This book is
organized in
three sections.
The three
articles in
Section one
introduce the
disciplines of
Contrastive
Linguistics
(CL) and
Translation

Studies (TS),
tracing their
evolution in
recent history
and outlining
the role
played by the
computer
corpus in
revitalising
and
redirecting
research in

each discipline. The six articles in Section two are a series of case studies, showing the range of variables that have to be taken into consideration in CL and TS. The four articles in Section three all deal with practical issues of corpus exploitation, both the software tools that can be used to support analysis and the ways in which multilingual and monolingual

corpora can be used to improve teaching and translation materials. -- pref.
L'image de la France dans la conscience anglaise, 1848-1900
 CUP Archive
 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable

solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole

according to a new series of conventions devised to give greater clarity and consistency to the entries.

The Cambridge Bibliography of English Literature

Oxford University Press
This book provides the fullest account ever published of the external influences on English during the first thousand years of its formation. In doing so it makes profound contributions to the history

of English and of western culture more generally. English is a Germanic language but altogether different from the other languages of that family. Professor Miller shows how and why the Anglo-Saxons began to borrow and adapt words from Latin and Greek. He provides detailed case studies of the processes by which several hundred of them entered English. He also considers why several centuries later

the process of importation was renewed and accelerated. He describes the effects of English contacts with the Celts, Vikings, and French, and the ways in which these altered the language's morphological and syntactic structure. He shows how loanwords from French, for example, not only increased the richness of English derivation but resulted in a complex competition between

native and borrowed suffixes. Gary Miller combines historical, cultural, and linguistic perspectives. His scholarly, readable, and always fascinating account will be of enduring value to everyone interested in the history of English.

Napoleon: Life, Legacy, and Image: A Biography

Routledge
This set includes the works of neglected theorists such as Horace Wyatt and

Michael West. This set complements English as a Foreign Language Teaching, 1912-1936: Pioneers of ELT.

The Publishers Weekly Brill Archive

The imaginary as a critical concept originated in the twentieth century and has been theorized in diverse ways. It can be understood as a register of thought; the way we interpret the world; the universe of images, signs,

texts, and objects of thought. In this volume, it is explored as it manifests itself in encounters between the verbal and the visual. A number of the essays brought together here explore the transposition of the imaginary in illustrations of texts and verbal renditions of images, as well as in comic books based on paintings or on verbal narratives. Others analyze ways

in which books deal with film or television and investigate the imaginary in digital media. Special attention is paid to the imaginary of places and the relationship of the imaginary with memory. Written in English and French, these contributions by European and American scholars demonstrate the various concerns and approaches characteristic of contemporary scholarship in word and image studies.

Teaching English as a Foreign Language, 1936-1961: Cours international d'anglais
BRILL
FRENCH SENTENCES
Vol.2: English & French
THIS EDITION: The dual-language text has been arranged into sentences for quick and easy cross-referencing. The text can be used on its own. However, the content is ideal for reinforcing grammar, and as a precursor to more advanced bilingual

editions. This digital edition contains the content in 'English to French' and 'French to English' formats. Once a student has studied the basics, a suitable book about basic grammar is helpful. The suggestion is that it be studied more with the intent of recognition and understanding, rather than memorising and obsessive rote learning. Go through as much of the book you feel you can digest — maybe

even the whole book — skipping over what is not easily understood. Then, read through a portion of text in this book, looking for examples of what you have picked up (or gleaned) in your hopefully not so arduous study of grammar. Even repeatedly seeing a word that you remember seeing listed as a ‘subject pronoun’ or a ‘third person plural’ verb of some sort is a great help. Then,

depending on your inclination, return to the grammar book (or your basic French book), or move on to lengthier bilingual text — like in ²Language Books texts containing news or stories, for example —, or find some suitable French text: a simple novel, a French news website, etc. Grammar books will likely have some verb charts. However, there are currently good on-line

resources that go further — dictionaries with a verb conjugation ‘search’ option. Many basic language books offer some form of audio support. Internet services — primarily news based radio stations — offer podcasts. Audio from television is an additional resource, and can be formatted for use on various digital platforms. However, if audio is an important component of your interest

in languages, electronic devices that support quality text-to-speech (TTS) will likely be appealing. With a library card, TTS technology (in a device that supports the relevant content), and the above mentioned resources, an entire language learning system is available for not much more than a cup of coffee! There is no substantial financial outlay to get you started.

Furthermore, there are no additional ongoing fees (and updates), and there are no expiry dates on 'premium' content and resources. (A Dual-Language Book Project) 2Language Books *Dictionnaire général anglais-français et français-anglais, nouvellement rédigé d'après Johnson, Webster, Richardson, etc., les dictionnaires français de l'Académie, de Laveaux, de*

Boiste, etc Cambridge University Press Cet ouvrage est une réédition numérique d'un livre paru au XXe siècle, désormais indisponible dans son format d'origine. *Samuel Beckett Comment C'est How It Is And / et L'image* BRILL Frederik Theodor Visser's An Historical Syntax of the English Language, published in four massive volumes between 1963

and 1973, is certainly one of the cornerstones of research in English linguistics. Visser's achievements can hardly be overestimated. Before the advent of modern corpus linguistics, he compiled a remarkable wealth of detailed philological data from all periods of English and combined this with current grammatical analyses of his time. This has made this publications an

indispensable resource for anyone investigating the history of English syntax. This reproduction of Visser's volumes is more than welcome, and timely, as the volumes have been out of print for quite some time and were sometimes a little bit difficult to navigate. Having a searchable and easy-to-use online version, although maybe not perfect, available now means a

revival for scholarship that celebrates its fiftieth birthday without losing any of its relevance.

The American Educational Catalogue

BRILL

Ce volume est la suite de S. P. Brock, C.T. Fritsch et S. Jellicoe, A Classified Bibliography of the Septuagint (Brill, Leiden 1973) pour les publications parues sur la Septante entre 1970 et 1993. Cette bibliographie regroupe

<p>d'abord les études sur le texte grec proprement dit- éditions, langue des traducteurs, techniques de traduction, critique textuelle, manuscrits de la Septante trouvés à Qumrân, réception dans le judaïsme hellénistique (Philon, Flavius Josèphe) et le christianisme ancien (Nouveau Testament et Pères). Viennent ensuite les études particulières, classées par</p>	<p>livre biblique, suivies des études sur les versions, orientales et latines, issues de la Septante. Le volume s'achève sur les travaux consacrés aux illustrations de la Septante. Cet instrument de travail s'adresse à tous ceux qui s'intéressent à la Bible, au judaïsme et au christianisme de l'Antiquité. This volume is a successor to A Classified Bibliography of the Septuagint (Brill, Leiden 1973), by S.P.</p>	<p>Brock, C.T. Fritsch and S. Jellicoe, for the literature on the Septuagint published between 1970 and 1993. It includes general publications on the Greek text — editions, language, translators' techniques, textual criticism, Septuagint manuscripts from Qumran and the use of the Septuagint in Ancient Judaism (Philon, Josephus) and Christianity (New Testament</p>
---	--	---

and Patristica). Particular studies are then classified by the individual books of the Bible, followed by literature on Oriental and Latin versions derived from the Septuagint. The studies on the illustrations of the Septuagint are included at the end. This reference tool will be indispensable for scholars or students interested in Bible, Judaism and Christianity in Late Antiquity.

Dictionnaire général français-anglais
2Language Books
This book contains the English and French texts and a complete record of the genesis of each. Besides Comment C'est How It Is, O'Reilly has included L'Image and an excerpt from Comment C'est that was published later in another volume.
The Standard Pronouncing Dictionary of the French

and English Languages, According to the French Academy, Etc
Taylor & Francis
The aim of this study is to provide an outline of the development, from the earliest times to the present day, of all the English syntactical constructions with a verbal form as their nucleus.
Professor Visser's description is based on a very extensive collection of documentary material covering every kind of

writing in prose and poetry in the Old, Middle and Modern periods, drawing on quotations illustrating syntactical phenomena in Bosworth & Toller, O.E.D., M.M.E.D., E.D.D., and D.O.S.T., but also making reference to obsolete usages not found in any grammar, and to the views of English and American grammarians of the 17th, 18th, and 19th centuries on the various syntactical constructions.

The volumes of this work originally appeared in the early sixties and seventies and were well received by readers and reviewers. Volumes 1 and 2 underwent correction in the light of these early reactions. We should like to think that this work will continue to be available to the scholarly world without great increases in the price. We are however only reprinting the individual volumes in

small numbers, and so we have decided that in order to guarantee a consistent reprint and pricing policy for the future, the work should be available henceforth only as a set of four volumes.
