For much of Chinese history, the eunuch stood out as an exceptional figure at the margins of gender categories. Amid the disintegration of the Qing Empire, men and women in China began to understand their differences in the language of modern science. In *After Eunuchs*, Howard Chiang traces the genealogy of sexual

knowledge from the demise of eunuchism to the emergence of transsexuality, showing the centrality of new epistemic structures to the formation of Chinese modernity. From anticastration discourses in the late Qing era to sex-reassignment surgeries in Taiwan in the 1950s and queer movements in the 1980s and 1990s, *After Eunuchs* explores the ways the introduction of Western biomedical sciences transformed normative meanings of gender, sexuality, and the body in China. Chiang investigates how competing definitions of sex circulated in science,

medicine, vernacular culture, and the periodical press, bringing to light a rich and vibrant discourse of sex change in the first half of the twentieth century. He focuses on the stories of gender and sexual minorities as well as a large supporting cast of doctors, scientists, philosophers, educators, reformers, journalists, and tabloid writers, as they debated the questions of political sovereignty, national belonging, cultural authenticity, scientific modernity, human difference, and the power and authority of truths about sex. Theoretically

sophisticated and far-reaching, *After Eunuchs* is an innovative contribution to the history and philosophy of science and queer and Sinophone studies.

Hypnoanalysis presents a critical review of a report on hypnoanalysis. The book discusses the advantages of this method; the the definite change in the functional organization of the patient; and the specific schizophrenic personality. Some of the topics covered in the text are the description of a hypnoanalysis case; the demonstration of the use of hypnosis in the treatment of a patient; and the developments in the application of the treatment. The narration of the patient's journal; the daily experiences of the patient as the treatment is continuing; and the dynamic interpretation of the experiment are also presented. The book further tackles the characteristics of the subject patient; the description of the emotions and behaviors of the patient; and the theory and practice of hypnoanalysis. A study of hypnoanalytic procedures is also presented. A chapter is

devoted to the use of free association, dream induction, automatic writing, hypnotic drawing, crystal, and mirror gazing as a tool in treating the patient. The book can provide useful information to psychoanalysts, doctors, students, and researchers.

An all-new collection of short fiction from the author of *Fight Club*, that also doubles as an adult coloring book! New York Times bestselling novelist Chuck Palahniuk presents *Bait: Off-Color Stories for You to Color*, his first ever coloring book for adults. *Bait* is both the coloring book debut and the second short story collection for Palahniuk, author of *Lullaby* and *Fight Club*. The 8.5 x 11 inch hardcover album contains eight bizarre tales, illustrated in detailed black and white by Joëlle Jones (*Lady Killer*), Lee Bermejo (*The Suiciders*), Duncan Fegredo (*Hellboy*), and more. Each

story is paired with pieces of colorable original art, nearly 50 in all! Palahniuk invites readers to collaborate on this unprecedented hardcover edition: "Maybe between your colors, the artists' designs, and my stories we can create something that endures. Something worth keeping. Let's create a well-bound book that can sit on any shelf and be available for a new generation to discover and enjoy." Palahniuk's short stories are provocative and not for the faint of heart. (His public readings are notorious for making audience members pass out.) Kirkus Reviews described Palahniuk's 2015 short story collection *Make Something Up: Stories You Can't Unread* as "Pathos and panic and penitence from one of the darkest and most singular minds in contemporary American lit." *Bait* continues in that vein with stories about: A passenger on the Titanic who finds a surgical solution to the obstacle of "women and children first". A Hollywood star whose fading brand faces a viral (and scatological) internet campaign. An animal psychic who coaxes a statement from a fish that witnessed a political assassination. Increasingly terrible

birthday gifts that place a girl at the center of an extinction-level event. Reviews for 2015's *Make Something Up*: "Palahniuk finds sincerity among his characters even in disreputable occurrences."-- Publishers Weekly "He makes it absolutely clear that he's still the man who wrote 'Guts,' the infamous story that made fans pass out at readings." -- Kirkus Reviews Reviews for *Fight Club 2*: "At turns deeply poignant and very funny, Palahniuk's freakish fables capture a twisted zeitgeist and add an oddly inspirational and subversive voice to the contemporary canon . . . In the post-9/11 present, a hyperactive, Internet-obsessed, war- and recession-weary America apparently needs Tyler again."--The Atlantic "Chuck Palahniuk's *Fight Club 2* is as much a kinetic read as it is a pivotal watermark for the comic industry to receive such a high-profile cross-media debut. We are Jack's eager eyes."--Paste [Medieval Virginites](#) Cambridge University Press

The revolution of 1905 challenged not only the social and political structures of imperial Russia but the sexual order as well. Throughout the decade that followed-

in the salons of the artistic and intellectual avant-garde, on the pages of popular romances, in the staid assemblies of physicians, psychiatrists, and legal men—the talk everywhere was of sex. This eagerly awaited book, echoing the title of a pre-World War I bestseller, *The Keys to Happiness*, marks the first serious attempt to understand the intense public interest in sexuality as a vital dimension of late tsarist political culture. Drawing on a strong foundation of historical sources—from medical treatises and legal codes to anti-Semitic pamphlets, commercial fiction, newspaper advertisements, and serious literature—Laura Engelstein shows how Western ideas and attitudes toward sex and gender were transformed in the Russian context as imported views on prostitution, venereal disease, homosexuality, masturbation, abortion, and other themes took on distinctively Russian hues. Engelstein divides her study into two parts, the first focusing on the period from the Great Reforms to 1905 and on the two professional disciplines most central to the shaping of a modern sexual discourse in Russia: law and

medicine. The second part describes the complicated sexual preoccupations that accompanied the mobilization leading up to 1905, the revolution itself, and the aftermath of continued social agitation and intensified intellectual doubt. In chapters of astonishing richness, the author follows the sexual theme through the twists of professional and civic debate and in the surprising links between high and low culture up to the eve of the First World War. Throughout, Engelstein uses her findings to rethink the conventional wisdom about the political and cultural history of modern Russia. She maps out new approaches to the history of sexuality, and shows, brilliantly, how the study of attitudes toward sex and gender can help us to grasp the most fundamental political issues in any society.

With his stunning debut novel, *She's Come Undone*, Wally Lamb won the adulation of critics and readers with his mesmerizing tale of one woman's painful yet triumphant journey of self-discovery. Now, this brilliantly talented writer returns with *I Know This Much Is True*, a heartbreaking

and poignant multigenerational saga of the reproductive bonds of destruction and the powerful force of forgiveness. A masterpiece that breathtakingly tells a story of alienation and connection, power and abuse, devastation and renewal--this novel is a contemporary retelling of an ancient Hindu myth. A proud king must confront his demons to achieve salvation. Change yourself, the myth instructs, and you will inhabit a renovated world. When you're the same brother of a schizophrenic identical twin, the tricky thing about saving yourself is the blood it leaves on your bands--the little inconvenience of the look-alike corpse at your feet. And if you're into both survival of the fittest and being your brother's keeper--if you've promised your dying mother--then say so long to sleep and hello to the middle of the night. Grab a book or a beer. Get used to Letterman's gap-toothed smile of the absurd, or the view of the bedroom ceiling, or the influence of random selection. Take it from a godless insomniac. Take it from the uncrazy twin--the guy who beat the biochemical rap. Dominick Birdsey's entire life has been compromised and constricted by anger and fear, by the paranoid

schizophrenic twin brother he both deeply loves and resents, and by the past they shared with their adoptive father, Ray, a spit-and-polish ex-Navy man (the five-foot-six-inch sleeping giant who snoozed upstairs weekdays in the spare room and built submarines at night), and their long-suffering mother, Concettina, a timid woman with a harelip that made her shy and self-conscious: She holds a loose fist to her face to cover her defective mouth--her perpetual apology to the world for a birth defect over which she'd had no control. Born in the waning moments of 1949 and the opening minutes of 1950, the twins are physical mirror images who grow into separate yet connected entities: the seemingly strong and protective yet fearful Dominick, his mother's watchful "monkey"; and the seemingly weak and sweet yet noble Thomas, his mother's gentle "bunny." From childhood, Dominick fights for both separation and wholeness--and ultimately self-protection--in a house of fear dominated by Ray, a bully who abuses his power over these stepsons whose biological father is a mystery. I was still afraid of his anger but saw how he punished weakness--pounced on it. Out of

self-preservation I hid my fear, Dominick confesses. As for Thomas, he just never knew how to play defense. He just didn't get it. But Dominick's talent for survival comes at an enormous cost, including the breakup of his marriage to the warm, beautiful Dessa, whom he still loves. And it will be put to the ultimate test when Thomas, a Bible-spouting zealot, commits an unthinkable act that threatens the tenuous balance of both his and Dominick's lives. To save himself, Dominick must confront not only the pain of his past but the dark secrets he has locked deep within himself, and the sins of his ancestors--a quest that will lead him beyond the confines of his blue-collar New England town to the volcanic foothills of Sicily 's Mount Etna, where his ambitious and vengefully proud grandfather and a namesake Domenico Tempesta, the *sostegno del famiglia*, was born. Each of the stories Ma told us about Papa reinforced the message that he was the boss, that he ruled the roost, that what he said went. Searching for answers, Dominick turns to the whispers of the dead, to the pages of his grandfather's handwritten memoir, *The History of*

Domenico Onofrio Tempesta, a Great Man from Humble Beginnings. Rendered with touches of magic realism, Domenico's fablelike tale--in which monkeys enchant and religious statues weep--becomes the old man's confession--an unwitting legacy of contrition that reveals the truth's of Domenico's life, Dominick learns that power, wrongly used, defeats the oppressor as well as the oppressed, and now, picking through the humble shards of his deconstructed life, he will search for the courage and love to forgive, to expiate his and his ancestors' transgressions, and finally to rebuild himself beyond the haunted shadow of his twin. Set against the vivid panoply of twentieth-century America and filled with richly drawn, memorable characters, this deeply moving and thoroughly satisfying novel brings to light humanity's deepest needs and fears, our aloneness, our desire for love and acceptance, our struggle to survive at all costs. Joyous, mystical, and exquisitely written, *I Know This Much Is True* is an extraordinary reading experience that will leave no reader untouched.

*Building a Past* Routledge

Originally published in 1972, this second edition in 1981 was fully revised and updated to cover recent developments in the field at the time. *Fact and Fantasy in Freudian Theory* was written to answer many questions and criticisms surrounding psychoanalysis. How much, if any, of Freudian theory is verifiable according to the usual criteria of scientific enquiry? Much work had been carried out at the time to discover which parts of Freudian theory are verifiable and which insupportable by experiment. In this book Dr Kline surveys this vast body of work. He takes, one by one, the central postulates of Freudian psychology and discusses the experiments which have been performed to test them. He scrutinizes each test, examines its methodology and its findings and weighs up its value. For some of the theories, it will be seen, there is no evidence whatsoever; for others, on the other hand, there is impressive and sometimes incontrovertible experimental support - for example, for the theory of repression. This work will continue to be

an invaluable, highly detailed reference work for those involved with Freud's work, and a book of great interest to those concerned with the method of psychological enquiry in general.

On November 16, 2017, Pope Francis tweeted, "Poverty is not an accident. It has

causes that must be recognized and removed for the good of so many of our brothers and sisters." With this statement and others like it, the first Latin American pope was associated, in the minds of many, with a stream of theology that swept the Western hemisphere in the 1960s and 70s, the movement known as liberation theology. Born of chaotic cultural crises in Latin America and the United States, liberation theology was a trans-American intellectual movement that sought to speak for those parts of society marginalized by modern politics and religion by virtue of race, class, or sex. Led by such revolutionaries as the Peruvian Catholic priest Gustavo Gutiérrez, the African American theologian James Cone, or the feminists Mary Daly and Rosemary Radford Ruether, the liberation theology movement sought to bridge the gulf between the religious values of justice and equality and political pragmatism. It combined theology with strands of radical politics, social theory, and the history and experience of subordinated groups to challenge the ideas that underwrite the hierarchical structures of an unjust society. Praised by some as a radical

return to early Christian ethics and decried by others as a Marxist takeover, liberation theology has a wide-ranging, cross-sectional history that has previously gone undocumented. In *The World Come of Age*, Lilian Calles Barger offers for the first time a systematic retelling of the history of liberation theology, demonstrating how a group of theologians set the stage for a torrent of new religious activism that challenged the religious and political status quo.

*The World Come of Age* Routledge Racial Castration, the first book to bring together the fields of Asian American studies and psychoanalytic theory, explores the role of sexuality in racial formation and the place of race in sexual identity. David L. Eng examines images—literary, visual, and filmic—that configure past as well as contemporary perceptions of Asian American men as emasculated, homosexualized, or queer. Eng juxtaposes theoretical discussions of Freud, Lacan, and Fanon with critical readings of works by Frank Chin, Maxine Hong Kingston, Lonny Kaneko, David Henry Hwang, Louie Chu, David Wong Louie, Ang Lee, and R. Zamora Linmark.

While situating these literary and cultural productions in relation to both psychoanalytic theory and historical events of particular significance for Asian Americans, Eng presents a sustained analysis of dreamwork and photography, the mirror stage and the primal scene, and fetishism and hysteria. In the process, he offers startlingly new interpretations of Asian American masculinity in its connections to immigration exclusion, the building of the transcontinental railroad, the wartime internment of Japanese Americans, multiculturalism, and the model minority myth. After demonstrating the many ways in which Asian American males are haunted and constrained by enduring domestic norms of sexuality and race, Eng analyzes the relationship between Asian American male subjectivity and the larger transnational Asian diaspora. Challenging more conventional understandings of diaspora as organized by race, he instead reconceptualizes it in terms of sexuality and queerness. *Fact and Fantasy in Freudian Theory (RLE: Freud)* Jessica Kingsley Publishers "A bizarre and darkly funny world . . . **Preaching Bondage** Routledge  
Each year 11 million people trek to the Louvre to gawk at the Mona Lisa. Many visitors clutch guide books in hand describing the painting. For some, it’s the experience of a lifetime, one they’ll talk about with friends and family for decades. Yet some modern researchers say that the vast majority of people will never recognize the hidden messages in this painting. That’s because those hidden messages are subliminal. Buried below the threshold of conscious awareness, Da Vinci used techniques people never notice. Not only don’t people know what they’re seeing, they would be shocked to find out. A surprisingly large number of famous paintings fall into the same category. That

is, they employ subliminal techniques to enhance the effectiveness of the work or to encode messages within portraits and landscapes. No book, however, has ever attempted to provide an overview of the technical sophistication and arcane methods that artists worldwide have used to conceal secret meaning in their work. *Every Picture Hides a Story* is the first book to expose the subliminal content in the world’s greatest paintings. Titillating, subversive, and building on the groundbreaking work of pioneers of art criticism, this book will enable readers to view art masterpieces with greater understanding. And their enjoyment of these works will be exponentially enhanced. This full-color book contains 86 images of the paintings and their details. **Spectacles of Realism** Routledge

The bibliography for all the work described in the two volumes is contained in this second volume. *I Know This Much Is True* Routledge

Preaching Bondage introduces and investigates the novel concept of doulology, the discourse of slavery, in the homilies of John Chrysostom, the late fourth-century priest and bishop. Chris L. de Wet examines the dynamics of enslavement in Chrysostom's theology, virtue ethics, and biblical interpretation and shows that human bondage as a metaphorical and theological construct had a profound effect on the lives of institutional slaves. The highly corporeal and gendered discourse associated with slavery was necessarily central in Chrysostom's discussions of the household, property, education, discipline, and sexuality. De Wet explores the impact of doulology in these contexts and disseminates the results in a new and highly anticipated language, bringing to light the more pervasive fissures between ancient Roman slaveholding and early Christianity. The corpus of Chrysostom's public addresses provides much of the literary evidence for slavery in the fourth century, and De Wet's convincing analysis is a groundbreaking contribution to studies of the social world in late antiquity.

**Drawings in Assessment and Psychotherapy** Cambridge University Press

This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo, Egypt. Although these women are part of a modernizing middle class, they also voluntarily adopt a traditional symbol of female subordination. How can this paradox be explained? An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle--as accommodating protest. These women, most of them clerical workers in the large government bureaucracy, are ambivalent about working outside the home, considering it a change which brings new burdens as well as some important benefits. At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity. The new veiling expresses women's protest against this. MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma, involving elements of

both resistance and acquiescence.

**Bait: Off-Color Stories for You to Color** Cornell University Press

Volume 26/27 begins with publication of The Annual's first prize essay, Samuel Abrams's "How Child and Adult Analysis Inform and Misinform One Another." This is followed by a series of papers originally prepared for a symposium honoring John E. Gedo. These papers span the clinical topics of obsessiveness, sublimation, dreams and self-analysis, and analyzability, and also delve into applied psychoanalysis and art history, with two studies of Vincent van Gogh and another of Alberto Giacometti. These papers not only convey the impressive range of Gedo's own interests, but embody the high scholarly and clinical standards that Gedo has long held, both for himself and for the field in general. Section III offers original contributions to clinical analysis in the form of the consideration of the role of affective engagement in the analyst's "usability"; thoughtful assessment of the perils of parental projection in child analytic work; and comparison of a failed and successful supervision in the same psychoanalytic case. Section IV examines

psychoanalysis and the arts, with two further studies of van Gogh, an analytic reading of Nabokov's *Lolita*, and more general examinations of psychoanalysis in relation to dramatic art and film analysis. The volume closes with two provocative scholarly essays bearing on the roots of psychoanalysis: the correspondence between Mabel Dodge and her analysts Smith Ely Jelliffe and A. A. Brill as a vehicle for reviewing the issue of extra- and postanalytic contact between analyst and patient; and an examination of Freud, Lacan, and the uneasy relationships among literature, psychoanalysis, and the female subject. Volume 26/27 offers readers a rich harvest of contemporary insights about psychoanalysis, including its history and evolution, its continuing

clinical refinement, and its scholarly applications outside the consulting room.

*Thirty-five Castration Fantasies* Duke University Press

Introducing abstract painting and sculpture of the 20th century, this volume explores new ways to think about abstract art and the problems of interpretation it raises. Each of the ten chapters in the book addresses a particular problem associated with abstract art by focusing on specific works.

Making connections between drama and drawing, *Drawing as Performance* introduces visual artists and designers to rehearsal techniques, theory, and games as ways of developing image-making and visual communication skills. Drawing from

the fields of theatre and anthropology, this book is full of practical exercises that encourage experimentation and play as methods of making expressive, communicative, and meaningful images. Ideas are adapted from the rehearsal room to the drawing studio, offering artists a fresh approach to translating experiences into visual images. Games and exercises are accompanied by demonstrations and responses from professional practitioners and visual communication students. This one-of-a-kind book guides students and professionals alike to improvisation, self-expression, and reflective visual communication techniques in order to narrow the gap between the handmade image and inner experience from which artists draw their inspiration.
