This book presents the incredible journey of Avadhoota Nandananda as he transforms from an inquisitive, young man to one who achieves the highest spiritual awakening under the guidance of his spiritual Master. He takes the plunge into the relatively anonymous world of pure spirituality beyond all comfort zones and emotions that an average human being can never imagine. Join us on Nandananda's journey to the unfathomable, unimaginable and unthinkable as he travels across the length and breadth of India overcoming all odds to finally reach Gyanganj (Shambala), the causal layer of earth and the world of Avadhootas located somewhere in Tibet. Walking without money, without shelter, without even any clear destination as a wandering monk surrendered completely to his spiritual Master, he elevates his awareness and establishes himself completely and firmly in the path of Avadhootas. Upon receiving the highest

spiritual knowledge, he returns and dedicates his life to serving humanity. Welcome to the journey of a lifetime that takes us through the mind and life of a simple man, a staunch spiritualist, a man of uncanny tenacity and conviction, a super human, a complete disciple who never asked his Master "WHY?". The exceptional story of a living master, Avadhoota Nandananda. The Man. The Vulnerability. The Tenacity. The Determination. The Grace. The Purpose. The Miseries. The Masters! "A Masterpiece beyond definitions! The journey of a thinking man into the unthinkable realms of true spirituality, guided by his powerful guru, chiseled through unforgiving lifestyles in the toughest terrains of Himalayas, to great heights of super conscious existence! A modern day epic. A must read indeed" -- Mohanji

Hinduism is the Ancient Indian Caste system, which consists of the Vedic studies like Astrology, Magic, Psychology, Geography, etc. when we come across the Magic studies, it consists of White magic, Black Magic, Occultism and Witchcraft to get the supernatural dark powers, to dominate the enemies by physically and mentally, to know the future, to find the treasuries, and to communicate with the gods and the magical beings beyond the human eye or other dimensions. In the Ancient Hindu Black magic, the Lord Shiva discussed the different manifestation forms of him and Divine mother Parvathy, which are invoked and evocated for the magic and occult purposes to get the supernatural powers. In this book, we are discussed in detail about it and provided a brief explanation and rituals to get the occult powers and occult procedures to dominate the enemy in business, health, love, success and many more. The enemy can be

dominated in 4 forms.-By creating quarrel between him and his family or relatives or friends-By send him away from that place or even make him mad-By blocking his flow of energy in the body parts-By killing mantras We discussed many rituals regarding these 4 aspects, and also we discussed about the money magic, attraction magic, self-protection, communicating with the ghost to torture the enemy, and evocation procedure of a Yogini as per the readers and students request. The Yogini will follow the practitioner commands and fulfil his/her desires. In a single word, it is not just a book, it is a dictionary of Ancient Hindu black magic to defeat the enemy completely and make him run away from us. So, don't miss this book, and use for your growth.

This book can be downloaded as a PDF file from here. Prologue
 This is not a guide-book for studying any occult art. Instead it is a writing that proposes to take up the possibility of there being a real machinery behind the working of so-called mantra, tantra, evil eye, black magic, voodoo etc. This book does not teach any of the above mentioned arts. Yet, it does try to find a pathway or opening by which we can find or enter the supernatural arena from where the supernatural software codes of reality and life is designed and maintained. It is a writing that tries to discuss a probability that is not connected to material sciences. Instead it proposes to examine the possibility of there being a supernatural software application location wherein reality might be seen in the code view as-well-as the design view. These two views are apart from the real view, which is the physical reality. The ultimate aim of this book is to propose a pathway via which we can approach the supernatural software location, where all of reality, life, living organisms, brain software &c. are designed and maintained. This book is not a sudden writing on any impulse of the moment. I wrote my first book on codes in languages, *March of the Evil Empires; English versus the feudal languages*, around 1989. The final version of the book was completed around 2000. In the concluding part of that book, I did hint about the possibility of there being something akin to a software background to reality. And that languages are software applications with varied

capacities. In around the year 2005, I wrote a series of posts in a GB website on the same subject. It was basically a lot of unconnected themes all pointing to the same theme. This I later published as a digital book under the name: *Software codes of reality, life and languages*. Then my next major book on the subject came out with the name: *Codes of reality! What is language?* Here again the same theme of connecting the idea of there being a software realm behind reality and that languages have software codes which can directly connect to the software of reality was elaborated. The focus was on languages being sort of software applications through which physical reality could be influenced. Still, the theme was going forward only in very brief paces. A few years ago, I had to write a series of posts for supporting the contentions of Homoeopathy, by basing the ideas from my understandings. That Homoeopathy does work on the principle of a software program rectifying the software of life and human body. The book title was: *The machinery of Homœopathy!* Recently I happened to read Edgar Thurston's *Omens and Superstitions of Southern India*. It was at that time that I pondered upon reworking out the arguments from the perspective of mantra, tantra, black magic, witchcraft etc. The first thing I did was to create a very readable form of that book. As I went on doing that work, I could get to read the book also. This present book is being promoted as a *Commentary on Omens and Superstitions of Southern India*. However, only the last part of this book really is a sort of commentary. Even in that part, it is not exactly a commentary. I merely quoted some sentences from his book and elaborated upon them as per what I wanted to convey. Edgar Thurston's *Omens and Superstitions of Southern*

India is definitely a great book. My writings do not aim to go against that book. This book of mine does contain a lot of mentions about Thurston's book. This book commences by mentioning OMENS AND SUPERSTITIONS OF SOUTHERN INDIA. However, it moves beyond to a wider ambit. It returns to Thurston's book at the end as a commentary. However, a mention of Thurston's book can be felt all along. I have used a few images from other old public domain books. These images are mainly taken from my own collection from such books. Due to

some issues, I do not have the exact record as to where I got some of the images. I believe that such images have been taken from Edgar Thurston's Castes and Tribes of Southern India. Before commencing the reading of the book, the reader is further informed that in various locations, the text would seem to be dealing with cultural aspects. However, without clearly mentioning these things, it would difficult to go directly into the effects of supernatural software codes. DEVERKOVIL September 10th 2016
