The topics in the book are organized in
the same manner as they would actually
arise in a construction project. First, the
book deals with pre-construction issues
licensing, bidding, and the formation of
the construction contract. It then
discusses what happens when things go
wrong with breach of contract by the

owner and/or the contractor. An in-depth analysis is provided with regard to claims involving delay, disruption, and acceleration. Several chapters are then devoted to statutory remedies- mechanics' liens, stop notices, and bonds both on public and private works. Finally, coverage is provided on other issues and subjects involving the construction industry, including expanding liability, home improvement contracts, bankruptcy, and alternative dispute resolution.

This how-to manual can help you make electrical contracting profitable and rewarding. NFPA teamed up with electrical expert and well-known author Paul A. Rosenberg to create a road map loaded with financial and technical guidance. *Successful Electrical Contracting* tells you how to write a business plan, create your company infrastructure, and market yourself in any business climate! All the bases for bidding and estimating are covered, along with the justification of profit and definitions of overhead. Find out where to locate trained workers and how to manage your team, plus get tips on future planning, succession, and more. A chapter on specialty work addresses

datacom, security, and fire alarm contracting.

California Property Law for Paralegals

Consolidated Case(s): F004346_x000D_

Important Statutes Relating to the Department of Public Works, Division of Highways and the California Highway Commission

Designed to simplify material while maximizing student interest, California Property Law for Paralegals is a well-organized, clearly written, practical text. This concise yet comprehensive book will provide students the tools they need but will not overwhelm them because it is geared specifically to the needs of paralegal students. Written so that class lectures can be prepared with ease, this text features: Practical problem solving exercises and hypotheticals presented in an interesting and attention-grabbing style with an eye to engaging the reader Ethical issues discussed throughout the

text that challenge the students and prepare them for practice An option for instructors to encourage students to draft assignments in IRAC form to better prepare students for the workplace and to make grading easier for instructors Chapters ending with a review of important terms, concepts, definitions, and chapter review questions. The author engages both students and instructors with four special features intended to facilitate mastering the law through practical application: Judge for a Day uses a paraphrased judicial opinion or fact pattern that does not reveal the holding of the case. Students are asked to predict the judge's ruling. These can be used to trigger classroom discussion or used in a mock trial. The Client Comes Calling presents a challenge or task that

a paralegal may encounter in the course of an ordinary day in a law firm. This feature spotlights ethical considerations and also introduces students to the business side of the practice of law. *Sharpening the Saw: An Exercise in Issue Spotting* trains paralegals to think like legal professionals. Students are asked to read a set of facts and then to identify and effectively convey the issue in writing. This feature is presented in such a way that an instructor can determine how much emphasis to place on legal writing. *Out of the Ivory Tower* reminds students that clients use law firms to solve problems. This feature encourages creative thinking and a focus on the "big picture." Without a doubt, *California Property Law for Paralegals* is your best alternative for an easy to teach, focused,

California-specific property text aimed specifically at paralegals.

Multistate Guide to Sales and Use Taxation: Construction provides guidance to construction contractors for dealing with the difficult sales and use tax issues inherent in their businesses, particularly if they operate in several states. In addition to the usual problems in complying with different bodies of law, administering a hodge-podge of state and local tax rates, and dealing with a variety of tax agency audit programs, the contract process and insufficient recordkeeping further complicate an already complicated task.
