MATHEWS MOHAMMED

Law 101 Harvard University Press

Provides a guide to preparing for and pursuing a career in law, including tips on studying for the LSAT, advice on choosing a law school, and a survey of career options

E-learning Theory and Practice SAGE

10,000 entries cover vocabulary, etymologies, definitions, concepts, the judicial system, landmark cases, and government agencies

Profiles of Traditional and Non-traditional Careers Simon and Schuster

This primer on legal reasoning is aimed at law students and upper-level undergraduates. But it is also an original exposition of basic legal concepts that scholars and lawyers will find stimulating. It covers such topics as rules, precedent, authority, analogical reasoning, the common law, statutory interpretation, legal realism, judicial opinions, legal facts, and burden of proof.

Mediation Ethics MIT Press

Do you know your legal rights and responsibilities if you're buying or selling a home, applying for a job, or getting a divorce? Are you baffled by the legalese used in contracts, insurance policies, warranties, and other documents? If you want to protect both yourself and your family from the many legal problems that have become commonplace in today's society, you don't need a law degree—all you need is a basic understanding of the law. Whether you're a consumer, employee, or small business owner, *Law For Dummies* will help you discover your legal rights, responsibilities, and obligations in a wide range of areas. Best of all, this friendly guide will also improve your understanding of how to use laws without resorting to attorneys! You can use this book to answer specific questions about the law as it relates to particular areas of your life or you can use it as a guide to low-cost or no-cost sources of legal advice, including government agencies and nonprofit organizations. *Law For Dummies* is packed with the tools and resources you need to make informed legal decisions. You'll become familiar with a variety of laws that can affect you personally—from retirement, health care, and housing laws to personal finance, employment, divorce, and privacy laws. You'll also discover how to: Make sense of the U.S. legal system Resolve legal problems as quickly as possible with a minimum amount of money and stress Correct errors on your credit report Prepare wills and other legal documents Avoid legal hassles when running a business Protect your rights at work Collect child support If you're like many Americans today, you probably feel overwhelmed by the rules, regulations, and red tape that seem to govern and complicate every aspect of your daily life. With *Law For Dummies* you can boost your legal know-how and solve a

number of everyday legal problems that may come your way.

Arizona Laws 101 John Wiley & Sons Incorporated

What happens if *Roe v. Wade* is overturned? When can you legally use self-defense? How the hell does the Electoral College work, and who came up with it anyway? We hear about the law everywhere, from our social media feeds to 24/7 news coverage, and even heated debates with friends and family. But do the people we're listening to really understand the law, or how it works? *The Law Says What?* offers a crash course on some of the most bizarre, infuriating, and vitally important legal topics of today. You'll explore the reasons behind laws that affect your everyday life using real-world cases that might make your head spin. Your mind will be blown and your sides may hurt from laughing as you learn more about criminal law, civil law, contract law, property law, tort law, international law, and courtroom procedure than even those cable newscasters know. You'll discover: Why the police don't actually have a legal duty to protect you How marijuana is both legal and illegal at the same time How you can be charged for murder without actually killing anyone How someone can legally steal your land just by keeping it long enough Why the government can confiscate your possessions without ever charging you for a crime Harvard Law School graduate and practicing attorney Maclen Stanley has already had all the boring laws so you don't have to, condensing the real-world legal cases into fascinating stories with valuable information. You'll feel like you're having a conversation with a friend, rather than reading your mortgage disclosures. This book will help you make better decisions and have deeper conversations about the most important laws that affect you, your family, and your friends on a daily basis. And along the way, you'll see that, in practice, the law—much like the human beings that create and enforce it—is actually pretty weird.

The Conservative Campaign to Roll Back the Common Law Oxford University Press, USA

Completely revised and updated, *So You Want to Be a Lawyer* takes you through the process of becoming a lawyer, examining each phase in a helpful and easy-to-understand narrative. Find out what practicing law is like before you step into your first law school class. Practice solving legal problems as law students would in law school and lawyers might in an actual courtroom. Find out how to get into law school. And there's much more: •Advice on how to select a law school, along with names and addresses of American Bar Association (ABA)-approved law schools •An explanation of the law school admissions process, and ways to improve your chances for getting in •Practical exercises and advice that will give you a head start over other first-year law students •Information about career opportunities as a lawyer Written by three experienced lawyers, this book will help you understand the types of problems facing law students and lawyers on a daily basis. Not only will it prepare you for law school, but it will also become your trusted guide on the path to becoming a successful lawyer.

The Law Says What? Sourcebooks, Inc.

A handy guide to legal wisdom past and present. To be a lawyer or a politician or a judge, one must dedicate their lives to serving the public good. For anyone considering a career in law or anyone interested in philosophy, politics, and/or government, herein you will find an entertaining and educational collection of legal wisdom from some of history's greatest thinkers. The road to justice is not always easy. It is fraught with conflict, scandal, adversity, and sleepless nights. It is a noble and necessary pursuit as society continues to progress and seek equality for all. Words from renowned lawyers, judges, authors, politicians, philosophers, and preachers make up this diverse assortment of over two hundred memorable, bite-sized quotations about justice, philosophy, crime, the life of a lawyer, landmark cases, and more! Included are such quotations as: "Let all laws be clear, uniform, and precise; to interpret laws is almost always to corrupt them." —Voltaire "If in your own judgment you cannot be an honest lawyer, resolve to be honest without being a lawyer." —President Abraham Lincoln "The first duty of society is justice." —Alexander Hamilton "A system of justice is the richer for diversity of background and experience." —U.S. Supreme Court Justice Ruth Bader Ginsburg

A Handbook for Non-lawyers Three Rivers Press (CA)

This brief book is designed to prepare students for their first year of law school, thereby decreasing their anxiety and increasing their chances of achieving academic success. Also appropriate for non-J.D. students, including LLM students from foreign countries and graduate students outside law school. Features: Gives student basic grounding in discrete non-legal topics that are important to the contemporary study of law Includes "Test Your Understanding" boxes to allow students to use what they are learning Friendly writing style Images and graphics help students remember material

The Law of Superheroes Carolina Academic Press

Discover the ins and outs of Constitutional law Are you a student looking for trusted, plain-English guidance on the ins and outs of Constitutional law? Look no further! *Constitutional Law For Dummies* provides a detailed study guide tracking to this commonly required law course. It breaks down complicated material and gives you a through outline of the parameters and applications of the U.S. Constitution in modern, easy-to-understand language. Critical information on the Constitution's foundations, powers, and limitations A modern analysis of the Constitution's amendments Detailed information on the Supreme Court and federalism Explaining outdated governmental jargon in current, up-to-date terms, *Constitutional Law For Dummies* is just what you need for quick learning and complete understanding. Students studying government will also find this to be a useful supplement to a variety of courses.

How to Excel on Law School Exams CreateSpace

In each of the first three editions of the bestselling *Law 101*, Jay Feinman gave readers an upbeat and vivid examination of the American legal system. Since the third edition was published in 2010, much has happened: several key Supreme Court cases have been decided, we've seen sensational criminal trials, and the legal system has had to account for the latest developments in Internet law. This fully updated fourth edition of *Law 101* accounts for all this and more, as Feinman once again provides a clear introduction to American law. The book covers all the main subjects taught in the first year of law school, and discusses every facet of the American legal tradition, including constitutional law, the litigation process, and criminal, property, and contracts law. To accomplish

this, Feinman brings in the most noteworthy, infamous, and often outrageous examples and cases. We learn about the case involving scalding coffee that cost McDonald's half a million dollars, the murder trial in Victorian London that gave us the legal definition of insanity, and the epochal decision of *Marbury vs. Madison* that gave the Supreme Court the power to declare state and federal law unconstitutional. A key to learning about the law is learning legal vocabulary, and Feinman helps by clarifying terms like "due process" and "equal protection," as well as by drawing distinctions between terms like "murder" and "manslaughter." Above all, though, is that Feinman reveals to readers of all kinds that despite its complexities and quirks, the law is can be understood by everyone. Perfect for students contemplating law school, journalists covering legislature, or even casual fans of "court-television" shows, *Law 101* is a clear and accessible introduction to the American legal system. New to this edition: Featured analysis of: -the Obamacare case -Citizens United -the DOMA decision -the Trayvon Martin case As well as recent legal developments pertaining to: -online contracting -mortgages -police investigations -criminal sentencing

Peculiar Institution Oxford University Press, USA

A guide for individuals buying, selling, and advertising over the Internet discusses the legal issues regarding e-commerce, including domain names, liability, digital signatures, Internet taxation, and privacy rights.

Law 101 Simon and Schuster

Professors Fischl and Paul explain law school exams in ways no one has before, all with an eye toward improving the reader's performance. The book begins by describing the difference between educational cultures that praise students for "right answers," and the law school culture that rewards nuanced analysis of ambiguous situations in which more than one approach may be correct. Enormous care is devoted to explaining precisely how and why legal analysis frequently produces such perplexing situations. But the authors don't stop with mere description. Instead, Getting to Maybe teaches how to excel on law school exams by showing the reader how legal analysis can be brought to bear on examination problems. The book contains hints on studying and preparation that go well beyond conventional advice. The authors also illustrate how to argue both sides of a legal issue without appearing wishy-washy or indecisive. Above all, the book explains why exam questions may generate feelings of uncertainty or doubt about correct legal outcomes and how the student can turn these feelings to his or her advantage. In sum, although the authors believe that no exam guide can substitute for a firm grasp of substantive material, readers who devote the necessary time to learning the law will find this book an invaluable guide to translating learning into better exam performance. "This book should revolutionize the ordeal of studying for law school exams... Its clear, insightful, fun to read, and right on the money." — Duncan Kennedy, Carter Professor of General Jurisprudence, Harvard Law School "Finally a study aid that takes legal theory seriously... Students who master these lessons will surely write better exams. More importantly, they will also learn to be better lawyers." — Steven L. Winter, Brooklyn Law School "If you can't spot a 'fork in the law' or a 'fork in the facts' in an exam hypothetical, get this book. If you don't know how to play 'Czar of the Universe' on law school exams (or why), get this book. And if you do want to learn how to think like a lawyer—a good one—get this book. It's, quite simply, stone cold brilliant." — Pierre Schlag, University of Colorado School of Law (Law Preview Book Review on The Princeton Review website)

1001 Legal Words You Need to Know LexisNexis

I WISH I KNEW THEN WHAT I KNOW NOW! Don't get to the end of your law school career muttering these words to yourself! Take the first step toward building a productive, successful, and perhaps even pleasant law school experience—read this book! Written by students, for students, Law School Confidential has been the "must-have" guide for anyone thinking about, applying to, or attending law school for more than a decade. And now, in this newly revised third edition, it's more valuable than ever. This isn't the advice of graying professors or battle-scarred practitioners long removed from law school. Robert H. Miller has assembled a blue-ribbon panel of recent graduates from across the country to offer realistic and informative firsthand advice about what law school is really like. This updated edition contains the very latest information and strategies for thriving and surviving in law school—from navigating the admissions process and securing financial aid, choosing classes, studying and exam strategies, and securing a seat on the law review to getting a judicial clerkship and a job, passing the bar exam, and much, much more. Newly added material also reveals a sea change that is just starting to occur in legal education, turning it away from the theory-based platform of the previous several decades to a pragmatic platform being demanded by the rigors of today's practices. Law School Confidential is a complete guide to the law school experience that no prospective or current law student can afford to be without.

[Experimenting in the Humanities and the Social Sciences](#) Sourcebooks, Inc.

"This is a must-read for every student, lecturer and professor. It establishes Internet Studies as essential to an understanding of how learners and educators can capture the value of our networked world." Professor William H. Dutton, Director of the Oxford Internet Institute, University of Oxford In E-learning Theory and Practice the authors set out different perspectives on e-learning. The book deals with the social implications of e-learning, its transformative effects, and the social and technical interplay that supports and directs e-learning. The authors present new perspectives on the subject by: - exploring the way teaching and learning are changing with the presence of the Internet and participatory media - providing a theoretical grounding in new learning practices from education, communication and information science - addressing e-learning in terms of existing learning theories, emerging online learning theories, new literacies, social networks, social worlds, community and virtual communities, and online resources - emphasising the impact of everyday electronic practices on learning, literacy and the classroom, locally and globally. This book is for everyone involved in e-learning. Teachers and educators will gain an understanding of new learning practices, and learners will gain a sense of their new role as active participants in classroom and lifelong learning. Graduate students and researchers will gain insight into the direction of research in

Law 101Oxford University Press (UK)

An Essential Reference for Your Everyday Legal Questions Wolters Kluwer

This multimedia platform combines a book and video series that will change the way you study constitutional law. An Introduction to Constitutional Law teaches the narrative of constitutional law as it has developed over the past two centuries. All students—even those unfamiliar with American history—will learn the essential background information to grasp how this body of law has come to be what it is today. An online library of sixty-three videos (access codes provided with purchase of the book) brings the Supreme Court's one hundred most important decisions to life. These videos are enriched by photographs, maps, and even audio from the Supreme Court. The book and videos are accessible for all levels: law school, college, high school, home school, and independent study. Students can read and watch these materials before class to prepare for lectures or study after class to fill in any gaps in their notes. And, come exam time, students can watch the entire canon of constitutional law in about twelve hours.
