From #1 New York Times bestseller Lauren Blakely, a steamy new romance about a quarterback on the rise, the off-limits team lawyer, and a spark too hot to resist. The first rule of football--don't screw with a streak. My career is finally looking up, and I'm leading a new pro team down the field every Sunday. No way will I mess with that. But when I meet the most stunning and captivating woman I've ever seen, I tell myself one night will have to be enough. But it's not. And now I can't get her out of my mind. Even when I'm playing. Even when I need to focus. Even when I'm on the hottest streak of my life. And it turns out, she's

not just some random woman I met. She works for the team. My team. \*\*\* I only have one goal this season--do my part as the team's lawyer to keep them out of trouble. Help rebuild their reputation on and off the field. There's no room for error and certainly no room for a secret tryst with a player . . . even if he's the quarterback. Right?

As an Olympic rookie, Andie Foster has spent far more time in her cleats than between the sheets. For 21 years, her Friday nights have consisted of blocking shots rather than taking them. But now that she's landed in Rio, she's ready to see for herself if the

rumors about the Olympic Village are true: - The athletes are all sex-crazed maniacs... - The committee passes out condoms like candy... - The games continue long after the medals have been handed out... As Andie walks the line between rumor and reality, she's forced into the path of Frederick Archibald, a decorated Olympic swimmer and owner of a sexy British accent-too bad he's unavailable in a way that "it's complicated" doesn't even begin to explain. In other words: off limits. It doesn't matter that he has abs that could bring peace to the Middle East and a smile that makes even the Queen blush; Andie fully intends on keeping her focus on the soccer field. But the Village is small. Suffocating. Everywhere Andie goes, Freddie happens to be there-shirtless, wet from the pool, and determined to show her a whole new meaning of the phrase "international affairs."

The mind of the machine, the body suspended in time, organs exchanged, thought computed, genes manipulated, DNA samples abducted by aliens: the terrain between science and speculation, fraught with the possibility of technological and perhaps even evolutionary transformations, is the territory Richard Doyle explores in *Wetwares*. In a manner at once sober and playful, Doyle maps potentials for human transformation by new ecologies of information in the early twenty-first century. *Wetwares* ranges over recent research in artificial life, cloning, cryonics, computer science, organ transplantation, and alien abduction. Moving between actual technical practices, serious speculative technology, and science fiction, Doyle shows us emerging scientific paradigms where "life" becomes more a matter of information than of inner vitality--in short, becomes "wetwares" for DNA and computer networks. Viewing technologies of immortality--from cryonics to artificial life--as disciplines for welcoming a thoroughly other future, a future of neither capital, god, human, nor organism, the book offers tools for an evolutionary, transhuman mutation in the utterly unpredictable decades to come.

A HARD-HITTING MEMOIR FROM A LIVING LEGEND In this outspoken and fearless autobiography, Jim Brown, arguably the greatest football player who ever lived, shares his story in the same way he played the game: full throttle, pull no punches, and don't spare a drop. His nine bone-jarring Hall of Fame years in the National Football League, and the multitude of records he set, are football legend. His second life as a film star who became the first black man to do a love scene with a white woman on an American screen is part of Hollywood lore. Incapable of anything less than total candor, Brown's uncensored words in these pages, like his electric breakaway runs on the gridiron, wield the power to astonish and amaze. Here, Brown names names, tells the truth behind the headlines, and reveals who the toughest, grittiest football warriors really were. His reflections on sex, fame, and his highly publicized encounters with the law are both frank and hilarious. His stories about cocaine and women are ugly and disturbing, as are his observations about the pervasive role of racism in the NFL. Insightful, impressive, and revelatory, *Out of Bounds* delivers the captivating play-by-play of an outstanding life.

Methodist minister and Civil War chaplain Edward McKendree Bounds (1835-1913) considered conversation with God as fundamentally vital to the Christian's life as physical breath. He devoted the last 17 years of his life to intense intercession and to penning some of the most perennially popular works about prayer. This attractive volume features the very best of his beloved writings. "God shapes the world by prayer. Prayers are deathless. The lips that uttered them may be closed in death, the heart that felt them may have ceased to beat, but the prayers live before God, and God's heart is set on them and prayers outlive the lives of those who uttered them; they outlive a generation, outlive an age, outlive a world." --from E.M. Bounds on Prayer Every Christian library needs the classics--the timeless books that have spoken powerfully to generations of believers. Hendrickson Christian Classics allow readers to build an essential classics library in affordable modern editions. Each volume is freshly retypeset for reading comfort, while thoughtful new introductions place each in historical and spiritual context. Attractive, classically bound covers look great together on the shelf. Best of all, value pricing makes this series easy to own. Planned to span the spectrum of Christian wisdom through the ages, Hendrickson Christian Classics set a new standard for quality and value.

In *Out of Bounds*, feminist Helen Lenskyj presents an insightful examination of the links between women's participation in sports and the control of their reproductive capacity and sexuality. She identifies the female frailty myth, the illusion of male athletic superiority and the concept of compulsory heterosexuality as powerful determinants of "masculinity" and "femininity" in the realm of sport. Looking at developments from the 1880's to the 1980's, Lenskyj discusses medical views of women's health and

physical potential and examines the social attitudes and practices that keep girls and women from participating in the full range of sports and physical activities. Topics include contact sports, self-defence, fitness, bodybuilding and women-only sport.

Photographs, memorabilia and eye-opening information covering 100 years reveals the missing links between women, sport and sexuality.

Bodies Out of Bounds University of Georgia Press

*Out of Bounds* focuses on the crucial role that conceptions of iconic colonial Indian spaces—jungles, cantonments, cities, hill stations, bazaars, clubs—played in the literary and social production of British India. Author Alan Johnson illuminates the geographical, rhetorical, and ideological underpinnings of such depictions and, from this, argues that these spaces operated as powerful motifs in the acculturation of Anglo-India. He shows that the bicultural, intrinsically ambivalent outlook of Anglo-Indian writers is acutely sensitive to spatial motifs that, insofar as these condition the idea of home and homelessness, alternately support and subvert conventional colonial perspectives. Colonial spatial motifs not only informed European representations of India, but also shaped important aesthetic notions of the period, such as the sublime. This book also explains how and why Europeans' rhetorical and visual depictions of the Indian subcontinent, whether ostensibly administrative, scientific, or aesthetic, constituted a primary means of memorializing Empire, creating an idiom that postcolonial India continues to use in certain ways. Consequently, Johnson examines specific motifs of Anglo-Indian cultural remembrance, such as the hunting memoir, hill station life, and the Mutiny, all of which facilitated the mythic iconography of the Raj. He bases his work on the premise that spatiality (the physical as well as social conceptualization of space) is a vital component of the mythos of colonial life and that the study of spatiality is too often a subset of a focus on temporality. Johnson reads canonical and lesser-known fiction, memoirs, and travelogues alongside colonial archival documents to identify shared spatial motifs and idioms that were common to the period. Although he discusses colonial works, he focuses primarily on the writings of Anglo-Indians such as Rudyard Kipling, John Masters, Jim Corbett, and Flora Annie Steel to demonstrate how conventions of spatial identity were rhetorically maintained—and continually compromised. All of these considerations amplify this book's focus on the porosity of boundaries in literatures of the colony and of the nation. *Out of Bounds* will be of interest to not only postcolonial literary scholars, but also scholars and students in interdisciplinary nineteenth-century studies, South Asian cultural history, cultural anthropology, women's studies, and sociology.
