Before there was a World of Darkness RM, there was something else. It was a land of turmoil in the Second Age of man. It was a time of high adventure and heroes re-born. It was a setting of savage peril and sprawling decadence. It was the world of Exalted TM. The Trilogy of the Second Age is the first White Wolf fiction series set in this fantastic time and place.

Beloved of the Dead Two Black Sheep "Deeply I sat, fixed to the slap, slap, slap of her trot, and the counterpoint thud-plod, thud-plod of her heart, enchanted by a soft percussion I felt part of, floating above the syncopated rhythm like a melody." --Diane Ackerman, recalling her beloved Appaloosa mare Horses have inspired devotion, awe, and love in their human companions for millennia; in Horse People more than forty acclaimed writers and artists share their own passion for these magical, mythical animals. Horse People includes deeply moving reminiscences and stories as varied as Jane Smiley's memories of her return to riding and Rita Mae Brown's straight-from-the-horse's-mouth tale "told" by her horse, Peggy Sue Brown. A wide range of artistic mediums are represented as well: Painter Jamie Wyeth evokes dreamlike memories of a rural past; photographer John Derryberry captures the untamed beauty of wild stallions in Kashmir. Read this moving anthology and "you too will yearn to connect--or reconnect--with horses" (Town & Country).

At last, a major American poet collected for the first time in the sixth volume of

the definitive Library of Edition of her works In his last book, Harold Bloom presents the earthy, surprising, and lyrical poetry of Ursula K. Le Guin Ursula K. Le Guin's career began and ended with poetry. This sixth volume in the definitive Library of America edition of her works gathers, for the first time, her collected poems—from her earliest collection *Wild Angels* (1974) through her final publication, the collection *So Far So Good*, which she delivered to her editor just a week before her death in 2018. The themes explored in the poems gathered here resonate through all Le Guin's oeuvre, but find their strongest voice in her poetry: exploration as a metaphor for both human bravery and creativity, the mystery and fragility of nature and the impact of humankind on their environment, the Tao Te Ching, marriage, womanhood, and even cats. Le Guin's poetry is often traditional in form but never in style: her verse is earthy, surprising, and lyrical. Including some 40 poems never before collected, this volume restores to print much of Le Guin's remarkable verse. It features a new introduction by editor Harold Bloom, written before his death in 2019, in which he reflects on the power of Le Guin's poems, which he calls "American originals." It also features helpful explanatory notes and a chronology of Le Guin's life.
