This is a manual for teachers in Education for Democratic Citizenship (EDC) and Human Rights Education (HRE), EDC/HRE textbook editors and curriculum developers. Nine teaching units of approximately four lessons each focus on key concepts of EDC/HRE. The lesson plans give step-by-step instructions and include student handouts and background information for teachers. In this way, the manual is suitable for trainees or beginners in the teaching profession and teachers who are receiving in-service teacher training in EDC/HRE. Experienced teachers may draw on the ideas and materials. The complete manual provides a full school year's curriculum for students in upper secondary school (grades 10 to 12), but

as each unit is also complete in itself, the manual allows great flexibility of use. The objective of EDC/HRE is the active citizen who is willing and able to participate in the democratic community. Therefore, EDC/HRE strongly emphasises action and task-based learning. This manual for upper secondary level focuses on key competences that enable young people to participate in democratic decision making and to meet the challenges of a dynamic pluralist society. Key concepts of EDC/HRE are taught as tools of lifelong learning.

This title was first published in 1999: The author contends that economic democracy is the economic system the U.S. purports to have, but has thus far failed to achieve because it, like all the economic powers that have gone before, seeks to control the economies of weaker nations. It is the shocking lack of economic democracy, and the efforts of so many to achieve it, that fuels today's conflicts and will fuel those of the 21st century. To show how and why, this comprehensive work provides a detailed analysis of the history of numerous aspects of the development of the Neo-Mercantilist world economy; the geopolitical systems put in place by the developed world to manage and perpetuate that economy; and the

numerous proposals and modeling plans that have been offered over the years for the achievement of economic democracy.
