Expert advice for helping an applicant's chances of acceptance by choosing the right words and phrases
As a teacher, professor, or an employer, you are often called upon for letters of recommendation--and

probably as often find yourself stumped about what to say. It can be a daunting task when someone's future is in the balance. This book, written by a writing expert, will help you find the right words--and avoid the pitfalls--of creating a recommendation. Author Paul Bodine explains what makes a recommendation letter good and also what can make it ineffective. The book

<p>contains paragraph- length examples of effective recommendati on letter writing for all types of situations. <u>Index to</u> <u>Library</u> <u>Supplies</u> Anchor "Like Richard Russo's Straight Man this book has a lot to say about the humanities in American colleges and universities.... new novel, *The English Experience*, coming soon. **The American School Board Journal** Oxford University Press Blanks, Print, Space, and Void in English Renaissance Literature is an inquiry into the empty spaces encountered not just on the pages of printed books in c.1500-1700, but in Renaissance culture more generally. The book argues that print culture in the

sixteenth and seventeenth centuries helped to foster the modern idea of the 'gap' (where words, texts, images, and ideas are constructed as missing, lost, withheld, fragmented, or perhaps never devised in the first place). It re-imagines how early modern people reacted not just to printed books and documents of many different kinds, but also how the very idea of emptiness or absence began to be

fashioned in a way which still surrounds us. Jonathan Sawday leads the reader through the entire landscape of early modern print culture, discussing topics such as: space and silence; the exploration of the vacuum; the ways in which race and racial identity in early modern England were constructed by the language and technology of print; blackness and whiteness, together with lightness, darkness, and sightlessness; cartography and emptiness; the effect of typography on reading practices; the social spaces of the page; gendered surfaces; hierarchies of information; books of memory; pages constructed as waste or vacant; the genesis of blank forms and early modern bureaucracy; the political and devotional spaces of printed books; the impact of censorship; and the problem posed by texts which lack endings or conclusions. The book itself ends by dwelling on blank or empty pages as a sign of human mortality. Sawday pays close attention to the writings of many of the familiar figures in English Renaissance literary culture - Sidney, Shakespeare, Donne, Jonson, and Milton, for example - as well as

introducing readers to a host of lesser-known figures. The book also discusses the work of numerous women writers from the period, including Aphra Behn, Ann Bradstreet, Margaret Cavendish, Lady Jane Gray, Lucy Hutchinson, Æmelia Lanyer, Isabella Whitney, and Lady Mary Wroth.
