Proceedings of the Eighth International Conference of Ethiopian Studies, University of Addis Ababa, 1984 Leuven University Press
"This interdisciplinary, international, and multi-lingual collection of essays explores a broad range of issues related to hospitality and hostility, in literary and cultural contexts from antiquity to the present. Insightful theoretical and historical discussions undergird richly detailed particular studies. The central focus

unifies the diverse pieces, which are original, well-researched and reasoned, and clearly written. A solid contribution to scholarship in several fields (including linguistics, anthropology and Internet culture), the volume is also enjoyable to read. Its lively and appealing pieces on recent novels and contemporary trends lend a fresh and contemporary feel." -Prof. Pamela S. Saur, Lamar University, Texas

Archaeological and Historical Aspects of West-European Societies Рипол Классик

The contents of this volume of essays in his honour gives a good overview of the fields in which Prof. Van Doorselaer has been

active throughout his academic career. This book is especially an Album Amicorum, filled with reminiscences and intentions to continue the work. The voluminous size of this book may be considered as an adequate measure of the overall sympathy for Prof. Van Doorselaer. We hope that this publication may encourage him to remain active in the field of archaeology, and that the co-operation among colleagues, stimulated by this project, may be continued in the future.

Asceticism and Christological Controversy in Fifth-Century Palestine BRILL

"Brief table of contents of vols. I-XX" in v. 21, p. [502]-618.

Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954 NYU Press

The Life of Peter the Iberian by John Rufus records the ascetic struggle of a fifth-century anti-Chalcedonian bishop of Mayyuma, Palestine. Cornelia Horn presents a historical-critical study of the only substantial anti-Chalcedonian witness to the history of the conflict in Palestine and analyses the formative period of fifth-century anti-Chalcedonian hierarchy, theology, and its ascetic expression. Important themes are pilgrimage as an ascetic ideal and asceticism as source of theological authority. Archaeological data on many places in the Levant and textual sources in Syriac, Coptic, Greek, Armenian, and Georgian are examined. This book contributes to our understanding of the origins of anti-Chalcedonian theology and the influence of asceticism on its development, the Christian topography of the Levant, and the history of the anti-Chalcedonian movement in Palestine.

La vie est remplie de mystères. Est-ce possible de trouver de

l'ordre dans le chaos? Y a-t-il des solutions aux problèmes de tous les jours? Existe-t-il un sens et un but à la vie? Peut-on savoir pourquoi on est ici et où on va? Pourquoi y a-t-il tant de souffrance et de mort? Y a-t-il une vie après la mort? Peut-on le savoir ici-même sur terre? Suis-je destiné à perdre mon identité et me transformer en vide? Est-ce vrai qu'il n'existe aucune réponse à ces questions? Il y a un livre ancien, « La Sainte Bible », qui se penche sur toutes ces questions primordiales. Mais peut-on s'y fier? Pour tirer vos propres conclusions, il faut savoir ce qu'il dit au juste. Par ce nom écarte la religion de ce livre sacré, la Bible, et permet au récit de parler de lui-même. Dans le processus, un message d'espoir surgit. C'est un livre à ne pas rater. « J'ai compris des choses que je n'avais jamais comprises auparavant. Cela ressemblait à des pièces d'un casse-tête qui s'assemblaient. Le message avait du sens. »

This valuable collection of thirteen studies provides an overview of recent research on central issues concerning the history of late antique Gaza. Several essays address various aspects of the continuity of pagan culture in Christian Gaza, festivals, spectacles, and the classical legacy of the fifth and sixth centuries, thus highlighting the public life of the city as a unique synthesis of the new and old worlds. Several articles deal with central topics pertaining to the monastic life developed in the region of Gaza and its vicinity between the fourth and seventh centuries. More specifically, they explore the rich Correspondence of Barsanuphius and John, the spiritual leaders of

this monastic community. Two papers furnish an archeological survey of the monasteries of Gaza, and a discussion on the geographical and administrative aspects of its territory. Certain articles focus on the anti-Chalcedonian resistance of this monastic center in the wake of the council of Chalcedon, while others tackle the change of its stance in the time of Emperor Justin (518-527). In sum, this book covers a relatively neglected chapter in the complex and fascinating Christian history of the Holy Land.

Nearly all discussions regarding the role of religion in American life build on two dominant assumptions: first, the separation of church and state is a constitutional principle that promotes democracy and equally protects the religious freedom of all Americans, especially religious outgroups; and second, this principle emerges as a uniquely American contribution to political theory. In *Please Don't Wish Me a Merry Christmas*, Stephen M. Feldman challenges both these assumptions. He argues that the separation of church and state primarily manifests and reinforces Christian domination in American society. Furthermore, Feldman reveals that the separation of church and state did not first arise in America, either at the time of the constitutional framing or later. In challenging the dominant story of the separation of church and state, *Please Don't Wish Me a Merry Christmas* follows the historical path of two institutions - the Christian church and the state - from the origins of Christianity forward to the present day. Feldman thus focuses on the workings of power in a specific context: he interprets the development of Christian social power

vis-a-vis the state and religious minorities, particularly the prototypical religious outgroup, Jews.

Mal-être, souffrances psychiques, sexualité en berne, dépendance aux écrans, rapport démesuré au travail, perte de sens, solitude... Ces manifestations pointent toutes vers la souffrance de notre âme. Or si les psychothérapies et la pharmacologie sont précieuses, elles ne permettent pas de la « guérir ». Et pour cause, tous ces troubles ont leur origine au plus profond de nous, au-delà de notre biologie et de notre mental. Ils renvoient à des tensions intérieures que les plus grandes traditions spirituelles de l'humanité ont identifiées, explorées et accompagnées. Leur soin relève non pas tant d'un traitement que d'une Sagesse de vie. Dès les premiers siècles du christianisme, les Pères du désert ont développé une véritable « pharmacie de l'âme » dont la vertu est de contribuer à la santé spirituelle. Leur médecine, considérée comme « l'art des arts et la science des sciences », est faite de sobriété, de pratiques méditatives et d'hospitalité. Elle apparaît d'une urgente actualité et d'une étonnante pertinence. Pour apprendre à mieux vivre, laissez-vous guider par ces thérapeutes, véritables médecins de l'intériorité. Alors, vous prendrez soin de votre âme et vous cultiverez votre écologie intérieure.

Progress in the numerical simulation of turbulence has been rapid in the 1990s. New techniques both for the numerical approximation of the Navier-Stokes equations and for the subgrid-scale models used in large-eddy simulation have emerged and are being widely applied for both fundamental and applied engineering studies, along with novel ideas for the performance and use of simulation for compressible, chemically reacting and transitional flows. This collection of papers from the second ERCOFTAC Workshop on Direct and Large-Eddy Simulation, held in Grenoble in September 1996, presents the key research being undertaken in Europe and Japan on these topics. Describing in detail the ambitious use of DNS for fundamental studies and of LES for complex flows of potential and actual engineering importance, this volume will be of interest to all researchers active in the area.
