---

*English/German Dictionary of Idioms* U of Nebraska Press  
 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1945.

**The Kaiser and His Court** Rowman & Littlefield

A detailed comparative analysis of speaker-audience interactions in Greek historiography, Josephus, and Acts that examines historians' use of speeches as a means of instructing/persuading their readers and highlights Luke's distinctive depiction of the apostles as adaptable yet frequently alienating orators.

*Anthropos* Springer

Paul's statement that 'letter kills but the spirit gives life' [2 Corinthians 3.6] has had an extraordinary impact on Christian thought through the ages. It has been read both as affirming the

saving power of the new covenant in comparison to the old, and as a key to hidden, spiritual meanings in the text of scripture. It is, however, an ambiguous phrase, followed by a tangled story. This book explores the Pauline distinction both in its original context and in its aftermath in the early church, the Reformation and modern Biblical Studies. It then considers a postmodern reversal, where ideas of 'Spirit' are often seen as 'deadly' and the openness of the 'letter' or text as life-affirming, and draws conclusions for Spirit in the world.

*The National Element in Hermann Cohen's Philosophy and Religion* Wipf and Stock Publishers

Provides image and full-text online access to back issues. Consult the online table of contents for specific holdings.

*The Harm in Hate Speech* Harvard University Press

A leading expert on the 20th-century history of Berlin, employing new and little-known German sources to track Hitler's attitudes and plans for the city, presents a fascinating new account of Hitler's relationship with Berlin, a place filled with grandiose architecture and imperial ideals, which he used as a platform for his political agenda.

*Eranos* University of Texas Press

This volume brings together papers by scholars from Germany,

the USA, France, England and Ireland given at the first International Feuchtwanger Conference, held in Los Angeles in 2003. Some of Lion Feuchtwanger's novels from his exile in the United States are analyzed here, as are the lives of Lion and Marta Feuchtwanger and their contacts in the German émigré world in California. In addition, two papers focus on aspects of Bertolt Brecht's and Alfred Döblin's lives as emigrants in California. This volume is of interest to students of exile studies, of German refuge in the USA and of modern German literature. **German Composition** Springer Science & Business Media

**Speech in Speech** explores the techniques by which Classical Greek texts written primarily for public performance weave in direct quotations (oratio recta) of "other voices"-imagined or real. This "speech in speech" is usually perceived as endowed with a greater vividness and authenticity than indirect quotation, even when the words report what someone might say, or enliven the verbal texture of plays and speeches, and examines the intricate relation of direct quotations to their "originals". As the first synoptic and detailed study of oratio recta in Classical Greek literature, *Speech in Speech* will be useful to anyone interested in ancient literary technique.

*Speech in Speech* Kummerle

This dictionary is the ideal supplement to the German/English Dictionary of Idioms, which together give a rich source of material for the translator from and into each language. The dictionary contains 15,000 headwords, each entry supplying the German equivalents, variants, contexts and the degree of currency/rarity of the idiomatic expression. This dictionary will be an invaluable resource for students and professional literary translators. Not for sale in Germany, Austria or Switzerland

**Goethes Faust** Wipf and Stock Publishers

This book provides a new approach to Albrecht Ritschl's theology. Leif Svensson argues that Ritschl's theological project must be related to three cultural developments – historical criticism, materialism, and anti-Lutheran polemics – and understood in the context of the de-Christianization of the Bildungsbürgertum in nineteenth-century Germany. "Albrecht Ritschl remains the great unknown of nineteenth-century theology. In this important study, Leif Svensson sheds new light on Ritschl's thought by relating it to contemporaneous social and cultural developments. Rooted in deep familiarity with German intellectual life of the time, the book convincingly illustrates the value of a history of theology that is mindful of its various contexts." – Johannes Zachhuber University of Oxford "I confess I was hesitant to blurb a book on Ritschl, but then I read it. Svensson's well researched presentation of Ritschl's thought is compelling and forceful. I highly recommend this book." – Stanley Hauerwas Duke Divinity School "Svensson's work ably places Ritschl's contribution to theology in the broader context of the intellectual and cultural history of the nineteenth century. Students of Protestant theology and thought and all interested in the complex relationship between Christian theology and modernity will learn something of value from this important study." – Thomas Albert Howard Valparaiso University

**Speech in the Eneide of Heinrich Von Veldeke** Cambridge University Press

This companion to the Classical Quarterly contains reviews of new work dealing with the literatures and civilizations of ancient Greece and Rome. Over 300 books are reviewed each year.

**A History of the Interpretation of the Acts of the Apostles** BRILL

The Nazis never won a majority in free elections, but soon after Hitler took power most people turned away from democracy and backed the Nazi regime. Hitler won growing support even as he established the secret police (Gestapo) and concentration camps. What has been in dispute for over fifty years is what the Germans

knew about these camps, and in what ways were they involved in the persecution of 'race enemies', slave workers, and social outsiders. To answer these questions, and to explore the public sides of Nazi persecution, Robert Gellately has consulted an array of primary documents. He argues that the Nazis did not cloak their radical approaches to 'law and order' in utter secrecy, but played them up in the press and loudly proclaimed the superiority of their system over all others. They publicized their views by drawing on popular images, cherished German ideals, and long held phobias, and were able to win over converts to their cause. The author traces the story from 1933, and shows how war and especially the prospect of defeat radicalized Nazism. As the country spiralled toward defeat, Germans for the most part held on stubbornly. For anyone who contemplated surrender or resistance, terror became the order of the day.

*Rhetorical Adaptation in the Greek Historians, Josephus, and Acts vol.1* Central European University Press

Kaiser Wilhelm II (1859–1941) is one of the most fascinating figures in European history, ruling Imperial Germany from his accession in 1888 to his enforced abdication in 1918 at the end of the First World War. In one slim volume, John Röhl offers readers a concise and accessible survey of his monumental three-volume biography of the Kaiser and his reign. The book sheds new light on Wilhelm's troubled youth, his involvement in social and political scandals, and his growing thirst for glory, which, combined with his overwhelming nationalism and passion for the navy provided the impetus for a breathtaking long-term goal: the transformation of the German Reich into one of the foremost powers in the world. The volume examines the crucial role played by Wilhelm as Germany's Supreme War Lord in the policies that led to war in 1914. It concludes by describing the rabid anti-Semitism he developed in exile and his efforts to persuade Hitler to restore him to the throne.

**MLN**. Bloomsbury Publishing

This interdisciplinary study introduces readers to Friedrich Schleiermacher's diverse pathways of reflection and creative practice that are related to the field of translation. By drawing attention to Schleiermacher's various writings on a range of subjects (including philology, criticism, hermeneutics, dialectics, rhetoric and religion), the author makes it clear that the frequently cited lecture *Über die verschiedenen Methoden des Übersetzens* (On the Different Methods of Translating) represents but a fraction of Schleiermacher's contributions to modern-day insights into translation. The analysis of Schleiermacher's various pathways of reflection on translation presented in this book leads to the conclusion that translation is part of the essence of the world, as it is a fundamental tool of our cognition and a foundation of our existence. In Schleiermacher's works, transfer, translation, mediation, and communication underpin our very existence in the world and our self-awareness. At the same time, they represent fundamental categories for a project that focuses on the consolidation and assimilation – through translation – of that which is foreign, different, diverse.

**The Poems of Shelley: Volume Six** Oxford University Press, USA

Walter Hallstein was among the great European visionaries. This is the first book length study of one of the key shapers of the European Community in its early years. The range of contributors include those who worked with Hallstein and have personal recollections of him, and younger historians drawing upon documents only recently available. The book contains sections on his contribution as State Secretary to post-war German foreign policy, his seminal role as the first President of the Commission of the EEC and the legacy of his work and ideas and later years as President of the European Movement.

**Germany: The Long Road West** Taylor & Francis

An updated revision of the author's work, *A History of the Criticism of the Acts of the Apostles*, Gasque explores the credibility of recent interpretations of the book of Acts.

[Friedrich Schleiermacher's Pathways of Translation](#) Yale University Press

This work "browses" into Hitler's library: it investigates the collection by shedding new lights on the readings and reading habits of Hitler.

**Refuge and Reality** Cambridge University Press

Hermann Cohen was a Jewish-German thinker with a passion for philosophy. Two forms of national engagement influenced his philosophical system and his Jewish thought: a cultural-political 'Germanness' (Deutschtum) and a religious Judaism beyond the political.

[Backing Hitler](#) OUP Oxford

From one of the most prominent biographers of the Nazi period, a new and provocative portrait of the figure behind the century's worst crimes. Acclaimed historian Peter Longerich, author of *Goebbels* and *Heinrich Himmler* now turns his attention to Adolf Hitler in this new biography. While many previous portraits have speculated about Hitler's formative years, Longerich focuses on his central role as the driving force of Nazism itself. You cannot separate the man from the monstrous movement he came to embody. From his ascendance through the party's ranks to his final hours as Führer in April 1945, Longerich shows just how ruthless Hitler was in his path to power. He emphasizes Hitler's political skills as Germany gained prominence on the world's stage. Hitler's rise to, and ultimate hold on, power was more than merely a matter of charisma; rather, it was due to his ability to

control the structure he created. His was an image constructed by his regime - an essential piece self-created of propaganda. This comprehensive biography is the culmination of Longerich's life-long pursuit to understand the man behind the century's worst crimes.

Harvard University Press

A personal and political analysis of the reign of Kaiser Wilhelm II using new archival sources.

[The Foundations of Europe](#) Routledge

Published in the Bloomsbury Revelations series and featuring a new preface by the author, this classic biography by acclaimed historian Richard Overy takes the reader on a chilling journey into the heart of Hitler's inner circle. Hermann Goering was Hitler's most loyal supporter, his designated successor and the second most powerful man in the Third Reich. One of the main architects of the Nazi regime, he was also instrumental in the creation of the Gestapo and directly ordered the Final Solution. But who was the man behind the carefully-constructed mask? Self-indulgent and ruthless, sybaritic and brutal, egotistical yet capable of self-effacement, weak-willed yet fiercely calculating, Goering was a contradictory, complex and often bufoonish character. He styled himself as the 'Iron Man' but was known to wear togas, fur coats and faux-medieval hunting outfits. A brilliant World War I fighter pilot, military leader and mercurial Luftwaffe commander, he also loved the opera and took a perverse pride in his ill-gotten, infamous art collection. Richard Overy illuminates the many facets of Goering's personality and charts his story from his golden days as Hitler's most trusted commander to his failures and loss of power after the Battle of Britain, his sensational trial at Nuremberg and his ignominious death by suicide on the eve of his execution.
