Cases for PACES Wiley-Blackwell

Suitable for candidates preparing for the MRCPCH exam, this title includes 24 specialty-based chapters that provide concise information in an accessible format.

MRCP Part 1: 400 BOFs JP Medical Ltd

A comprehensive guide to the Final FRCEM examination, OSCE Revision for the Final FRCEM covers over 100 topics in emergency medicine. It is mapped to the curriculum for the Royal College of Emergency Medicine, and is structured by the domains in the syllabus. Ideal for helping you practice in pairs or groups, each topic starts with a clinical situation for the candidate, instructions for an actor or revision buddy, and a mark sheet so you can score yourself effectively against the FRCEM criteria. Each question contains a pie chart to demonstrate how the marks will be assigned so you know where to focus your efforts. Topics include learning points so you can learn about the nuances of the stations and improve your answer next time. References to guidelines or evidence-based rules are included to further your study. Written by a team of authors who have successfully passed their FRCEM examination, OSCE Revision for the Final FRCEM will give you all the essential tips, insights, and guidance you need for thorough exam preparation.

Get Through MRCP Part 1: BOFs JP Medical

This book is a practical revision aid for postgraduates preparing for MRCS (Membership of the Royal College of Surgeons) examinations. Presented in 'single best answer' (SBA) format, the book provides candidates with 300 questions on anatomy, accompanied by

detailed answers.

Exercise Physiology Cambridge University Press

The forerunner to this book - Ryder, Mir & Freeman's 'An Aid to the MRCP Short Cases' - rapidly established itself as a classic and has sold over 30,000 copies.

The new Progressive Assessment of Clinical Examination Skills (PACES) has replaced the old short case exam and, as a result, the authors have revised, reworked and extended their highly successful text so that it continues to address the study needs of candidates.

This new revision aid is now presented in two volumes: An Aid to the MRCP PACES Volume 1: Stations 1, 3 and 5 An Aid to the MRCP PACES Volume 2: Stations 2 and 4 This Volume covers Station 2 'History Taking' and Station 4

'Communication Skills'. In the 'History Taking' section at least 50 examples of each type of question and case are included, together with scenarios with simulated patients. The focus of the book is very much on the examiners' expectations so that candidates have a true picture of the areas on which they are being tested. Station 4

'Communication Skills' also covers the ethical issues in the doctor-patient relationship, such as managing organ transplantation, consenting for hospital post-mortem, etc. Also included in this Volume is the 'Experiences and Anecdotes' chapter providing real quotes from both candidates and examiners - this helps the candidate to avoid the more common pitfalls of the exam.

Medicine for MRCP JP Medical Ltd

Featuring a wealth of practice questions, MRCP PART 2: 450 BOFs allows trainees to test themselves on everything they need to know to pass the MRCP Part 2 written exam.

Essential Revision Notes in Paediatrics

for the MRCPCH PasTest Ltd

To provide a forum for discussion, the International Conference on Fatigue Science was organized, the first being held in 2002 in Sandhamn, Sweden, and the second in 2005 in Karuizawa, Japan. Subsequently it was decided that the papers presented at the two conferences should be collected. The result is an authoritative guide to recent progress in the molecular and neural mechanisms of fatigue and in the development of the ways to prevent and overcome fatigue and chronic fatigue.

Essential Anatomy for Finals and MRCS: 300 SBAs Springer Science & Business Media

Get Through MRCP Part 1: BOFs provides over 600 questions and answers, allowing the reader to test their knowledge in preparation for the MRCP Part 1 examination. Questions are presented in the style used in the real examination, and answers are supplemented with useful additional explanatory material to help the reader understand why their answer was right, or wrong. The book offers a useful review of all elements of the syllabus, so the reader can feel fully prepared when they enter the examination room.

MRCOG Part 1: 400 SBAs John Wiley & Sons

The forerunner to this book - Ryder, Mir & Freeman's 'An Aid to the MRCP Short Cases' - rapidly established itself as a classic and has sold over 30,000 copies. The new Progressive Assessment of Clinical Examination Skills (PACES) has replaced the old short case exam and, as a result, the authors have revised, reworked and extended their highly successful text so that it continues to address the study needs of candidates. This new revision aid is now presented in two volumes: An Aid to the MRCP PACES

Volume 1: Stations 1, 3 and 5 An Aid to the MRCP PACES Volume 2: Stations 2 and 4 This Volume covers Station 1 'Respiratory and Abdominal Systems', Station 3 'Cardiovascular and Neurological Systems' and Station 5 'Skin, Locomotor, Eyes and the Endocrine System'. The 200 cases have been written in accordance with the new examining and marking schemes used for the exam. They provide an invaluable training and revision aid for all candidates.

Essential Revision Notes in Medicine for Students JP Medical Ltd

The twelfth edition of this textbook has been fully revised to present undergraduates and ENT trainees with the most recent advances in the diagnosis and treatment of ear, nose and throat diseases. Organised by anatomical region, each section begins with anatomy and physiology then covers the investigation, diagnosis and management of related diseases and disorders. Each section includes multiple choice questions (MCQs) for self assessment. This new edition includes many new illustrations, as well as additional chapters on neck masses, chemotherapy for head or neck tumours, otolaryngologic concerns in syndromal children, and histopathology of common ENT diseases. Key points Fully revised, new edition on ear, nose and throat diseases Organised by anatomical region, covering many disorders MCQs included for self assessment in each section Nearly 400 full colour images and illustrations Previous edition published in 2008

MRCP Part 2: 450 BOFs OUP Oxford
Written by experienced MRCOG question setters and course convenors, this text contains 500 practice questions with explanations and key references.

MRCP PACES Jones & Bartlett Learning

An essential preparation book for the ACSM Certified Exercise Physiologist examination, ACSM's Resources for the Exercise Physiologist, 3rd Edition, is an essential volume for certification candidates and practicing Exercise Physiologists looking to boost their exam confidence and achieve success in practice. This updated edition is fully aligned with the eleventh edition of ACSM's Guidelines for Exercise Testing and Prescription and reflects the most current standards and practices in exercise physiology. Published by the American College of Sports Medicine, this practical resource is organized around the scope of ACSM-EP practice domains. A clear introduction to understanding exercise, physical activity, and pre-exercise screening opens the book, followed by thorough coverage of assessment and programming for healthy populations, assessment and programming for special populations, counseling and behavioral strategies for encouraging exercises, and legal, management and professional issues relevant to practice.

MRCOG Part 2: 500 SBAs and EMQs JP Medical Ltd

Medicine for MRCP provides a comprehensive review of the material that you need to pass the MRCP Parts 1 and 2 written papers. The twenty-seven chapters mapped out to the RCP syllabus, cover all areas from molecular medicine and genetics, through to medical law and ethics. Written by specialist contributors and educational experts, the content is carefully crafted to build your understanding for both papers. Each chapter begins with the basic science required for Part 1, before covering clinical medicine for Part 1, Part 2 and the PACES examinations. To

ensure effective revision, material is presented in short sections with bullet lists, tables, and boxes. Over 150 drawings and photos illustrate key principles and clinical topics making them easier to retain. References to evidence-based protocols and directions to further reading allow for deeper understanding. Candidates can review their progress via the 180 end-of chapter self-assessment questions. Drawing on the authors' expertise, *Medicine for MRCP* is the ideal companion for the MRCP as well as a useful reference guide for practicing medical doctors.

PACES for the MRCP JP Medical Ltd

Reflecting the new exam format, *MRCOG PART 1: 550 SBAs AND MCQs* offers the most up-to-date and comprehensive coverage of practice questions, for trainees preparing for the MRCOG Part 1 exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision text to maximise chances of exam success. 550 questions, reflecting the breadth of topics encountered in the actual exam Answers feature concise descriptions to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice Includes two complete mock papers to practice and improve exam technique Visually-enhanced answers to improve understanding of key concepts

Training in Medicine Jaypee Brothers Medical Publishers

A book of over 150 cases which mimic the style and approach of the MRCP PACES exam. The book will equip the candidate attempting to pass the MRCP examination, and will also provide an

overview of evidence-based medicine for competency-based training.

ACSM's Resources for the Exercise Physiologist OUP Oxford

MRCP Part 2: 450 BOFs, Second Edition offers a comprehensive selection of practice questions for trainees preparing for the MRCP Part 2 exam. Chapters are arranged by specialty and the weighting of questions is proportional to the exam. Thoroughly updated and featuring a wealth of practice questions that will test your ability to apply clinical understanding and make clinical judgements, this book is an essential revision tool to maximise the chances of exam success. Key points Gives practical advice on how to approach revision and useful tips to help improve exam technique Contains questions that accurately reflect the format and the range of difficulty in the exam Includes image interpretation questions in full colour

MRCOG Part 1: 550 SBAs and MCQs JP Medical Ltd

Cases for PACES provides a concise study aid to Part II of the MRCP examination; the Practical Assessment of Clinical Examination Skills or PACES. The new edition of this very popular study guide has been completely updated, and now includes scenarios for Station 5, introduced in October 2009. Featuring a 'case study' format that matches the style of the exam, it includes all the essential information - perfect for on-the-way revision and study. Written by authors who remember their own PACES examination, their experience in learning and teaching PACES is condensed to provide exactly what you need to know to pass. With its informal style, Cases for PACES is also ideal for self-directed learning in groups, and will help you hone your clinical skills and

boost your confidence in the run-up to the examination. For more titles to help you prepare for MRCP examinations go to <http://www.wileymedicalstudent.com/www.wileymedicaleducation.com/>

MRCP Part 1 JP Medical Ltd

This book is a practical revision guide for postgraduates preparing for the OSCE element of the FRCEM Final examinations. Divided into nine sections, each chapter covers a different element of the exam, beginning with history taking and communication skills, then discussing various systems of the body. Each station opens with a summary of relevant clinical information, followed by a practice OSCE scenario and examiner mark sheet. This third edition has been fully updated in line with the FRCEM Final syllabus and features many new scenarios, providing candidates with the ideal revision tool to help them achieve success in the examination. Key points Practical revision guide for candidates preparing for the OSCE element of the FRCEM Final examinations Covers various elements of the exam including history taking and communication skills, and various systems of the body Each station provides a summary of relevant clinical information, a practice scenario and examiner mark sheet Fully revised, third edition updated in line with the FRCEM Final syllabus and with many new scenarios

Oxford Handbook for the Foundation Programme JP Medical Ltd

First published in 2016. Routledge is an imprint of Taylor & Francis, an informa company.

Mnemonics for MRCP Oxford University Press

The Oxford Handbook for the Foundation Programme returns for a new edition with clear and thorough clinical guidance

and honest advice to help you excel in your first two years as a doctor. This edition has been fully updated in line with the latest guidelines and gives you practical, step-by-step guidance on everything from neurological to gastroenterological presentations. Emergency presentations are easily identifiable, giving you fast access to the information you need. This edition also includes a fully revised chapter on pharmacopeia with references to the British National Formulary, as well as chapters on practical procedures and interpreting results, acting as a guide for surviving on - and off - the wards. The Oxford Handbook for the Foundation Programme is also a unique resource for things they don't teach you at medical school about being a doctor and life on the wards. The authors have drawn on their own experiences and careful research to help you understand issues ranging from your pay and pension, stress and workplace relations, paperwork, and career development. This is an excellent resource for Foundation Programme trainees and

medical students preparing themselves for life as a doctor. With this pocket-sized guide at your side you'll never be alone on the wards again.

The Pocketbook for PACES PasTest Ltd MRCP PART 1: 400 BOFs offers a wealth of practice questions covering a wide range of topics for trainees preparing for the MRCP Part 1 exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in each clinical specialty. Featuring fully descriptive answers and extensive referencing, this book provides the essential revision tool to maximise chances of exam success. Key Points 400 Best of Five questions reflect the breadth of topics encountered in the actual exam Practical advice on how to approach revision and useful tips to improve exam technique Answers feature concise case-based descriptions to consolidate knowledge Answers illustrated to improve understanding of key concepts Complements MRCP Part 2: 450 BOFs and MRCP PACES: 250 Clinical Scenarios - the complete MRCP revision package
