 When the Vikings kidnap Justforkix, the timid but very trendy son of one of Chief Vitalstatistix' closest and most powerful friends, believing he has the key to the secret of the magic potion, Asterix and Obelix are sent on one of their most dangerous missions. For they must voyage north to the Vikings' home territory and rescue Justforkix, before the Vikings find out he is not who they think he is, and make him pay the price.  Comics are a pervasive art form and an intrinsic part of the cultural fabric of most countries. And yet, relatively little has been written on the translation of comics. *Comics in Translation* attempts to address this gap in the literature and to offer the first and most comprehensive account of various aspects of a diverse range of social practices subsumed under the label 'comics'. Focusing on the role played by translation in shaping graphic narratives that appear in various formats, different contributors examine various aspects of this popular phenomenon. Topics covered include the impact of globalization and localization processes on the ways in which translated comics are embedded in cultures; the import of editorial and publishing practices; textual strategies adopted in translating comics, including the translation of culture- and language-specific features; and the interplay between visual and verbal messages. *Comics in translation* examines comics that originate in different cultures, belong to quite different genres, and are aimed at readers of different age groups and cultural backgrounds, from Disney comics

to Art Spiegelman's *Maus*, from Katsuhiro Ōtomo's *Akira* to Goscinny and Uderzo's *Astérix*. The contributions are based on first-hand research and exemplify a wide range of approaches. Languages covered include English, Italian, Spanish, Arabic, French, German, Japanese and Inuit. The volume features illustrations from the works discussed and an extensive annotated bibliography. Contributors include: Raffaella Baccolini, Nadine Celotti, Adele D'Arcangelo, Catherine Delesse, Elena Di Giovanni, Heike Elisabeth Jüngst, Valerio Rota, Carmen Valero-Garcés, Federico Zanettin and Jehan Zitawi.

Asterix and the Class Act Distribooks Incorporated

Witty and poignant, this collection of semi-autobiographical tales focuses on love, despair, lost friendships, and the murky morality of stealing from work. Known for being one of the funniest series ever published in comics form, *Lowlife* dissects the Slacker / Generation X lifestyle from the inside out, bringing a great amount of humanity to the process along the way.

La Universidad de La Rioja organiza el Congreso Internacional 'Imagines. La

Antigüedad en las artes escénicas y visuales' que tendrá lugar del 22 al 24 de octubre. Este encuentro científico reunirá a expertos académicos de diversos campus de España, Italia, Alemania, Inglaterra y Francia en torno al legado artístico y cultural del mundo antiguo. Desde el siglo XVII, la Antigüedad se convirtió en un modelo a seguir, en una escuela de virtud pública y privada, tesoro de preceptos morales y personajes ejemplares. Esta circunstancia ha abierto una línea de investigación, todavía minoritaria, como es la 'Recepción' de la Antigüedad en ámbitos tan variados como la política, el derecho, el arte, la literatura. El Congreso Internacional 'Imágenes. La Antigüedad en las artes escénicas y visuales' se entronca en esta línea de investigación. A lo largo de tres jornadas, del 22 al 24 de octubre, el programa académico se desarrollará en torno a tres ejes principales: el legado de la Antigüedad en las Artes Escénicas (Teatro, Cine y Opera); en las Artes Visuales (Arquitectura, Escultura, Pintura y Artes Decorativas); y el uso didáctico en los niveles de enseñanza secundaria y superior para mostrar la actualidad de "lo

antiguo."

Classical archaeology probably enjoys a wider appeal than any other branch of classical or archaeological studies. As an intellectual and academic discipline, however, its esteem has not matched its popularity. Here, Anthony Snodgrass argues that classical archaeology has a rare potential in the whole field of the study of the past to make innovative discoveries and apply modern approaches

by widening the aims of the discipline.

Balbino, "a boy from a village", a "nobody" who writes a notebook about everything that happens to him within the repressed and stifling society of Galicia in the thirties and forties. He tells of the moral and social atmosphere that prevails asking and answering questions and details the most elemental social struggle. There is also however the story of a true but impossible love. This book was first printed in Argentina in 1961 and became one of the most successful Galician books published. It has a lyrical style that immediately evokes sights and sounds of this part of Spain. The author Xosé Neira Vilas writes from his experiences of the era and the lifestyle of boys growing up in that society and provides a rich insight to life of the peasant boy "Balbino".
