GATES HUDSON

The History of the Development of Nursing in South Africa, 1652-1960 African Minds South Africa possesses one of the richest popular music traditions in the world - from marabi to mbaqanga, from

boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. And if one peruses the books that

exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is

true of all music-making in this country, though it is most striking in the musics of the black communities. Beyond Memory: Recording the History, Moments and Memories of South African Music is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of a man, Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a deejay at the South African Broadcasting Corporation. This book - astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries.

The various industries in the IT sectors have started to pay attention to achieve an advanced level of diversification, which points to the fact that a single giant program can

be developed through the means of mini-programs that have been developed by different geographically located programmers that too via an online medium. In the present scenario, such a language and programming environment has come to exist seemingly. Java is a type of Internet programming language which has made it possible to access the entire world from any corner around the globe. Java has been designed and developed by James Gosling and his team consisting of members, namely Mike Sheridan and Patrick Naughton, collectively known as the Green Team in 1995 for the company Sun Microsystems. This programming language was based on C and C++ language syntax, which made it easy for programmers to learn this language. Java is a highly sophisticated programming language that aids the programmers in expressing their complex ideas quickly. Many types of programming languages are available like C, C++, MySQL, R, Python, and others, but Java is used extensively over other programming

languages because of a variety of advantages of using Java.

“Offers practical guidance for how to work with diverse others, which is a precondition for confronting many of the complex challenges we face.” —Morris Rosenberg, President,

Pierre Elliott Trudeau Foundation Collaboration is increasingly difficult and increasingly necessary. Often, to get something done that really matters to us, we need to work with people we don't agree with or like or trust. Adam Kahane has faced this challenge many times, working on big issues like democracy and jobs and climate change and on everyday issues in organizations and families. He has learned that our conventional understanding of collaboration—that it requires a harmonious team that agrees on where it's going, how it's going to get there, and who needs to do what—is wrong. Instead, we need a new approach to collaboration that embraces discord, experimentation, and genuine cocreation—which is exactly what Kahane provides in this groundbreaking and timely book. “Kahane shows that people who don't see eye-to-eye really can come together to solve big challenges. Whether in our businesses, our governments, our communities, or our personal lives, we can all

benefit from this smart and timely book.” —Mark Tercek, former President, The Nature Conservancy and coauthor of *Nature's Fortune* “Shows us how thinking and seeing differently can help us navigate this challenging landscape. Kahane abandons orthodoxy in taking on the most intransigent problems, showing us the path to effective action in a complex world.” —James Gimian, coauthor of *The Rules of Victory* “Collaborating with the Enemy belongs on the same shelf as Sun Tzu's *The Art of War* and Machiavelli's *The Prince*.” —Stephen Huddart, President, The J.W. McConnell Family Foundation

 These papers address aspects of the contentious intellectual and policy debate about the revival and revitalisation of Africa's political, economic and cultural situation - the so-called African Renaissance. The work considers the ideological antecedents of the concept of the African Renaissance; the African Renaissance as an imperative for survival; and how President Thabo Mbeki of South Africa and

the ANC use the notion. The contributors discuss the ethical ramifications of globalisation; whether neo-liberalism can be considered a stable base for the African Renaissance; and the likelihood of genuine progress when there are many indicators that neo-liberalism is unleashing a kind of global apartheid. On this judgement, they draw parallels with the apartheid era in South Africa, and envisage a similar struggle for change. The contributors are five scholars including the Russian, Vladimir Shubin, and the book's editor Eddie Maloka.

 Youth violence: Sources and solutions in South Africa thoroughly and carefully reviews the evidence for risk and protective factors that influence the likelihood of young people acting aggressively. Layers of understanding are built by viewing the problem from a multitude of perspectives, including the current situation in which South African youth are growing up, perspectives from developmental psychology, the influences of race, class and gender, and of the media. The

book then reviews the evidence for effective interventions in the contexts of young people's lives – their homes, their schools, their leisure activities, with gangs, in the criminal justice system, in cities and neighbourhoods, and with sexual offenders. In doing so, thoughtful suggestions are made for keeping an evidence-based perspective while (necessarily) adapting interventions for developing world contexts, such as South Africa. Youth violence in South Africa: Sources and solutions is a valuable addition to the library of anyone who has ever wondered about youth violence, or wanted to do something about it.

 Acute Psychiatric Emergencies is designed for all medical and healthcare professionals working with patients in mental health crisis. This manual is a key component of the Acute Psychiatric Emergencies (APEX) course, which uses a structured approach developed by leading psychiatry and emergency medicine specialists with years of

practical experience. This valuable resource provides a practical approach for dealing with mental health emergencies, helping healthcare professionals from different specialties speak a common language and develop a shared understanding that expedites excellent care. The manual outlines the assessment and management of patients who have self-harmed, those that are apparently drunk, the patient behaving strangely, the patient with acute confusion, and those that are aggressive. Presents a structured, practical approach for the emergency care of patients presenting in acute psychiatric crisis. Covers common presentations of psychiatric emergencies. Emphasises close co-operation of emergency and mental health teams. Offers content designed jointly by practicing psychiatrists and emergency physicians from the Advanced Life Support Group (ALSG). Acute Psychiatric Emergencies will be useful for practitioners of emergency medicine, psychiatry, emergency and mental health nursing as well as other mental

health and crisis care professionals.

 WHO's Global Tuberculosis Report provides a comprehensive and up-to-date assessment of the TB epidemic and of progress in care and prevention at global, regional and country levels. This is done in the context of recommended global TB strategies and associated targets, and broader development goals. For the period 2016-2035, these are WHO's End TB Strategy and the United Nations' (UN) Sustainable Development Goals (SDGs), which share a common aim: to end the global TB epidemic. The main data sources for the report are annual rounds of global TB data collection implemented by WHO's Global TB Program since 1995 and databases maintained by other WHO departments, UNAIDS and the World Bank. In WHO's 2017 round of global TB data collection, 201 countries and territories that account for over 99% of the world's population and TB cases reported data.

 Sharing our stories, who

we are, what we love, how we feel, why we fear, connects us to one another. Weaving moments of grace with spiritual practices that have grounded her through life's challenges, Laurie Blefeld invites the reader into her sacramental stories. You will find yourself in Laurie's stories and reclaim bits and pieces of your own. "Our days are a stream of moments - some devastating, some down to earth and some filled with ineffable meaning. Laurie Blefeld has written a book full of tender moments that warm the heart and remind us to be grateful for and conscious of how laced with grace our lives really are. This is a book to enjoy and treasure."- Gunilla Norris, author of *Sheltered in the Heart* and *Companions on the Way: A Little Book of Heart-full*

Practices "Laurie's transformational stories, told in her authentic and lyrical voice, are evocative of the highs and lows in everyone's life. Laurie's generous prose connects us to her family's living history - and through it to our own. She is a natural spiritual teacher. Moments of Grace is luminous, warm, comforting and filled with such good practices."- Dr. Joan Borysenko, from the Foreword
