The face of the pedestrian
safety crisis looks a lot
like Ignacio Duarte-
Rodriguez. The 77-year
old grandfather was
struck in a hit-and-run
crash while trying to cross
a high-speed, six-lane
road without crosswalks
near his son's home in
Phoenix, Arizona. He was
one of the more than
6,000 people killed while
walking in America in

2018. In the last ten years, there has been a 50 percent increase in pedestrian deaths. The tragedy of traffic violence has barely registered with the media and wider culture.

Disproportionately the victims are like Duarte-Rodriguez—immigrants, the poor, and people of color. They have largely been blamed and forgotten. In *Right of Way*, journalist Angie Schmitt shows us that deaths like Duarte-Rodriguez's are not unavoidable "accidents." They don't

happen because of jaywalking or distracted walking. They are predictable, occurring in stark geographic patterns that tell a story about systemic inequality. These deaths are the forgotten faces of an increasingly urgent public-health crisis that we have the tools, but not the will, to solve. Schmitt examines the possible causes of the increase in pedestrian deaths as well as programs and movements that are beginning to respond to the epidemic. Her investigation unveils

why pedestrians are dying—and she demands action. *Right of Way* is a call to reframe the problem, acknowledge the role of racism and classism in the public response to these deaths, and energize advocacy around road safety. Ultimately, Schmitt argues that we need improvements in infrastructure and changes to policy to save lives. *Right of Way* unveils a crisis that is rooted in both inequality and the undeterred reign of the automobile in our cities. It

challenges us to imagine and demand safer and more equitable cities, where no one is expendable.

National Geographic Backyard Guide to the Night Sky, 2nd Edition National Geographic Books
Compiled from the favorite trips of National Geographic's legendary travel writers, *Drives of a Lifetime* spans the globe to reveal the best celebrated and lesser-

known road trips on the planet. Inside this fully updated and revised edition--featuring more than 20 new drives--you'll find routes through spectacular landscapes, ideas for quick getaways, leisurely journeys of discovery, and revelations of secret worlds beyond Google Maps. Some are legendary long-distance odysseys; others are easy day trips close to home, taking you down charming local byways. All will inspire you to pack up the car and hit the road. The possibilities are endless:

Take Colorado's San Juan Skyway for a 10,000-foot climb over towering mountain passes. Or travel the ancient Silk Road on an expedition across Central Asia and through time. Or why not drive the perimeter of Puerto Rico, a tropical paradise with many beaches along the way? Whatever your taste and budget, you'll find plenty of routes tailored to your interests. Alongside detailed descriptions, full-color maps guide the way and planning tips help you make the most of your

journey; top 10 lists offer quick, easy side trip ideas. Beautiful, informative, and inspiring, this luxurious volume is a lifelong resource that readers will treasure. The Negro Motorist Green Book National Geographic When the scenery out the car window is breathtaking, drivers and their passengers want maximum gaze time. Our popular road guide, completely revised and updated, features contiguous text and maps so visitors can follow the maps and descriptions as

they drive along. The book's efficient design eliminates having to flip back and forth between maps and text and count odometer mileage--a major frustration of other road guides. This indispensable guide tracks the major roads within Yellowstone National Park and its neighbor Grand Teton National Park. Detailed topographical maps point out where to look for wildlife such as mountain goats, bighorn sheep, elk, deer, and bear; geological formations; historical

sites; and plants. Also included are locations for camping, fishing, and boating within the Wyoming parks. Several pages of maps and accompanying text cover the popular Grand Loop Road, describing the formation of the 308-foot Lower Falls, Yellowstone Canyon's best views from Artist's Point, and how Mud Volcano lives up to its name. This road guide not only helps visitors find their way around but also makes the trip richer, more interesting, and more enjoyable.

The Negro Motorist Green Book was a groundbreaking guide that provided African

American travelers with crucial information on safe places to stay, eat, and visit during the era of segregation in the United States. This essential resource, originally published from 1936 to 1966, offered a lifeline to black motorists navigating a deeply divided nation, helping them avoid the dangers and indignities of racism on the road. More than just a travel guide, *The Negro Motorist Green Book* stands as a powerful symbol of resilience and resistance in the face of oppression, offering a

poignant glimpse into the challenges and triumphs of the African American experience in the 20th century.
