**Amabile di Continentia** Routledge  
Using four notorious moments in the life of Duke Vincenzo Gonzaga of Mantua, Valeria Finucci explores changing early modern concepts of sexuality, reproduction, beauty, and aging. She deftly marries salacious tales with historical analysis to tell a broader story of Italian Renaissance cultural adjustments and obsessions.

Conflitto e democrazia in Europa.

1650-2000: Springer Nature

Der vorliegende Band markiert den zweitausendsten Todestag des princeps mit einer Reihe von Studien, die neue Zugänge zum römischen Herrscher Augustus und seiner Regentschaft bieten. Die thematisch weit gefächerten Beiträge fokussieren zentrale Themen der Augustusforschung aus der Sicht des 21. Jahrhunderts. Der Band bietet Studien aus archäologischer, philologischer und althistorischer Perspektive, die auf der Tagung ‚XIV A.D. SAECVLVM AVGVSTVM. The Age of Augustus‘ im September 2014 in Lissabon präsentiert und diskutiert wurden. Mit dem Titel, Augustan Papers, wird an das 80. Jubiläum der Publikation Roman Papers (1939) von Ronald Syme erinnert. \*\*\*\*\* The present volume marks the bimillennium of the death of the princeps with a selection of essays that offer new approaches to the Emperor Augustus and his reign. The essays cover a variety of subjects related to Augustan scholarship from a twenty-first century perspective. The

studies brought together in this volume are based on papers delivered and discussed by archaeologists, philologists, and historians of ancient Rome at the conference on ‘XIV A.D. SAECVLVM AVGVSTVM. The Age of Augustus’ held in Lisbon (the Roman Olisipo) in September 2014. The title, Augustan Papers, is intended to commemorate the eightieth anniversary of the publication of Ronald Syme’s Roman Papers (1939).

*Defense against Terrorism Profile Books*  
Aiming to redefine the concept of wealth, which has too often been reduced to merely ‘accumulated assets’, this book views wealth primarily as a question of reproduction, relational flows and life vitality. The authors therefore outline wealth as a triangular phenomenon between capital, the commons and power. Viewing wealth as firstly a product of relational capacities, the book explores the processes wherein it is constantly being pulled at from forces that demand appropriation, be that finance, community or state. The chapters tackle perceptions (and practices) of wealth in the commons, in mythical narrative, immaterial substance, aristocratic orders, antimafia, money real and imagined, and conspiracy theory, with contributions from Melanesia, Italy, Greece, India and Mongolia. The comparative perspective lies at the heart of the book, bringing together instances of commonwealth and the commons, as well as hierarchical, relational and substantial understandings of wealth. As the first collection in recent decades to address the anthropology of wealth openly in a comparative perspective, this book will

spark discussions of the concept in anthropology, not least at the back of a renewed debate over it due to Piketty's legacy. This book was originally published as a special issue of *History & Anthropology*.

*Istoria del regno di Luigi XIV Il regno dei due fratelli - Il ritorno del re*

This new book brings together some of the leading criminologists across Europe, to showcase the best of European criminology. This Handbook aims to reflect the range and depth of current work in Europe, and to counterbalance the impact of the – sometimes insular and ethnocentric – Anglo-American criminological tradition. The end-product is a collection of twenty-eight chapters illustrating a truly comparative and interdisciplinary European criminology. The editors have assembled a cast of leading voices to reflect on differences and commonalities, elaborate on theoretically grounded comparisons and reflect on emerging themes in criminology in Europe. After the editors' introduction, the book is organised in three parts: five chapters offering historical, theoretical and policy oriented overviews of European issues in crime and crime control; seven chapters looking at different dimensions of crime in Europe, including crime trends, state crime, gender and crime and urban safety; fifteen chapters examining the variety of institutional responses, exploring issues such as policing, juvenile justice, punishment, green crime and the role of the victim. This book gives some indication of the richness and scope of the emerging comparative European criminology and will be required reading for anyone who wants to understand trends in crime and its control across Europe. It will also be a valuable teaching resource, especially at

postgraduate level, as well as an important reference point for researchers and scholars of criminology across Europe.

This book offers a completely new approach to the complex social phenomenon of the Mafia: In addition to the origins, organization and actions of the Mafia, the author Anita Bestler examines above all the close connection between organized crime and politics. In the process, readers [also] gain an interesting insight into the complicated political development of Italy from the founding of the state to the present, as well as an answer as to why Italians have a different political mindset.

In the seventeenth and eighteenth centuries, potters from the Italian village of Castelli d'Abruzzo created wares that constitute a final, supremely pictorial phase of the tin-glazed earthenware art known as maiolica. Here, Catharine Hess documents the Gentili/Barabei archive--a recently acquired collection of 276 documents relating to these celebrated ceramics--to show how it illuminates the production of maiolica.

**The Routledge Handbook of European Criminology** Springer

Se scopriissimo che i primi matrimoni gay

non risalgono solamente al nostro secolo? Se aprendo gli occhi sulla storia che ci hanno tenuto nascosto i poteri forti del tempo, scopriremmo verità troppo scomode riemergere dall'oblio del passato? Il Ritorno del Re, seppur un romanzo indipendente come tutti gli altri titoli della collana, è il terzo Capitolo della Saga Il Regno dei due Fratelli, che rivive le avventure del giovane e ribelle Barone Filippo de Bonnet. Un romanzo ambientato alla Corte francese nel XVII Secolo, ove la vicenda prende le mosse dal ritorno a Parigi di Filippo e del suo compagno Christian, reduci dalle avventure di colonizzazione nel nuovo mondo. In questa nuova avventura il lettore ripercorre con il protagonista il passaggio da una realtà a contatto con la natura nella continua ricerca dell'equilibrio con essa, ad una società come quella di corte infingarda e corrotta, indifferente all'innocenza indifesa, tanto quanto perfida e pervertitrice. Una corte simbolo di tanta dissipazione di valori tanto quanto capace tra i suoi gioielli e ornamenti d'oro, tra sfarzose feste da ballo e rigide etichette di corte, di confondere e trascinare tra le peccaminose braccia del piacere e del desiderio più sfrenato. Il Louvre e Fontainebleau gli scenari lascivi dove la lotta per il potere si combatte tanto quanto nei campi da battaglia quanto fin sotto le lenzuola, decidendo tra gli orgasmi di seducenti e abili seduttori, politica e cultura, ricchezza e povertà, sfortuna e gloria. Un nuovo dramma ricco di colpi di scena e di machiavellici complotti orditi per soddisfare personali brame di potere e non solo...

Global terrorism is a double-edged

threat to democracies. Physically, because of the number of people killed and wounded, structurally, because it threatens social peace and over-reaction tends to undermine our basic values. The authors of the chapters in this book are multinational and interdisciplinary. Their papers were presented for discussion at the Advanced Research Workshop (ARW) held in Skopje (FYROM) 11-14th April 2018 on "Defence Against Terrorism, Enhancing Resilience of Democratic Institutions and Rule of Law", organized within the NATO Science for Peace and Security Programme. Results can be summarised as follows. Counter-terrorist strategy must aim to achieve less, not more, terrorism. The countries with best results are the ones that cultivate human intelligence, confidence between security services and the local population, together with a tradition of effective respect of the Rule of Law. Militarization of internal security, and intelligence systems mainly based on databases ("big data") and artificial intelligence, though popular, are showing serious limits. More effective democracy, not less, is the key to the resilience of our societies against the "new threats", particularly for confronting the criminal violence of terror. In discussion, some core necessities were identified: to recognize that it is the method used, not the aims, that define criminal organisations as terrorist; that there is a structural link with organized crime for financing and operative support, and that corruption facilitates and protects any illegal activity; social capital must be developed as a fundamental basic tool for enhancing resilience. This book aims to help analyse the networks and contexts that feed terrorism. It provides anyone confronted with security issues

an understanding of the negative as well as the positive aspects of specific counter-measures.

*Philip Mazzei, Friend of Jefferson* Bruno Mondadori

Lane shows how globalisation has transformed the Mafia into more than simply a local phenomenon. It describes in painful detail the daily accommodation to Mafia pressure endured by priests, politicians and prosecutors, businessmen, trade unionists and ordinary citizens. At the same time he incorporates a portrait of the South's long and tumultuous history and powerful flavours to provide a richly coloured portrait of a European region under siege.

### **Challenging the Mafia Mystique**

Maggioli Editore

The Sicilian Mafia, or Cosa Nostra, is one of the most intriguing criminal phenomena in the world. It is an unparalleled organised criminal grouping that over almost two centuries has been able not only to successfully permeate licit and illicit economy, politics and civil society, but also to influence and exercise authoritative power over both the underworld and the upper-world. This criminal phenomenon has been a captivating conundrum for scholars of different disciplines who have tried to explain with various paradigms the reasons behind the emergence and consolidation of the mafia. *Challenging the Mafia Mystique* provides an analysis of the changes the Sicilian mafia has undergone, from legitimisation to denunciation. Rino Coluccello highlights how, from the very emergence of the organised criminal groups in Sicily, a culture existed that was protective and tolerant of the mafia. He argues that the various conceptualisations of the mafia that dominated the public and scientific

debate in the nineteenth and more than half of the twentieth century created a mystique, which legitimised the mafia and contributed to their success. This book will be of great interest to scholars and students of organised crime, Italian politics and Italian literature.

*Il divin salvatore periodico settimanale romano* Oxford University Press

The Journals of Prince Henry Sinclair and his descendants (20 books and a lambskin map) were found by accident in 2005 in a dusty dirty basement in Greeneville, TN. They then lay in a trunk in the back of the closet for almost 9 years before the author realized what she had. Translating the journals from Latin, Old English, and modern English she soon learned the story of her own 17th great-grandfather, Prince Henry Sinclair of Orkney and Scotland. Join the author and her great-grandfathers on a voyage of discovery as you learn about the covenant made between the St. Clair/Sinclair and Wemyss family, the Templars, the Native Americans, and the Freemasons. Travel with us as we search for the artifacts mentioned in the journals and validate the story. Book 1 of 10, tells the story of Henry as a young boy from the age of 8 in 1353 until 1395 when he plans a voyage with Captain Nicolo Zeno and his son Antonio Zeno to Greenland and beyond.

### **Towards an Anthropology of Wealth**

Harvard University Press

Provides a key textbook on the nature of international and transnational crimes and the delivery of justice for crime control and prevention.

*Fonti per la storia d'Italia pubblicate dall'Istituto storico italiano per l'età moderna e contemporanea* Getty Publications

The definition of organised crime has long been the object of lively debate, at

national and international level. Sociological and legal analysis has not yet led to one definitive answer to the question of what exactly 'organised crime' means. Nonetheless, many instruments adopted both at international and national levels set forth special legal regimes designed to target criminal groups featuring a stable organisation, which are perceived as particularly dangerous to society. Therefore, identifying the notion of organised crime is crucial to establishing the scope of any legal instrument specifically designed for combating it. The aim of this book is to reassess the scope, the effectiveness and the overall coherence of existing definitions of organised crime, and to identify any need for a reconsideration of these definitions, specifically with reference to the EU legal order. It will be of interest to academics, practitioners and legislators working in the sphere of EU criminal law and of organised crime more generally.

**International and Transnational Crime and Justice** Cambridge University Press

Italy is a country of recent decline and long-standing idiosyncratic traits. A rich society served by an advanced manufacturing economy, where the rule of law is weak and political accountability low, it has long been in downward spiral alimented by corruption and clientelism. From this spiral has emerged an equilibrium as consistent as it is inefficient, that raises serious obstacles to economic and democratic development. The Political Economy of Italy's Decline explains the causes of Italy's downward trajectory, and explains how the country can shift to a fairer and more efficient system. Analysing both political economic literature and the history of Italy from 1861 onwards, The

Political Economy of Italy's Decline argues that the deeper roots of the decline lie in the political economy of growth. It places emphasis on the country's convergence to the productivity frontier and the evolution of its social order and institutions to illuminate the origins and evolution of the current constraints to growth, using institutional economics and Schumpeterian growth theory to support its findings. It analyses two alternative reactions to the insufficient provision of public goods: an opportunistic one-employing tax evasion, corruption, or clientelism as means to appropriate private Goods- and one based on enforcing political accountability. From the perspective of ordinary citizens and firms such social dilemmas can typically be modelled as coordination games, which have multiple equilibria. Self-interested rationality can thus lead to a spiral, in which several mutually reinforcing vicious circles lead society onto an inefficient equilibrium characterized by low political accountability and weak rule of law. The Political Economy of Italy's Decline follows the gradual setting in of this spiral as it identifies the deeper causes of Italy's decline.

**Posebna izdanja** EDT srl

This book presents a discussion of the relation between organized criminals and corruption in the EU's 27 Member States. The book draws on research and scholarly work carried out to provide an analysis of the specific national contexts in which corruption and organised crime thrive, and presents case studies, written by some of the foremost international experts on the subject matter, analysing corrupt exchange and criminal organisations.
