In 1971 Louise Behrend collected a significant number of articles written about the Suzuki approach. These articles were published as a ten-part series in *Allegro*, the monthly newspaper of the New York Musicians' Union. The purpose was to clear up many widely held misconceptions about the Suzuki ideas and to encourage more fine players and teachers to explore Suzuki teaching. Now published in book form, this pioneering information becomes accessible to a much wider audience.

Afterword by Frank O'Hara Morton Feldman (1926-1987) is among the most influential American composers of the 20th Century. While his music is known for its extreme quiet and delicate beauty, Feldman himself was famously large and loud. His writings are both funny and illuminating, not only about his own music but about the entire New York School of painters, poets and composers that coalesced in the 1950s, including his friends Jackson Pollack, Philip Guston, Mark Rothko, Robert Rauschenberg, Frank O'Hara, and John Cage.

A journalist's access to the music icon gives this account an "authenticity that sets the book apart from other biographies about the man and the legend" (Steve Richards, *The Independent*). The man who introduced reggae to a worldwide audience, Bob Marley was a hero figure in the classic, mythological sense. From humble beginnings, with talent and religious belief his only weapons, the Jamaican recording artist applied himself with unstinting perseverance to spreading his prophetic musical message across the globe. In 1980, on tour,

Bob Marley and the Wailers played to the largest audiences a musical act had ever experienced in Europe. Less than a year later, Marley would die, only thirty-six years old. Sales of Marley's albums before his death were spectacular; in the years since he died, they have been phenomenal. Chris Salewicz interviewed Bob Marley in Jamaica in 1979. Now, for the first time, in this thorough, detailed account of Marley's life and the world in which he grew up and which he came to dominate, Salewicz brings to life not only the Rastafari religion and the musical scene in Jamaica, but also the spirit of the man himself. Interviews with dozens of people who knew Marley and have never spoken before are woven through the narrative as Salewicz seeks to explain why Marley has become such an enigmatic and heroic figure, loved by millions all over the world. "As gritty, entertaining, and starry-eyed as Marley himself." —Publishers Weekly "The definitive account of the man and the myth." —Steve Richards, *The Independent* "[Salewicz] invades and illuminates Marley's privacy more effectively than previous biographers." —Robert Sandall, *The Sunday Times* (London)

This groundbreaking study explores the later lives and late-life writings of more than two dozen British women authors active during the long eighteenth century. Drawing on biographical materials, literary texts, and reception histories, Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim -- despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of "classics," adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived, and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her Subjects and explains why many turned toward retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years

only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.

High-Tech Trash analyzes creative strategies in glitch, noise, and error to chart the development of an aesthetic paradigm rooted in failure. Carolyn L. Kane explores how technologically influenced creative practices, primarily from the second half of the twentieth and first quarter of the twenty-first centuries, critically offset a broader culture of pervasive risk and discontent. In so doing, she questions how we continue onward, striving to do better and acquire more, despite inevitable disappointment. High-Tech Trash speaks to a paradox in contemporary society in which failure is disavowed yet necessary for technological innovation.

"Did you see the big fight this weekend?" The question used to be about boxing matches, when the giants of the fight world were Mike Tyson and Roy Jones. "Helm lays it all bare in vivid, impassioned prose, adding an earthly, backwoods tone that makes the book read like a Southern novel, like Thomas Wolfe writing about rock 'n' roll." —Boston Globe "One of the most insightful and intelligent rock bios in recent memory." —Entertainment Weekly The Band, who backed Bob Dylan when he went electric in 1965 and then turned out a half-dozen albums of beautifully crafted, image-rich songs, is now regarded as one of the most influential rock groups of the '60s.
