Statistical power analysis has revolutionized the ways in which we conduct and evaluate research. Similar developments in the statistical analysis of incomplete (missing) data are gaining more widespread applications. This volume brings statistical power and incomplete data together under a common framework, in a way that is readily accessible to those with only an introductory familiarity with structural equation modeling. It answers many practical questions such as: How missing data affects the statistical power in a study How much power is likely with different amounts and types of missing data How to increase the power of a design in the presence of missing data, and How to identify the most powerful design in the presence of missing data. Points of Reflection encourage readers to stop and test their understanding of the material. Try Me sections test one's ability to apply the material. Troubleshooting Tips help to prevent commonly encountered problems. Exercises reinforce content and Additional Readings provide sources for delving more deeply into selected topics. Numerous examples demonstrate the book's application to a variety of disciplines. Each issue is accompanied

by its potential strengths and shortcomings and examples using a variety of software packages (SAS, SPSS, Stata, LISREL, AMOS, and MPlus). Syntax is provided using a single software program to promote continuity but in each case, parallel syntax using the other packages is presented in appendixes. Routines, data sets, syntax files, and links to student versions of software packages are found at www.psypress.com/davey. The worked examples in Part 2 also provide results from a wider set of estimated models. These tables, and accompanying syntax, can be used to estimate statistical power or required sample size for similar problems under a wide range of conditions. Class-tested at Temple, Virginia Tech, and Miami University of Ohio, this brief text is an ideal supplement for graduate courses in applied statistics, statistics II, intermediate or advanced statistics, experimental design, structural equation modeling, power analysis, and research methods taught in departments of psychology, human development, education, sociology, nursing, social work, gerontology and other social and health sciences. The book's applied approach will also appeal to researchers in these areas. Sections covering Fundamentals, Applications, and Extensions are designed to take readers from first steps to mastery.

The Loveday Vendetta (Loveday series, Book 11) Europa Edizioni

A retired assassin becomes a target in this "feverishly suspenseful . . . tour de force" by the author of the Dalziel and Pascoe mysteries (Publishers Weekly). Best known for his Dalziel and Pascoe novels, which were adapted into a hit BBC series, Reginald Hill proves himself to be a "master of . . . cerebral puzzle

mysteries” in his stand-alone thrillers as well—now available as ebooks (The New York Times). Jaysmith is a hit man highly regarded for his telescopic flair for the “long kill.” Until failing eyesight results in a career-first: Jaysmith misses his target. Perhaps it’s time to retire. Where better than the English Lake District? He’s fallen for beautiful young widow and single mother Anya Wilson, and has found himself a cozy cottage where he can hang up his M1. Just two problems: Anya’s loving father is the man he was hired to kill, and Jaysmith’s vicious handlers aren’t letting him—or his intended target—off the hook. Even if it means taking out Anya and her son with him. For Jaysmith, it’s going to be another first: defend, rather than destroy. But this time he’s really got to focus.

THE NEW YORK TIMES, WALL STREET JOURNAL, LOS ANGELES TIMES, AND USA TODAY BESTSELLER "A band of brothers in an American tank . . . Makos drops the reader back into the Pershing's turret and dials up a battle scene to rival the peak moments of *Fury*." —The Wall Street Journal From the author of the international bestseller *A Higher Call* comes the riveting World War II story of an American tank gunner's journey into the heart of the Third Reich, where he will meet destiny in an iconic armor duel—and forge an enduring bond with his enemy. When Clarence Smoyer is assigned to the gunner's seat of his Sherman tank, his crewmates discover that the gentle giant from Pennsylvania has a hidden talent: He's a natural-born shooter. At first, Clarence and his fellow crews in the legendary 3rd Armored Division—"Spearhead"—thought their

tanks were invincible. Then they met the German Panther, with a gun so murderous it could shoot through one Sherman and into the next. Soon a pattern emerged: The lead tank always gets hit. After Clarence sees his friends cut down breaching the West Wall and holding the line in the Battle of the Bulge, he and his crew are given a weapon with the power to avenge their fallen brothers: the Pershing, a state-of-the-art "super tank," one of twenty in the European theater. But with it comes a harrowing new responsibility: Now they will spearhead every attack. That's how Clarence, the corporal from coal country, finds himself leading the U.S. Army into its largest urban battle of the European war, the fight for Cologne, the "Fortress City" of Germany. Battling through the ruins, Clarence will engage the fearsome Panther in a duel immortalized by an army cameraman. And he will square off with Gustav Schaefer, a teenager behind the trigger in a Panzer IV tank, whose crew has been sent on a suicide mission to stop the Americans. As Clarence and Gustav trade fire down a long boulevard, they are taken by surprise by a tragic mistake of war. What happens next will haunt Clarence to the modern day, drawing him back to Cologne to do the unthinkable: to face his enemy, one last time. Praise for *Spearhead* "A detailed, gripping account . . . the remarkable story of two tank crewmen, from opposite sides of the conflict, who endure the grisly nature of tank warfare." —USA Today (four out of four stars) "Strong and dramatic . . . Makos established himself as a meticulous researcher who's equally adept at spinning a good old-fashioned yarn. . . . For a World War II aficionado, it will read like a dream." —Associated Press

writer, her books keep you intrigued from start to finish' 'A saga that improved with age' 'Five stars' *Suspicious Minds* Taylor & Francis

"This volume represents a major step forward in the literature by placing its focus squarely on the caregiving context, its dimensions and how it shapes the process and outcomes of family care. The chapters locate care within the family, rather than a single individual....The family, in turn, is embedded within a larger cultural, community, and social context....These explorations of context will give us a broader view of how caregiving occurs. It will help us improve our theories about care and about the family's role in contemporary society....Care of our elders is an enduring and yet evolving part of life. The focus on context will help us understand, support and learn from the ways that families meet the challenges involved."--from the foreword by Steve H. Zarit, PhD, Professor and Head, Department of Human Development and Family Studies, Pennsylvania State University Here, in *Caregiving Contexts*, the editors and their chapter authors explore the ways in which demographic change will influence the availability of caregivers and how divergent welfare and ideological systems will affect care among family members and between family and formal care systems. They also discuss the differences in experience between spousal and adult child caregivers, special circumstances such as child or adolescent caregivers, and government and workplace policies that are available to support caregivers in the United States and in some European countries. No other volume is available on caregiving which explores the sociocultural, familial, and sociopolitical

contexts that effect both care decisions and outcomes.

Adam (a.k.a. Zed) Avery is the hub around which the spokes of Loud Whisper revolve. Sexy, impulsive, reckless, he is the dedicated leader of a Southern California rock band in the 1980s called The Spacs. Beneath his defiant veneer lies a sensitive, literate, generous individual. The product of an upper middle class family, Adam is never content for long with the numerous obsessions that occupy him-including drugs. The members of The Spacs include Danny Devil, Adams school friend and the leveling influence on the band; Davey Dynamite, the Hispanic keyboard player; Adrian Cocksure, the sexy bass player; and Brenda Cashew, the alcoholic lead singer until Adam replaces her in that position. Other key characters are Mark and Melanie, Adams lovers, and Henry Langford, the reporter from the national music magazine, Nitty-Gritty. The Spacs had begun to achieve national prominence when, at a concert at The Forum, drugged and lacking self-confidence, Adam falls from the stage, paralyzing himself from the neck down with, doctors say, no more than a ten per cent chance of his walking again. The novel opens with this concert and quickly moves into Marks story. Langford has come to interview him for a feature article on Adam and The Spacs. The following chapters tell Adams story through interviews with the other band members and Melanie, so that the point of view changes with each chapter. Then the focus switches to Adam in the hospital and his long struggle to recover

and eventually return to the music business. The theme is recovery from drug addiction and a self-destructive life style and from the paralyzing accident caused in part by the addiction. Love is also a theme which, combined with determination and a spiritual awakening, allows Adam to pursue his recovery and return to the stage, so that the novel ends on an upbeat note, despite the harrowing experiences its central character has gone through.

Ashes Diary 2015 Headline

A Guardian Angel By: David Edsall

Having no doubt that he was assisted in life by angels, A Guardian Angel is a fictionalized account of the author's life. The events are true and basically a "rags to riches" story, due entirely to the fact that the main character allowed God to lead him throughout his entire life. God has a plan for everyone, a plan designed even before we are born. We only need to accept his plan of salvation and work at following his lead for our lives. This book is unique in that it has fictionalized a person's life and humanizes the workings of angels as God's helpers in interacting with humans toward his plans for them. The author hopes this book will encourage those who do not know God to seek his free gift of salvation and follow his lead for the rest of their lives. People today are living longer and healthier lives than at any other time in history -- with profound implications for the nature of their romantic relationships. In this inspiring new book, best-selling author Abigail Trafford describes how people over fifty are rewriting the script of love and in the process redefining the institution of marriage for future generations. Drawing on interviews with hundreds of men and

women, married and single, gay and straight, she shows how the unprecedented period of vitality after midlife but before traditional old age is much more complicated romantically and sexually than those glossy images of gray-haired people on the beach would suggest. And she reveals how today's fifty-plus men and women are raising the bar on marital satisfaction. They are more likely to break up an unhappy liaison than previous generations; and they are more freewheeling in finding new formulas for romantic satisfaction. Trafford deftly narrates what it means to love and be loved in the decades after midlife -- and she offers solutions to the most common problems that define this time of life. Whether she's shedding light on "retired-spouse syndrome," sharing stories of sexual turmoil, explaining how to plan a marital time-out or navigate the troubled waters of divorce, Trafford's wise and compassionate counsel is imbued with her signature warmth and reassurance. *As Time Goes By* is an urgently needed guide to the pursuit of love and happiness in this dynamic stage of life.

Differently Morphous is the latest and greatest tale to emerge from the mind of writer Yahtzee Croshaw (Mogworld, Jam, Will Save the Galaxy for Food). A magical serial killer is on the loose, and gelatinous, otherworldly creatures are infesting the English countryside. Which is making life for the Ministry of Occultism difficult, because magic is supposed to be their best kept secret. After centuries in the shadows, the Ministry is forced to unmask, exposing the country's magical history--and magical citizens--to a brave new world of social media, government scrutiny, and

public relations. On the trail of the killer are the Ministry's top agents: a junior operative with a photographic memory (and not much else), a couple of overgrown schoolboys with godlike powers, and a demonstrably insane magician. But as they struggle for results, their superiors at HQ must face the greatest threat the Ministry has ever known: the forces of political correctness . . .

The Rowman & Littlefield Handbook on Aging and Work is a comprehensive resource for students, scholars, and practitioners seeking a broad overview of interrelated topics concerning the aging workforce or insightful discussions of specific issues and challenges facing people in the demographic. Notably, its chapters address the impact of current conditions and developments on the individual worker, organizations and employers, and society as a whole.

As Time Goes By Rowman & Littlefield This book is one person's travels through a catalogue of nightmare experiences. Anyone who has suffered through divorce of any form knows this one!! Abuse of various natures are present in this autobiography. Not so much the cure for, but mostly, the acceptance of and forgiveness ability. The emotional healing process does call for the time element, unfortunately! However, this book tells about different aspects of ways and means to this beautiful end. This book is not for people looking for a quick fix or a way out. Abstinence from alcohol is a tool which many people have used as a problem solver. This book is only one person's life under both chronic inebriation and total abstinence conditions. There are many adventures where the reader might question the physical influence under which the

author was operating. Even without the alcoholic consumption by the author, the behavior, when compared to the behavior of a well adjusted individual are incredibly different!! People who have loved or been loved by those who are immediately involved with alcohol or drugs may gain a deeper understanding of the total situation. Also, the author hopes that some comfort to the reader will take place upon the realization that they are not alone. The greatest gift the author has received from life, is PEACE ON EARTH.
