"Can you give me the book that will tell me how to DO Christian education?" The Nuts & Bolts of Christian Education is designed to answer the most frequently asked questions by new as well as veteran teachers and leaders. Even though most churches provide teacher and leader training at least once a year, generally these one- or two-day sessions are unable to answer every question that arises during the year. The Nuts & Bolts of Christian Education is a practical guidebook that leads new and experienced teachers through the challenging, and sometimes confounding, landscape of the education ministry of a congregation. This is not a collection of lesson plans--it is a chock-full survey of nearly every aspect of Christian education one could imagine. DOING Christian Education starts here.

The Left is bulldozing through American history. We the People are the only ones who can stop them. America is on the verge of another Civil War. Socialism is on the rise. Free Speech is under assault. People of Faith are facing persecution. Gun owners are in the crosshairs. Our public schools have been turned into indoctrination centers. A leftist mob made up of socialist politicians, academic elites, raging feminists, and effete Pajama Boys has partnered with Antifa, illegal aliens, and other radical groups to finish what President Obama started—a fundamental transformation of our nation. Can America be saved? Political columnist, commentator, author, and radio host Todd Starnes addresses this issue and more in *Culture Jihad*. He believes that if good-hearted patriots rise up together we can stop the jihad. It is possible to keep America great.

More than seventy-five years after its publication, *Gone with the Wind* remains thoroughly embedded in American culture. Margaret Mitchell's novel and the film produced by David O. Selznick have melded with the broader forces of southern history, southern mythology, and marketing to become, and remain, a cultural phenomenon. *A Tough Little Patch of History* (the phrase was coined by a journalist in 1996 to describe the Margaret Mitchell home after it was spared from destruction by fire) explores how *Gone with the Wind* has remained an important component of public memory in Atlanta through an analysis of museums and historic sites that focus on this famous work of fiction. Jennifer W. Dickey explores how the book and film threw a spotlight on Atlanta, which found itself simultaneously presented as an emblem of both the Old South and the New South. Exhibitions produced by the Atlanta History Center related to *Gone with the Wind* are explored, along with nearby Clayton County's claim to fame as "the Home of *Gone with the Wind*," a moniker bestowed on the county by Margaret Mitchell's estate in 1969. There's a recounting of the saga of "the Dump," the tiny apartment in midtown Atlanta where Margaret Mitchell wrote the book, and how this place became a symbol for all that was right and all that was wrong with Mitchell's writing.
