means of doing actual mathematical problems from different eras. On the other hand, it is designed to help philosophy, history, and education students come to a deeper understanding of the mathematical side of culture by means of writing short essays. The way I myself teach the material, students are given a choice between mathematical assignments, and more historical or philosophical assignments. (Some sample assignments and tests are found in an appendix to this book. ) This book differs from standard textbooks in several ways. First, it is shorter, and thus more

accessible to students who have trouble coping with vast amounts of reading. Second, there are many detailed explanations of the important mathematical procedures actually used by famous mathematicians, giving more mathematically talented students a greater opportunity to learn the history and philosophy by way of problem solving.

Cambridge University Press

In *The Promiscuity Papers*, archetypal roots of promiscuity are explored. In classical Greek and Roman mythology some promiscuous father figures may be found viz. Chronos (Saturn), and Zeus (Jupiter). Another form of Saturnian

promiscuous dynamic is explored in the mythological figures of Oedipus and Antigone. This is followed by presentation of a case history. Ines, a woman in her early thirties, enters analysis because she would like to solve the recurring problem of her unsuitable partnerships, in which her partners are predominantly promiscuous. The father was psychotically disturbed and the patient was the family member who offered support to him. Psychotherapy started with a stable frequency of two sessions a week. Within the transference, there appear two figures. One of a 'positive father,' and the other as the 'all-knowing.'

The latter may be compared with the mythological figure of Oedipus, whose intelligence was exceptional, being demonstrated in his redemption of Thebes from the Sphinx. All the same, Oedipus suffered from a promiscuously incestuous relationship with his mother locaste. During old age, when he was expelled, and accompanied by his faithful daughter Antigone, Oedipus was most probably psychotic. In the analysis, Ines has decided, after 200 hours of analysis, to reduce the frequency down to one session a week. The problem of analytic interpretation is described, as well as the effects of interpretation (when it

finally takes place) that it had on the analytic relationship and analytic process. The intimate and important link between promiscuity and incest is also explored, promiscuous actualizing the incestuous. Promiscuity is a manifest sexual activity with the unknown other. Promiscuity can also be considered as a defense against paranoia.

Good beekeeping practices: Practical manual on how to identify and control the main diseases of the honeybee (Apis mellifera)

Charlesbridge Publishing

Describes the first 1,000 years of Christian history, from the early practices and beliefs through the

conversion of Constantine as well as documenting its growth to communities in Ethiopia, Armenia, Central Asia, India and China.

*Ireland's Great Famine*

Fisher King Press

The essays in this volume range widely over topics associated

with Ireland's great famine of 1846-52. Taken together, the essays give a full account of the famine, its effects, what was and was not done to alleviate it, how it compares with other famines, and how successive scholars have tackled these matters.
