*A Wrinkle in Time* Penguin

"This ghost story gave me chill after chill. It will haunt you." -- R.L. Stine, author of Goosebumps "Do you know what it feels like to be forgotten?" On a cold winter night, Iris and her best friend, Daniel, sneak into a clearing in the woods to play in the freshly fallen snow. There, Iris carefully makes a perfect snow angel -- only to find the crumbling gravestone of a young girl, Avery Moore, right beneath her. Immediately, strange things start to happen to Iris: She begins having vivid nightmares. She wakes up to find her bedroom window wide open, letting in the snow. She thinks she sees the shadow of a girl lurking in the woods. And she feels the pull of the abandoned grave, calling her back to the clearing... Obsessed with figuring out what's going on, Iris and Daniel start to research the area for a school project. They discover that Avery's grave is actually part of a neglected and forgotten Black cemetery, dating back to a time when White and Black people were kept separate in life -- and in death. As Iris and Daniel learn more about their town's past, they become determined to restore Avery's grave and finally have proper respect paid to Avery and the others buried

there. But they have awakened a jealous and demanding ghost, one that's not satisfied with their plans for getting recognition. One that is searching for a best friend forever -- no matter what the cost. The Forgotten Girl is both a spooky original ghost story and a timely and important storyline about reclaiming an abandoned segregated cemetery. "A harrowing yet empowering tale reminding us that the past is connected to the present, that every place and every person has a story, and that those stories deserve to be told." -- Renee Watson, New York Times bestselling author of Piecing Me Together

Everything is different there. It's a mirror image, except things are wrong. Evil. Their mother tried to fix it, but she and an ally got trapped there along with Ms. Morales, their friend Natalie's mom. Now the four kids—brave Chess, smart Emma, kind Finn, and savvy Natalie—are determined to rescue everyone.

Dad says because of the army he stood shoulder to shoulder with polar bears and watched the sun rise over the frozen fields of Alaska, which sounds really exciting. And because of the Army he slept in sludge, shoulder to shoulder with snakes and watched the sun set over the swamps of Alabama -- which does not. In a timely, but not politically charged way, author Alan Madison looks at the way a family copes with having a parent away on a 100 day, 99 night military tour of duty through the eyes of the very loveable Esmerelda (Esme) Swishback McCarthur. Esme wants to be good while her dad is away. In fact, she feels like it's her duty to be good. But being good can be hard, especially if you have a little brother like Ike. By following Esme's story, as she awaits her father's return, readers will see how heroism can translate to every member of a family. Aside from the military families that this book serves, readers who wonder what it would be like if their mother, father, brother, or sister was sent away will relate to Esme's quiet strength and candor and will understand her worry about what could happen. This story has the potential to speak to readers on a personal level and to turn a concept that seems so hard to grasp--war--into one that feels much more personal.

Named one of *Vulture's* Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the Cult of Smart is destroyed.

If middle school were a race, Joseph Friedman wouldn't even be in last place—he'd be on the sidelines. With an overactive mind and phobias of everything from hard-boiled eggs to gargoyles, he struggles to understand his classes, let alone his fellow classmates. So he spends most of his time avoiding school bully Charlie Kastner and hiding out in the Resource Room, a safe place for misfit kids like him. But then, on the first day of seventh grade, two important things happen. First, his Resource Room teacher encourages (i.e., practically forces) him to join the school track team, and second, he meets Heather, a crazy-fast runner who isn't going to be pushed around by Charlie Kastner or anybody else. With a new friend and a new team, Joseph finds himself off the sidelines and in the race (quite literally) for the first time. Is he a good runner? Well, no, he's terrible. But the funny thing about running is, once you're in the race, anything can happen.
