information, in addition to techniques *
Provides advice on how to make well-
informed backcountry decisions Martin
Volken and his co-authors provide skiers
with all the tools and knowledge they
need to safely and successfully travel in
the mountain backcountry. The guide
features intermediate-to-advanced
techniques for ski touring and ski
mountaineering, from planning
backcountry trips to perfecting turns in
rolling terrain and mastering uphill
climbing. For those skiers ready for a
more technical, high alpine environment,
they draw on traditional mountaineering
skills, including roped climbing, setting
protection anchors, using ice axes,
climbing on bare rock, and more. In
addition to mastering techniques,
Backcountry Skiing also features
information on recent evolutions in ski
equipment; avalanche safety tips; a
primer on mountain weather and
glaciers, trip planning tools, a discussion
of emergency situations, nutrition and
fitness advice, and winter camping
basics. Throughout this guide, a special
emphasis is put on being well-informed
and making good decisions -- whenever
you strap on your skis and skins and
head out into the backcountry.
Backcountry Skiing Utah Falcon Guides

There is something extraordinarily
special about sliding on snow that has
excited generations of snow sports
enthusiasts. Add to this the dimension of
travelling through the mountains and the
result is a recipe for some of the best
outdoor activity days you could ever
imagine. I have been fortunate to share
some of these adventures with Henry
Branigan: Skiing off the summit of Mount
Blanc at dawn or, equally enjoyable,
skiing under the northern lights from hut
to hut in Norway, still my all-time
favourite way of travelling through the
mountains. A complete guide to alpine
ski touring, ski mountaineering and
nordic ski touring sets out to provide the
fundamentals about going off piste and
then journeying through mountain
terrain, in a logical, easy to read format.
Adapting ski technique for various off
piste conditions is an essential skill that
makes all the difference between
surviving and savouring adventures off
piste. The book also covers the
fundamental mountaineering knowledge
including navigation, weather and
avalanches that are essential before
venturing beyond the confines of a ski
area. Equipment and planning a tour are
covered, whether it is in an Alpine or
Nordic environment. All in all this is a
very comprehensive and valuable
resource for anyone aspiring to venture
into the mountains on skis. Bob Kinnaird

The Northwest's most popular backcountry ski guide

Backcountry Skiing and Ski Mountaineering in Rocky Mountain National Park Primento

This is a selected guidebook of ski tours in the European Alps. We have chosen classic ski tours at a variety of grades spread through the Alps, with some well-known venues and others not on the radar of British ski tourers. The 22 places selected have enough routes to keep you busy for a week or more's ski touring and will allow you to get to know the area well enough to inspire you to make up your own tours. Stunning photos, useful planning maps, and accurate descriptions make this the most up to date, english language guidebook to ski touring in the Alps available. In order to be as up to date as possible, the routes have been contributed by UIAGM/IFMGA guides who know the area well and have toured there recently. Contributors: Mike Austin, Martin Chester, Al Powell, Mark Charlton, Andy Teasdale, Tim Blakemore, Jonny Baird, Graham Frost, Bruce Goodlad, Terry Ralphs, Rob Collister, Olly Allen, Cain Olsen and Andy Perkins.

Freeride in the Dolomites The Mountaineers Books

Ski mountaineering guidebook to the Western Alps including the classic Haute Route, Chamonix to Zermatt, tours in the Ecrins, Vanoise, Haute Maurienne, Gran Paradiso, Mont Blanc, Valais and Uner Alps. The European Alps offer some of the finest and most accessible ski mountaineering in the world. A

combination of magnificent and varied terrain, an enviable snow record, excellent public transport, unrivalled hut system and long ski season make them a focus for mountaineers and skiers throughout the world. Volume 2 of this Alpine Ski Mountaineering series covers the Central and Eastern Alps. The routes described will provide a lifetime's ski mountaineering for the average skier, with rewards and challenges for all levels of ability.

The Regnery Guide to Ski Touring Jean Vives Publisher

50 Classic Backcountry Ski and Snowboard Summits in California offers some of the finest ski and snowboard descents in California, ranging over a 550-mile span from the Cascade Range in the north, to Mount Whitney, to the Sierra Nevada in the south. Grouped into nine geographical regions, these summits represent the best of the best from well-known destinations to more remote areas to a sampling of the highest peaks.

The Sierra High Route Rowman & Littlefield

Guides the reader to great skiing away from the crowds and provides the information every skier will want for fun and challenging high-country adventures.

Alpine Ski Mountaineering Vol 1 - Western Alps The Mountaineers Books Fry writes authoritatively of alpine skiing in North America and Europe, of Nordic skiing and of newer variations in the sport: freestyle skiing, snowboarding and extreme skiing.

THE ALPINE SKI TOURING BOOK UPNE

Discover the skiing downhill of the Tour Mountain in this very detailed and documented book, written by one of the most talented skiers of his generation.

Located at the very heart of the highest mountains of Europe, the majestic Tour massif stands as a reference among the most sacred skiing places in the world. When winter comes, this snow-addict heaven offers a unique range of dream slopes, from the easiest to the most breathtakingly high ones. Anselme Baud is an extreme skiing leading head and one of the best experts of this mountain. From classic skiing hikes to mountaineering competitions, this guide book presents a precise description of all the biggest slopes this mythic area could offer. In this volume you can find all the information about Le Tour. Thanks to his charming accounts and instructive advice, Anselme Baud shares with us his precious and wide experience as a high mountain guide and an exceptional skier.

ABOUT THE AUTHOR Born in Morzine in 1948, Anselme Baud made a mark on the Alps skiing steep slopes history. He was a high mountain guide in 1973, and was one of the first who skied extreme downhills in the Alps, the Andes, in Antarctica or in the Himalayas. As an ENSA professor, he supervised during several years the mountain guides training in Bolivia and Nepal.

EXCERPT The Le Tour ski station is served by the Charamillon-col de Balme lift systems. The skiing here is accessible, 'user-friendly' and good for all the family. For the more committed off-piste skier, there is also the descent to Les Jeurs in Switzerland on the north face, above Vallorcine. However, as with any area at the head of a valley, Le Tour is subject to frequent changes in the air currents and you should be aware of what they are doing if you are planning to ski the routes here. In fact, although Le Tour has an image as an area for relatively easy 'moyenne montagne' skiing, you should not underestimate the

ever-present risks. The accumulation of snow that occurs as a direct result of these specific conditions is responsible, each year, for a number of accidents and avalanches. The high mountains that overlook this mixture of forests and pastures form the eastern extremity of the Mont Blanc Massif and it has been quite calm here since the snout of the glacier avalanched.

Alpine Ski Touring and Ski

Mountaineering Handbook Cicerone Press Limited

Book which focuses on teaching backcountry travellers to recognize, evaluate, and avoid avalanche hazards by gathering available key information and clues from the snowpack, weather, and terrain.

Le Tour - Mont Blanc and the Aiguilles Rouges - a Guide for Skiers

Main Street Books

This book is about Alpine ski Touring and takes you through a step by step guide on everything that you need to know to get you from a novice ski tourer into the professional. It covers all the salient points for moving on skis and explains how the technical equipment should be used including all the skills that are required to start touring as well as leading a group. It can also be used as a guide for off piste skiers and snow boarders as well as Telemark and Nordic tourers. Each chapter has its own topic as the book takes you through well laid out progressions from your first steps uphill to longer tours moving from hut to hut over glaciated terrain. The photographs complement the text in every way giving a clearer picture of what the equipment looks like and how it should be used. Nothing has been left out and some of the chapters explain all the points to be considered when planning a tour, or overnighing, as well

as emergency procedures. And to make the tour safer there are chapters on avalanche awareness and weather. By the time you get to the end of the book you will be armed with all the skills, techniques and knowledge needed to go out and enjoy the sport of ski touring.

A Complete Guide to Alpine Ski Touring Ski Mountaineering and Nordic Ski Touring AuthorHouse

Presents historical background on ski mountaineering, which is climbing a mountain on skis and then skiing down the slopes, and offers tips on climbing and skiing specific mountains.

Wild Snow Rowman & Littlefield

Fully revised and updated 2nd edition including an entirely new chapter on avalanches. If you want to leave the confines of the piste, and explore the mountains and valleys beyond, then this is the book for you. Everything you need to make the transition from piste skiing to ski touring is here, from downhill off-piste and uphill skills to avalanche awareness. All aspects are covered in detail, with clear descriptions and stunning photos. The first section of the book covers the knowledge and techniques required to travel beyond the marked trail. The second part contains a selection of Bruce's favourite tours, in guidebook style, to help you plan your own backcountry adventure. Key chapters include: Downhill Skills, Uphill Skills, Glacier Skiing, Avalanches, Winter Weather, and Planning a Ski Tour.
