Slavery is back. America, 1962. Having lost a war, America finds itself under Nazi Germany and Japan occupation. A few Jews still live under assumed names. The 'I Ching' is prevalent in San Francisco. Science fiction meets serious ideas in this take on a possible alternate history.

First on the Rope - the acclaimed English translation of the French fiction classic *Premier de Cordée* by Roger Frison-Roche - is a tale about the harsh lives of mountain guides and their families in the French Alps in the 1920s and 1930s. An ascent of Mont Blanc as porter with his uncle leaves young Pierre further convinced he wants to be a mountaineer, breathing the crisp, pure air and soaking up the splendour of the wild landscape. But his family have other ideas. Chamonix is becoming ever more popular with tourists wanting their thrills on the slopes, and they all need somewhere to stay. Running a hotel, however, is not Pierre's idea of fulfilment. Among the glittering peaks and desolate passes, wonderful sunsets and wild winds, tragedy strikes across the Vallée Blanche on the Dru: a brutal storm leaves sadness and destruction in its wake. Can the onset of spring and the hope it brings rebuild Pierre's passion for

climbing? First on the Rope epitomises the rhythm of mountain life, the clanking cowbells and the gurgling streams set against the formidable grandeur of the ice and rock. Equip yourself for an immersive and emotive experience in the high Alps.

Published in 1990 under the title *Los mitos del tlacuache*, this is the first major theoretical study of Mesoamerican mythology by one of the foremost scholars of Aztec ideology. Using the myth cycle of the opossum and the theft of fire from the gods as a touchstone, López Austin constructs a definition of myth that pertains to all of Mesoamerican culture, challenging the notion that to be relevant such studies must occur within a specific culture. Shown here is that much of modern mythology has ancient roots, despite syncretism with Christianity, and can be used to elucidate the pre-Columbian world view. Analysis of pre-Columbian myths can also be used to understand current indigenous myths. Subtopics include the hero and his place in the Mesoamerican pantheon, divine space and human space, mythic event clusters, myth as truth, and the fusion of myth and history.

The ascent of Nanga Parbat in 1970 marked the beginning of Reinhold Messner's remarkable career in Himalayan climbing. But this expedition has always been shrouded in controversy and mystery; his brother Günther, who accompanied him, met his death In *The Naked Mountain* Messner gives his side of the story in full for the first time. This most personal account is a story of death and survival .... and for those who want to understand what is the force that drives Messner on, this book is the key. 'Nothing if not passionate, Messner writes of the Himalayan experience with

a nearly mystical fervour. His description of catastrophe at high altitude is page-turning.' Rock & Ice 'A gripping piece of writing ... The translation reads like a good thriller, drawing the reader back through historical epics; treading the footsteps of climbers right on the edge of things...' Scottish Mountaineer AUTHOR: Legendary mountaineer Reinhold Messner has written many books including All 14 Eight-Thousanders for Crowood. 152 illustrations

Gilles Lipovetsky, French social theorist, argues that we've entered a new phase of 'hypermodernity', characterized by hyper-consumption and the hypermodern individual.

Hyperconsumption is a consumption which absorbs and integrates more and more spheres of social life and which encourages individuals to consume for their own personal pleasure rather than to enhance their social status.

Hypermodernity is a society characterized by movement, fluidity and flexibility, distanced more than ever from the great structuring principles of modernity. And the hypermodern individual, while oriented towards pleasure and hedonism, is also filled with the kind of tension and anxiety that comes from living in a world which has been stripped of tradition and which faces an uncertain future.

One of the most important texts of modern times, Herbert Marcuse's analysis and image of a one-dimensional man in a one-dimensional society has shaped many young radicals' way of seeing and experiencing life. Published in 1964, it fast became an ideological bible for the emergent New Left. As Douglas Kellner notes in his introduction, Marcuse's greatest work was a 'damning indictment of contemporary Western societies, capitalist and communist.' Yet it also expressed the hopes of a radical philosopher that human freedom and happiness could be greatly expanded beyond the regimented thought and behaviour prevalent in established society. For those who held the reigns of power Marcuse's call to arms threatened civilization to its very core. For many others however, it represented a freedom hitherto unimaginable.

A book that will delight students... Key Texts in Human Geography is a primer of 26 interpretive essays designed to open up the subject's landmark monographs of the past 50 years to critical interpretation... The essays are uniformly excellent and the enthusiasm of the authors for the project shines through... It will find itself at the top of a thousand module handouts. - THE Textbook Guide "Will surely become a 'key text' itself. Read any chapter and you will want to compare it with another. Before you realize, an afternoon is gone and then you are tracking down the originals." - Professor James Sidaway, University of Plymouth 'An essential synopsis of essential readings that every human geographer must read. It is highly recommended for those just embarking on their careers as well as those who need a reminder of how and why geography moved from the margins of social

thought to its very core." - Barney Warf, Florida State University Undergraduate geography students are often directed to 'key' texts in the literature but find them difficult to read because of their language and argument. As a result, they fail to get to grips with the subject matter and gravitate towards course textbooks instead. Key Texts in Human Geography serves as a primer and companion to the key texts in human geography published over the past 40 years. It is not a reader, but a volume of 26 interpretive essays highlighting: the significance of the text how the book should be read reactions and controversies surrounding the book the book's long-term legacy. It is an essential reference guide for all students of human geography and provides an invaluable interpretive tool in answering questions about human geography and what constitutes geographical knowledge.

An eye-opening biography of one of the most influential psychiatrists of the modern age, drawing from his lectures, conversations, and own writings. "An important, firsthand document for readers who wish to understand this seminal writer and thinker." —Booklist In the spring of 1957, when he was eighty-one years old, Carl Gustav Jung undertook the telling of his life story. *Memories, Dreams, Reflections* is that book, composed of conversations with his colleague and friend Aniela Jaffé, as well as chapters written in his own hand, and other materials. Jung continued to work on the final stages of the manuscript until shortly before his death on June 6, 1961, making this a uniquely comprehensive reflection on a remarkable life. Fully corrected, this edition also includes Jung's VII *Sermones ad Mortuos*.

La señora Spragg y su acompañante estaban entronizadas en grandes sillones dorados, en uno de los salones privados del Hotel Stentorian. A las habitaciones que ocupaban los Spragg se las conocía como una de las suites Looey, y las paredes del salón estaban parcialmente forradas de reluciente caoba, tapizadas con seda de damasco de color rosa salmón y decoradas con retratos ovales de María Antonieta y la princesa de Lamballe. En el centro de la alfombra de flores había una mesa dorada con la superficie de ónice mexicano, que sostenía una palmera en un cesto igualmente dorado y adornado con un lazo rosa. A excepción de la palmera y un ejemplar de *El perro de los Baskerville*, la habitación no mostraba otros indicios de ocupación humana, y la actitud de la propia señora Spragg era de absoluta indiferencia, como una figura de cera en una vitrina. Su elegante indumentaria justificaba esta pose, al tiempo que su rostro, de mejillas pálidas y suaves, con los párpados hinchados y la boca caída, recordaba al de una figura de cera semiderretida, a resultas de lo cual le hubiera salido aquella papada.

Collecting David Harvey's finest work on Paris during the second empire, *Paris, Capital of Modernity* offers brilliant insights ranging from the birth of consumerist spectacle on the Parisian boulevards, the creative visions of Balzac, Baudelaire and Zola, and the reactionary cultural politics of the bombastic Sacre Couer. The book is heavily illustrated and includes a number drawings, portraits and cartoons by Daumier, one of the greatest political caricaturists of the nineteenth century.

\* A mountaineering classic re-released in the Legends and Lore

series \* Two new chapters In Free Spirit Reinhold Messner describes the forces and events that have shaped him as a climber as famous for his discipline as for his innovative spirit. Messner evolved his philosophy of the single free-climbing line with its uncompromising purity of style in the Dolomites and, as equipment and technique developed, he was in the forefront of the transference of fast lightweight alpine methods to the great ranges. Here, he takes us from the days of his first climb (at the age of five) with his father to his brother's tragic death on Nanga Parbat in 1970 to his later move away from the overcrowded Alps and 8000-meter peaks. He sought fulfillment, instead, in new challenges in lesser known parts of the world, such as crossing the expanse of Antarctica. Free Spirit is an exciting account of the career of a mountain pioneer.
