 Landes- und kulturkundliche Inhalte sowie interkulturelle bzw. kulturreflexive Aspekte sind fester Bestandteil des Fremdsprachenunterrichts. Doch wie sieht das in der Praxis und in Lehrmaterialien aus? Dieser Band bietet Grundlagen zur Lehrwerk- bzw. Landeskundeforschung und erkundet deren konkrete Umsetzung in einer kontextualisierten Lehrwerkanalyse. Untersucht werden frequent im schulischen Deutsch-als-Fremdsprache-Unterricht eingesetzte Anfänger-Lehrwerke für Jugendliche aus Polen und den Niederlanden. Gelungene Beispiele für die Umsetzung unterschiedlicher landeskundlicher Inhalte und Lernziele aus internationalen Lehrmaterialien bieten Anregungen für ein breiteres Spektrum an landeskundlichen Aktivitäten und Lernzielen, die direkt in die eigene Praxis umgesetzt werden können. Cultural content as well as intercultural and culture-reflective aspects are key concepts in foreign language pedagogy. But how are these key concepts reflected in teaching practice and teaching materials? This book provides a sound theoretical basis of research concerning both teaching materials and culture pedagogy. In a contextualized textbook analysis, we explore to what extent research insights are integrated into six frequently used Dutch and Polish course books for beginning adolescent learners of German. A selection of good practice examples from international teaching materials display the implementation of various cultural contents and provide input for a wide array of cultural activities and teaching objectives, which can be directly implemented in teaching practice.

INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn't they be able to say words to

us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word "outside" when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. How Stella Learned to Talk is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella "spoke" her first word, and the other breakthroughs they've had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, How Stella Learned to Talk will be the indispensable dog book for the new decade.

There had always been the Running Man—always that phantom form somewhere in the distance, always shuffling relentlessly closer . . . For a long time, fourteen-year-old Joseph has wondered about old Tom Leyton, his reclusive next-door neighbor. Gossip and rumors suggest that something terrible happened to Tom in the past. Then Joseph is asked to draw Tom for a school art project, and that means Joseph has the opportunity to uncover the truth about this man who passes his days tending silkworms and keeping dark secrets. As Joseph learns more and more about Tom's world, he is forced to confront his own fears. Is there some connection between Joseph's dreams and his feelings about his father, who seems to have abandoned the family? And why does he continue to have nightmares about the Running Man—the disheveled figure who wanders aimlessly through town?

What happens if the world unexpectedly stands still for a moment? If, just like that, you are given a bit of time by sheer luck? Die Sprachführer der Kauderwelsch-Reihe orientieren sich am typischen Reisealltag und vermitteln auf unterhaltsame Weise das nötige Rüstzeug, um ohne lästige Büffelei möglichst schnell mit dem Sprechen beginnen zu können, wenn auch vielleicht nicht immer druckreif. Besonders hilfreich ist hierbei die Wort-für-Wort-Übersetzung, die es ermöglicht, mit einem Blick die Struktur und "Denkweise" der jeweiligen Sprache zu durchschauen. +++++ Finnisch ist keine einfache Sprache. Durch diverse Endungen und komplizierte Wechsel der Fälle kann ein Wort schnell jegliche Ähnlichkeit mit seiner Grundform verlieren. Wenn man dann nicht weiß, wieso und warum, nützt einem auch ein klassisches Wörterbuch herzlich wenig. Diesem Problem soll dieses Kauderwelsch-Buch abhelfen. Aber es geht hier nicht um trockene Grammatikübungen, sondern vielmehr um den Spaß an der Sprache, und somit liegt der Schwerpunkt des Sprachführers auf ausführlichen Konversationsteilen und interessanten Hintergrundinformationen über Land und Leute. Schließlich geht es vor allem darum, zu verstehen und verstanden zu werden! Da nicht viele Ausländer

versuchen, Finnisch zu sprechen, freut sich jeder Finne schon über die kleinste Bemühung und wird eventuelle Fehler gerne verzeihen - der Kommunikation steht also nichts mehr im Wege.

Teaching Translation V&R unipress

Over the past half century, translation studies has emerged decisively as an academic field around the world, and in recent years the number of academic institutions offering instruction in translation has risen along with an increased demand for translators, interpreters and translator trainers. *Teaching Translation* is the most comprehensive and theoretically informed overview of current translation teaching. Contributions from leading figures in translation studies are preceded by a substantial introduction by Lawrence Venuti, in which he presents a view of translation as the ultimate humanistic task - an interpretive act that varies the form, meaning, and effect of the source text. 26 incisive chapters are divided into four parts, covering: certificate and degree programs teaching translation practices studying translation theory, history, and practice surveys of translation pedagogies and key textbooks The chapters describe long-standing programs and courses in the US, Canada, the UK, and Spain, and each one presents an exemplary model for teaching that can be replicated or adapted in other institutions. Each contributor responds to fundamental questions at the core of any translation course - for example, how is translation defined? What qualifies students for admission to the course? What impact does the institutional site have upon the course or pedagogy? *Teaching Translation* will be relevant for all those working and teaching in the areas of translation and translation studies. Additional resources for Translation and Interpreting Studies are available on the Routledge Translation Studies Portal.

While the web itself is about twenty years old, businesses are still implementing the technology into the fabric of the business model. The background section will focus on defining the building blocks for the framework including defining the basic components of Web 1. 0 which focused on the presence and business transaction. The Web 2. 0 section will focus on defining the basic building blocks of customer interactions, while the final section will focus on a review the wine industry. 2. 1 Web 1. 0: Presence and Electronic Commerce The term Web 1. 0 emerged from the research around the development of Web 2. 0. Prior to this, researchers commonly referred to Web 1. 0 as Electronic Commerce or E-Business. Where as, web 1. 0 focused on a read only web interface, Web 2. 0 focuses on a read-write interface where value emerges from the contribution of a large volume of users. The Internet initially focused on the command and control of the information itself. Information was controlled by a relative small number of resources but distributed to a large number which spanned the massive growth of the web itself. Like television before it, the web allowed for the broadcasting of information to a large number of users. Initial web sites were built simply to communicate presence or provide information on the business - self. This component includes information like marketing materials, investor relations, employment opportunities, and product information.
